The Jewish New Year festival ended last evening at sunset. Special services were held yesterday and were concluded last evening.

There is more Chasms in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. CHENEY & CO., Toledo, Ohio.

Sold by Druggists, 75c. Take Hall's Family Pills for constipation.

Haber, S. Keith, secretary of the Pugsley banquet committee, has received replies from about one half the federal ministers to whom invitations have been issued. Out of the replies received Hon. Charles Murphy, Secretary of State, and Hon. Rudolph Lenoir, Postmaster General, have been able to accept invitations to come to St. John to attend the banquet to be given to Hon. William Pugsley, Minister of Public Works. The committee are hopeful that other ministers will send acceptance to the invitations at a very early date.

ANOTHER FARM LABORERS' EXCURSION.
The Canadian Pacific Railway today announced that another farm laborers' excursion will leave the province on Friday next, September 24th. The general arrangements will be the same as for previous excursions this year.

The first two boxes of the shooting season of 1909 came in over the I. C. R. last evening. On the 9:30 train arrived a large and handsome specimen which had been shot in the morning by Harry McCarron at Norton. The moose was shot only a short distance from the railway station. It was purchased by Denis Lasky of the City Market. A smaller moose and a deer also came in yesterday from Sussex.

Next week the special committee of the Board of Public Safety appointed to examine the condition of the dwelling houses in Lancaster owned by the city will proceed to make its inspection. The committee consists of Ald. Vanwart, Ald. Potts, Ald. Kelley and Director Wisely. It had been intended to make the examination on Thursday, but Ald. Vanwart was called away from the city on business—he went moose hunting—and a postponement was necessary. The inspection of the city's property in Lancaster is to be made at the suggestion of the chamberlain, who contends that the income from the houses is not sufficient to pay for their upkeep and that the city would be better off financially if it should dispose of them, retaining the land.

MONTREAL, Sept. 17.—The Canadian Club organization was completed today, when W. H. D. Miller of Montreal was elected president; C. R. with J. D. Mitchell, Winnipeg; Mayor Chisholm, Halifax, and F. C. Wade, Vancouver, as members of the executive.

About two o'clock yesterday afternoon, "Beaver" Boyd, better known as "Chain-gang" was sent on an errand as a trusty, and took French leave. He has not been seen since.

SPORTING NOTES.
WANT TO OUST PAT POWERS.
Enemies of P. T. Powers are planning to oust him from the presidency of the Eastern League in spite of the fact that he organized the present circuit and has spent both time and money to keep it intact. Because of outside business ventures Powers is expected to resign the office of president of the Eastern League, but this is believed to be an excuse to enter a new government of its affairs. Howard Griffiths, a Jersey City lawyer, is working tooth and nail to land the job, and behind him is Edward Hanlon, president and owner of the Baltimore club. Griffiths is the man who was rear out of organized baseball several years ago by the National Commission for the part he played in conjunction with George Tobeau and others in trying to form an outlaw league. But Hanlon and several other Eastern League owners have stuck to Griffiths ever since. Powers refuses to discuss "his situation," but his friends say his troubles are due to an unwillingness to play favorites.

JEFF HOME IN OCTOBER.
Sam Berger announces that Jeffrey will arrive here from Europe on October 1 and will then clinch a match with Johnson. Jeff is said to have been badly hurt by the waters of Carlsbad and is coming home in excellent health. The blemishes which were on his face when Johnson and Ketchel met at Colma on October 12 and it is needless to say that he will be with Ketchel in the place. It is also possible that he will be near Ketchel's corner so that he can offer some valuable suggestions.

HARVARD NEEDS QUARTERBACK.
CAMBRIDGE, Sept. 15.—The second day of football on Harvard's field brought the number in the Harvard squad up to fifty-one, with all the veterans back except Left End Brown, who will be here next week.

Coach Houghton gave his attention particularly to the purchasing staff in the development of a quarterback to take Cutler's place. The veteran had done a substitute last season. He weighs 155 pounds and is six feet tall. In a recent game he showed the ability to be a first class field general.

