### RUIN OF CAUSE MAY RESULT

#### This is View Unless Decent Self-Control is Recovered—Speculation as to Government Course—The Doctors and the Insurance Act

(Special Cable to The Times)

London, Nov. 16.—The great mass of English people are amazed and disgusted at this week's parliamentary outbreaks. For the first time in modern history the authority of the speaker has been practically defied by a large section of the house, and the responsible leaders of a great party have deliberately committed violence. The old school Tories, like Professor Dwyer, are openly deploring their party's tactics. He is expressing his indignation and declaring his firm conviction that—

"The cause of Unionism may be ruined and quite possibly rapidly ruined if the opposition cannot recover that decent self-control which every Englishman is accustomed to expect. The rowdiness of the suffragettes has ruined the cause of women's suffrage. Every sane Unionist knows that the parliamentary rowdiness of the Unionists may easily bring about ruin of the Unionists. Nevertheless Unionists have succeeded for the first time in this parliament in effectively delaying legislation. In doing this they have also damaged the government's prestige in popular eyes. The speaker's action in bringing about an adjournment of the house, which was taken after a conference with the king, is interpreted by Unionists as a triumph of their cause, and the more violent section are exultant.

Thus Mr. Garvin in tonight's Pall Mall Gazette declares—

"This has been a week of triumph for the Unionists. They have completely succeeded. The rank and file of the Unionist party, not sharing the doubts of the more thoughtful section, are exultant. Thursday evening's meeting at Albert Hall, when the new tariff reform programme was announced by Lord Lansdowne, was the scene of enthusiasm such as British Toryism has rarely known in recent years.

One section of the Liberal party is inclined to be resentful against Mr. Asquith for immediately accepting the speaker's suggestion for an adjournment. They advocate a more vigorous policy and would ride roughshod over the opposition. This policy would probably lead to the immediate resignation of the speaker, and would alienate much public sympathy. A serious blow has already been struck at parliamentary institutions.

### THE DOCTORS AND THE INSURANCE ACT

This week's meetings of doctors through out the country has shown remarkable majorities against accepting the Lloyd-George amended insurance act proposals. It is generally anticipated that next week's representative meeting of the British Medical Association, which will decide the matter, will refuse to accept by a landslide vote. The doctors in the industrial towns have voted hostile even more emphatically than others. They resent the conditions which accompanied the chancellor's offer, and the medical resolutions issued by the insurance commission.

Probabilities Here.

Fresh to strong northerly to westerly winds fair and a little colder today and on Sunday.

### MEN PROMINENT IN SCENE OF UPRAID IN THE BRITISH COMMONS

Sir Frederick Drakebury, Bt., M.P.

London, Nov. 16.—The great mass of English people are amazed and disgusted at this week's parliamentary outbreaks. For the first time in modern history the authority of the speaker has been practically defied by a large section of the house, and the responsible leaders of a great party have deliberately committed violence. The old school Tories, like Professor Dwyer, are openly deploring their party's tactics. He is expressing his indignation and declaring his firm conviction that—

### THE OUTLOOK FOR PEACE OF EUROPE

The outlook for European peace is more favorable than ever. Austria's moderate attitude is now being generally praised. Turkey's last efforts at defense have hopefully broken down, though they have delayed Bulgaria longer than was anticipated. The suggestion of turning the Turkish neck and crop of Europe, which started the world a fortnight ago, is now rapidly being regarded as inevitable and highly desirable. Albania's status may say hour be fixed by the Albanians, declaring their independence, and securing recognition of that independence from Austria and Italy. Turkey is literally without a friend among the European powers today. Her sole hope is that the interests of foreign bondholders may bring about some re-organization which will leave her some European territory as security for the loans.

Everyone is enquiring what measures the government will have to justify to make up for the fortnight lost by this week's parliamentary outbreaks. The mental disability bill will almost certainly go. There are strong rumors that the Welsh disestablishment bill will also be dropped. This may lead to many further difficulties. The Welsh people have openly threatened revolt against the Liberal party if the bill is further delayed. When Lloyd-George visited Wales in the spring they warned him their patience was exhausted. He is pledged to insist on the bill going through. Will he take this opportunity of resigning? His much-heralded land reform campaign has been postponed, his prestige has suffered somewhat by the unpopularity of the insurance act. Nevertheless his loss would be a very real blow to the Asquith government. Al together the English Liberals are not over-cheerful this week end.

### SHOOTING OF MAN THE WORK OF TWO BOYS

Toronto, Nov. 16.—Benjamin Gilbert, fifteen years, and William Cook, twelve years, were taken into custody yesterday in connection with the shooting of Eric Bohoff, a Macedonian, living at 23 Erin street, a few days ago. The boys told the police that they were looking for adventure.

When asked why they did the shooting they said that "they did not mean to do the man an injury." After being closely questioned the lads admitted they had committed twelve robberies within the last two years. They wanted to see some "wild west" life and they worked with the cunning of professionals.

Gilbert confessed to having fired the shot, while Cook said he had been accessory.

