DEATHS FROM HEAT INCREASE

OVER FIFTY PERSONS KILLED IN NEW YORK

Hospitals Are Crowded With Victims—No Signs of Relief.

(Times Leased Wire.)

New York, June 25 .- More than fifty persons are dead as the result of the hot wave which has attacked New York City with merciless fury during the past few days and as yet there Judge Exonerates Her of the have been no signs of abatement. Early to-day it was indicated that the suffering would be more intense than on any previous day since the hot period began. This morning the mercury had reached 82 degrees and was still climbing. Yesterday it reached 92 degrees and will probably

heat victims and it is probable that the Mrs. Catherine Clemmons Gould death list will be much larger unless all the charges made against her by her the weather changes quickly.

nightly to overcome the effects of the a month. terrific heat. The temperature at night is high and there is little relief for the sufferers. Coney Island and the parks are crowded with sufferers to sleen in the streets on the East Side.

IMPRISONED IN BUNKER.

From Death on Steamer Lake Manitoba

Montreal, June 25.—Buried in the midships grain bunker of the steamship Lake Manitoba, 16 men narrowly escaped a horrible death. For four hours they lay on top of the heaps of wheat under the decks, forgotten by their fellows, and only sustaining life Takahira to Confer With Gov- SLAYS BROTHER by taking turns at breathing under the narrow ventilator pipes.

Negligence caused the mishap, but the true author of it is hard to discover. The foreman in charge should have known when it was time to stop the delivery of grain, and the watch man governing the flow through the til it was noticed that none of the gang had been up to supper or had returned United Press. to work on the night shift did the other was made to rescue their communications states because of his matching between taken out the men were liberated and the two nations.

The Kaiser Takes Deep Interest in Experiments Now in Progress in Germany.

Berlin, June 25.-Emperor William is backing a series of experiments of to the nature of the subjects to be discussed at the conference. ator of the innovation, Dr. Hoechster-mann, states he believes will revolutionize all agricultural and horticultural industries. The fields in which the experiments are being made are strung with a network of wires, bearing a moderate electric current. The atmosphere and the earth are saturated with 250,000 volt plant, and it is claimed that plants grow and mature more rapidly under this stimulation.

Hoechstermann claims, also, that the yield of electricized land is proportionately greater than the yield of land cultivated under ordinary conditions The current, he said. does away with the necessity of fertilizing, renewing the soil at less expense than is demand-