ALMOST HIS 50TH BIRTHDAY.
When the baseball campaign of 1909 began Cy Young had won 476 games and needed only 13 more victories to round out the 500 mark. Up to date he has won 49 games this year, and it may be that he will fall to retire his ambition this season. McGuire had not contemplated taking Young on the eastern trip. The veteran had done grand work in the box all year, and Manager Jim figured that he deserved a rest while the youngsters received the opportunity of getting big league trials. However, Young will accompany the Naps on the last Eastern trip, principally for the purpose of having the chance to annex those needed victories.

FACTS ABOUT BASEBALL.
Baseball is a gigantic industry. Its magnitude is expressed by few. To be told its problems are so numerous as those of the Standard Oil Co., or any other great system, is an understatement. To compare a sport, however great, with a commercial enterprise is a first thought completely dismissed.

Yes, baseball, from Portland, Me., to San Diego, and from New Orleans to Winnipeg, is under the management of the National Association of professional baseball leagues, involving many committees, employees and patrons than any other industry. Like every system, it has its administrative and capable of sustaining the position.

And because he sustains it, they call Secretary John Farrell the Harriman of baseball. The biggest man in the world's greatest sport, Farrell is directly responsible for the position baseball occupies today. He comes pretty near being the national association.

TRACK AND FIELD.
The C. A. U. has now a membership of 1100 clubs from the Atlantic to the Pacific. The "Federation" membership was less than a dozen clubs. On the first or second Wednesday in October Frank Murphy and Felix Howe of the Irish-Canadians will try to lower the record of 7:21 for the 42 miles run from Hamilton to Toronto. Howe is a Bahama Islander.

TY COBB LEADS.
Ty Cobb, in spite of the effort of other players in the American League to "get him" when he is sliding to bases, leads the circuit in base-stealing and hitting as well. Collins of Philadelphia is second with the stick. Wagner leads the National League, as usual. Lajoie is hitting hard again since being relieved of the worries of management at Cleveland. Bill Carrigan, the former Toronto catcher, is hitting an even 300 for the Boston Americans.

Inspector Porter of the United States Immigration office here returned yesterday from his home at Milton, Delaware, where he has spent three weeks. Two hundred houses in Milton were destroyed by fire recently, but Mr. Porter found that his house, which is situated on the outskirts of the town, had escaped damage.

Bronzen Ran Away After Throwing His Driver-Rosemary Chimes Wins 2:13

PHILADELPHIA, Sept. 17.—(American League Game.)—Detroit won the second game of the series with Philadelphia today, by 5 to 2, before a crowd of nearly 25,000 persons. Each team made the most of its base hits, Philadelphia scoring all its runs by bunting five safe drives in two innings, while Detroit profited by Krause's wildness. Nons of Mullina's four passes did any damage, but four of Detroit's runs were started by bases on balls or a batsman being hit by a pitched ball. In the last two innings the visitors ran the bases with great cleverness and three double steals helped to bring a runner home. Ten sacrifice hits were made, four of them being of the sacrifice fly variety. Four sacrifice bunts and three sacrifice flies were made by the Detroit players. The score: Philadelphia... 1 0 0 2 0 0 0—3 7 2 Detroit... 1 0 1 1 0 0 1—5 8 1 Batteries—Krause and Thomas; Mullins and Stange. Time, 2:17. Umpires, Ferriss and O'Loughlin.

KETCHELL-LANGFORD FIGHT DECLARED OFF.
NEW YORK, Sept. 17.—The Ketchell-Langford fight was declared off yesterday. Governor Hughes stepped in the controversy over the Ketchell-Langford fight on Thursday with a message directing District Attorney Jerome to enforce the state law against prize fighting.

THE BOUT BETWEEN Stanley Ketchell and Sam Langford was scheduled to take place at the Fairmont Athletic Club here Friday night. Police Commissioner Baker had been in a quandary over the fact that the club has a permanent injunction restraining the police from entering its premises. He appealed to the District Attorney, who told him that the admission fee which the club proposed to charge brought the exhibition under the prohibition of the law.