### P. E. I. BLACK FOXES ARE SOLD IN RUSSIA

Charlottetown, Nov. 15.—Excitement attending the black fox industry in this province was considerably heightened by news of the sale of six pairs of foxes from Charles Dalton Ranching Co. to a Russian nobleman for \$100,000, to be delivered in Russia next September, by Dalton personally. This year the price offered at \$10,000 a pair, and has been steadily advancing. The fact that Russia is to start fox breeding should give great impetus to the industry here.

### GUNMEN'S CASE WITH THE JURY ON TUESDAY

New York, Nov. 16.—Sam Schepps, Harry Vallon, Bridge Webber and Jack Rose were expected to take the stand today in the trial of "Gyp the Blood," "Lefty Louie," "Winney Lewis," and "Dago Frank" for the murder of Herman Rosenthal. They were expected to be called to rebut the testimony introduced by the defense that the shots that ended the gambler's life were fired by two of the informers and an unidentified stranger.

Monday, it is expected, will be devoted to summing up, and Justice Goff probably will charge the jury on Tuesday morning, placing the case in his hands on Tuesday afternoon.

### COMMISSIONER REPORTS CHANGES IN WORKMEN'S COMPENSATION LAW

Toronto, Nov. 16.—The report of the commission on revision of the insurance acts and compensation to working men have inserted in the report clauses which the government is recommended to adopt, and which give the working man compensation for injury without recourse to the law courts.

The liability of the insurance companies is to be made partly private. Under the present law, corporations insure their workmen and as soon as an accident happens the insurance company is notified and writes issued against the corporations are turned over to them to fight. This practice will be stopped by making the employing company responsible for injuries to its servants.

#### Attorney-General Wickersham Orders Inquiry Into Traffic Agreement

##### VIOLATION OF SHERMAN LAW?

#### President Chamberlain in New York Gives Out Statement in Reply to Matter Published After Conference With Rhode Island Officials

Washington, Nov. 16.—Attorney-General Wickersham has ordered an investigation to ascertain the facts relating to the reported traffic agreement between the Grand Trunk Railway of Canada and the New York, New Haven & Hartford with the purpose of determining whether or not the proposed arrangement would be a violation of the Sherman act.

New York, Nov. 16.—President E. J. Chamberlain of the Grand Trunk Railway, issued a statement last night in which he characterized as "base and unfair" a statement issued by Herbert A. Rice and Wm. C. Rice, after a conference between them and Rhode Island officials over the Southern New England Railroad situation.

Mr. Chamberlain declared that he said as reported that he was "disappointed" in their attitude toward the proposed work on the roads proposed extension in New England.

"It is intenable," said President Chamberlain, in his statement, "what either Mr. Rice or Mr. Rice should gain such an impression from any statement which I made this morning. I know the people of New England too well and admire them too much to expect them to respect to any action they may or may not take."

#### LANCASTER TO MAKE MOVE IN ANOTHER WAY

#### Father of Marriage Bill Now Turns to Criminal Code Against Decrees of Church

(Special to Times)

Ottawa, Ont., Nov. 16.—It is understood that E. A. Lancaster, the father of the Lancaster marriage bill, which received its death blow at the hands of the British privy council last summer, has evolved a new method to institute the measure or similar decree shall have no effect in Canada.

Mr. Lancaster has been unwillingly convinced by the ruling of the privy council that it is not within the power of parliament under the British North America act to enact a universal marriage law. He is further convinced that any attempt upon his part to have the constitution changed would have little hope of success in the face of opposition from one of the provinces of confederation.

The scheme, which it is said he was determined upon, is one which contemplates no change in the constitution. It is to amend the criminal code so as to declare that anyone promulgating or seeking to make operative the measure, more or less, or any other ecclesiastical decree of the kind purporting to override civil law, shall be guilty of an indictable offense.

"There are many in Ontario, it is said, who would prefer such an amendment to the criminal code to a universal marriage law, and it is said that if Mr. Lancaster does not undertake to submit such a bill there are several other Ontario members of the House of Commons who will do so."

Mr. Lancaster believes that there is an important precedent for such a measure in the Ontario home bill which is now before the British parliament.

### TOOK FORTY-ONE DAYS TO WHIP THE TURKS

#### Mr. Hazen Says Report on Breakwater Site is Private

In reply to an inquiry made by His Worship Mayor Frink, Hon. J. D. Hazen has written saying that the report of Engineer Laffin on the location of the breakwater in Courtney Bay is a private document and not for publication. This will be a disappointment to many citizens who are interested in the matter and who had been looking forward to learning definitely the reasons why the government engineers would not approve of placing the breakwater nearer the mouth of the bay, where it would provide much greater harbor accommodation inside.

### DAVID W. BELYEA LIKELY MARKET CLERK

Out of respect to the late W. C. Dunham, no announcement will be made until Monday regarding the appointment of a successor to the office of clerk of the market, made vacant by his death. It is generally understood, however, that the appointee will be David W. Belyea, formerly a driver for the Canadian Express Company. It is also reported that another appointment will be made in connection with the market, the second man to be employed in looking after violations of the law outside the market as well as assisting in its enforcement on the premises.

