UNDER THE DOME.

"Under the Dome," one of the season's must successful plays, with its huge scends and mechanical effects, will occupy the stage of the Grand Tuesday night. It contains some remarkable scenes, potably the much talked of hurricane scenes showing the beautiful coral reef harbry at Apia before the storm of March 15th, 1889. A view of the storm as seen from the consults house late in the afternoon, a view of the shore at night during the storm, and the unagnifucent struggle of the Trenton against wind and wave. Another scene scarcely less worthy of mention, is the perfect reproduction of a ferry boat trip from Jersey City to New York. Other scenes show the Capital at Washington, illuminated and several formiliar Washington localities. The interpreting company is a good UNDER THE DOME.

Dear Sira,—I was for seven years a sufferer from Bronchial trouble, and would be so hoarse at times that I could scarcely speak above a whisper. I got no relief from anything till I tried your MINARD'S HONEY BAISAM. Two bottles gave relief and six bottles made a complete cure. I would heartily recommend it to any one saffering from throat or lung trouble.