SMOOTH WATER PROVIDED, THE rowing races will be started from the Sonoma toward the Beacon and around the bell bouys. The motor boat course will be around the Island and return. In the event of the water being rough the courses will be laid toward the falls.

U.S. OFFICIALS NOT SHUT OUT
An order was made a day or two ago by the Railway Commission that conductors of railroads doing an international business shall report cases of inability to passengers on the part of United States immigration officials. Locally, this order was taken to mean that the United States officials would be prevented from questioning passengers, no matter where they are bound, while they are still on Canadian territory. The C. P. R., however, places a different construction upon the order. W. B. Howard, District passenger agent, said last evening that, although the C. P. R. here had received no official notification as yet of such an order, he was confident that the move had not been made with the intention of excluding the American officials from the trains. Other railway officials expressed approval of a move to stop examination of passengers here and en route to McAdam by the U. S. inspectors. The system was a great injustice, they said, and one which should not be tolerated upon Canadian soil. Passengers who were bound to other points in New Brunswick were made to answer the most unreasonable questions by the servants of Uncle Sam. While the impression prevailed that the order meant the exclusion of the United States inspectors from the trains, it was said on behalf of the system that unless the passengers were examined here, the C. P. R. would be held at least half an hour at Vancouver, it was urged also that the system is a great benefit to those passengers who are destined for some reason or another, to be denied the privilege of crossing the border. If they are turned back here, they save \$2, the fare back from McAdam.

DOGS HAVE COLLEGE
ON EASTERN SHORE
Hunters Taught How to "Set" and "Point"
In Six Months' Course—The Principal is an Expert.

The institutions of learning in this country are many and varied, but what is, perhaps, the most unique "college" in the United States is the training school for hunting dogs, located at Ridgely, Md., and owned and managed by H. H. Smith, the well-known dog fancier of Caroline county. This institution, or "dog college," as the wags would have it, it known over the greater portion of the United States, and is principally recognized as the most successful trainer in the country. No better evidence of this can be adduced than the fact that his clientele covers the entire United States. The bulk of dogs under training, however, are from West Virginia and Pennsylvania.

Principal Smith is rather a remarkable man, possessing those rare qualities which give a human being power over the brute kingdom. He is a man of strong personal magnetism, which, along with a well-stored mind and a natural courtesy of manner, makes him almost a desirable companion for "man or dog." From a boy he was always a "dog fancier." He has several dogs in training this year. The dogs are setters and pointers, all valuable animals. Many of them come to the farm insured at \$500 apiece. The aggregate value of the dogs under training at present Smith places at not less than \$1500.

Just as the college professor teaches the "young idea to shoot," so the principal of this training school for dogs teaches his setters to "set" and his pointers to "point." The course of instruction, said Smith, the other day, covers from four to six months. The dogs begin to arrive about May and by the last of November the kennels are clear. The dogs differ considerably, some picking up all the points in two or three months and others requiring the full limit of time. Smith has been at the business for years, and when it comes to absorbing knowledge he has found children and dogs very much alike. And with some moral assuasion goes a great way, and with other the rod has to be employed before the pupil can be brought to obey; some are quick to learn, grasping the point almost by intuition, while others seem slow and sluggish, requiring great patience on the part of the trainer. Incidentally, it might be mentioned that a dog never leaves Smith's hands until it is proficient.

The feeding of these dogs is no small matter. After looking into the science of the thing Smith has devised a food which he regards of especial value. The principal ingredients are beef cracklings, corn meal and hominy flour. He prepares this food himself. Prof. Smith's training school for dogs, or fast becoming famous throughout the country, and in due course of time it will make Caroline county the best known county on the Eastern shore.—St. Louis Times-Democrat.

A Tablespoonful to Every Pail of Water.
Just think of the economy of ASEPTO! One tablespoonful to a pail of water is plenty. And there are 25 tablespoonfuls in a gc. package.
It's simply extravagance to use Soap when ASEPTO does the washing for so little—and does it far better, too.
Just try ASEPTO next wash day. Discerning grocers sell it.
Manufactured by THE ASEPTO MFG. CO., St. John, N.B.