### RIVER GLADE SANITARIUM

#### A Meeting Held in Moncton Yesterday—New Free Ward

A meeting of the Jordan Sanitarium Commission was held in Moncton yesterday, at the office of Hon. C. W. Robinson. Those present were: Mrs. Jordan, Premier Fenning, Hon. Dr. Landry, Hon. C. W. Robinson, F. W. Sumner, Dr. A. F. McVerney, Dr. Downes, the superintendent, and Archibrodie.

Matters generally were discussed, including the new free ward, the gift of Mrs. Jordan and a plan for next spring, which includes a new road, a bridge across the river and a dam for a lake.

Mrs. Jordan has just returned after a trip to the continent and apparently more impressed than ever with the importance of the sanitarium and determined to make it one of the best equipped institutions of the kind in Canada. Besides the original gift of the beautiful summer home of herself and her late husband, Mrs. Jordan has devoted a great deal of time and attention to the study of the whole question, and is also giving freely of funds to the enterprise in connection with which her name will always be held in grateful remembrance by the people of this province.

### QUEBEC TO PROTECT BLACK FOX INDUSTRY

Quebec, Nov. 16.—Hon. Chas. Devlin, minister of colonization, mines and fisheries, will, during the next few days, introduce legislation having for its object the protection of those engaged in the business of raising or breeding foxes against further being animals kept in captivity.

This legislation will be based on a similar act recently passed by the government of New Brunswick and will be specially concerned with the breeding of black or silver foxes, an industry which has meant the accumulation of fortunes for those who have taken it up. This project of Mr. Devlin's has already received the approval of the cabinet.

### New Ambassador to Japan

Washington, Nov. 16.—Lars Anderson, of Washington, now United States Minister to Belgium, has been named ambassador to Japan to succeed Charles Page Bryan, whose resignation was announced a few days ago.

### Peace Terms Must be Promptly Accepted or Enemy Will Attack Capital

#### Reported Terms Which Bulgarians Will Demand—Fully Realized Now in Constantinople That the End of the Turks' Rule Has Come

(Canadian Press)

London, Nov. 16.—Bulgaria's terms of peace to Turkey as reported at Vienna and sent from that city by the correspondent of the Daily Telegraph, consist of seven stipulations.

The first stipulation is the surrender of the Tchatalja army and its withdrawal guarded by Bulgarians.

The second provides for the evacuation of Adrianople, Scutari, Manastir and Janina.

The third calls for payment of a war indemnity.

The fourth demands the surrender of conquered territory.

The fifth calls for the internationalization of Constantinople.

The sixth provides for the opening of the Dardanelles and the making of Salonika a free port.

Since Bulgaria already has expressed a willingness to leave the status of Constantinople and the Dardanelles to the powers, says the correspondent, the fifth and sixth clauses of the terms as reported, here, appear improbable.

KY.—Greece makes.

Athens, Nov. 16.—The commander of the Greek fleet reports that boats parting from his ship have landed in the Gulf of Montenegro and occupied Mytheni Island and the port of Dafni on the Athos peninsula, near the Greek frontier and at Dafni there are some monasteries in which there are 10,000 monks.

Toronto, Nov. 16.—President McCauley says that he is to meet Willie Ritchie on Thanksgiving Day, McCauley presented the belt to the champion, much to Wogast's surprise.

### Must Accept Promptly

Sofia, Bulgaria, Nov. 16.—The subject of peace negotiations is absorbing the entire attention of the Bulgarian government for the moment. The Bulgarian cabinet lost no time in communicating the contents of a letter from the grand vizier on the subject of an armistice to its allies and an interchange of views between the Balkan governments is in active progress.

It is said that the peace conditions will be formulated with the least possible delay and presented to Turkey for acceptance or rejection. Unless they are accepted within twenty-four hours after their presentation hostilities will be continued as it is not intended by the Bulgarian general staff to permit Turkey to gain valuable time by wrangling over the conditions. A prompt acceptance will possibly avert the entry of the Bulgarian troops into Constantinople.

### Raffing Season Closed

The Restigouche Log Driving and Boom Company have closed their raffing operations for the season, and have stored the booms. The men have all returned to their homes. The amount raffed in both north and south booms was 2,484-281 pieces, making a total of 22,575,703 sup. feet. The total for last season were 1,062,131 pieces, equalling 99,970,808 sup. feet, a most gratifying increase.

### Socialist Editor a Suicide

Girard, Kan., Nov. 16.—J. A. Wayland, founder and owner of the Appeal to Reason, a Socialist weekly published here, shot and killed himself in his home, and was found by his housekeeper. Between the leaves of a book on the bed the following note was found:

"The struggle under the competitive system isn't worth the effort; let it pass." Friends of Mr. Wayland attribute his act to despondency over the death of his wife, who was killed in an automobile accident a year ago. Mr. Wayland was fifty-eight years old.
