He is a native of this city, although most of his literary work was done in Halifax where he holds the position of professor of English literature in Dalhousie College. TRIED TEMPERATURE OF KENNEBECASIS

The ice still continued to run in the river yesterday and reports from up country state that the main river is open to the mouth of the Washademoak river, but that the ice in the Washademoak and other tributary streams still remain solid although air holes are beginning to appear. Yesterday at Millidgeville several venturesome people crossed the Kennebecasis to Milkish and many of the Milkish farmers skated over to Millidgeville on their way to the city. One member of one of these skating parties had to stand the drinking for the crowd on his arrival in the city as when on the journey over the ice he was rash enough to see how near to the edge of an air hole he could get before he fell in. Needless to relate he found out and it is the general opinion of those present at the time of the ducking that it will be a long while before the victim investigates the temperature of the Kennebecasis water in the winter time again. Luckily for the man, however, as he fell into the hole he threw his body sideways so that only his legs got wet and in this manner saved himself from a watery grave. After he had scrambled from his precarious position the whole party proceeded to Millidgeville where the wags succeeded in getting dried out before coming to the city.

MANY STUDENTS OF DOMESTIC SCIENCE

In addition to the record attendance of ladies and not a few of the sterner sex, a large number of domestic science students were present at the free cooking demonstration with One Dollar Gas, given yesterday afternoon at the showrooms of the St. John Railway Co. The students, with their teachers, having received a personal invitation from Mr. Thompson, the expert demonstrator, who visited the classrooms during the morning. Mr. Thompson told interestingly of the many advantages gained by the housewife who cooks with One Dollar Gas, devoting special attention to oven management and showing how burning and scorching are avoided in the use of this clean, sanitary fuel. Referring to economy, he pointed out that the gas burns only while in use, showing also that when liquids have been brought to the boiling point, they can be removed from the larger burner which is then turned off, and kept hot over one of lesser power. Another feature of interest was the cooking by Vincent the caterer, of three complete meals, using the same quantity of fuel, in 40 minutes, thus effecting a great economy in labor, time and expense. As Friday will be a holiday, the next demonstration will be given on Thursday afternoon, beginning at 3 o'clock. Mr. Thompson will be at the showrooms today from 10 o'clock till noon and this afternoon from 3 until 5 o'clock to explain appliances for use in cooking with gas. Every housewife should read of the advantages of pastry cooking with One Dollar Gas in the St. John Railway Co.'s advertisement on page 2. The programme for tomorrow's demonstration will be announced in this evening's papers.

WELL KNOWN CITIZEN BURIED YESTERDAY

Large Number of Citizens Attended Funeral of Late G. S. Fisher—Horticultural Association Passes Resolution.

A very large number of citizens of all ranks combined yesterday afternoon in paying their last tribute of respect to George S. Fisher. The funeral took place at 2:30 from his late residence, 161 Carmarthen street to Fernhill, where interment was made. The services were conducted by Rev. E. A. Kurling. The number and variety of the floral tributes showed the universal respect in which the deceased had been held. Besides bouquets sent by private parties there was a handsome wreath from the directors of Fernhill Cemetery and Hill Cemetery, tributes from Edward Partington Pulp and Paper Co., Long's Lake Fishing Club, officers of the Horticultural Association, and the park garden employees. The pallbearers were Hon. J. G. Jewett, Dr. G. H. Hay and Thomas McAvity.

At a meeting of the directors of the St. John Horticultural Association held at noon yesterday in the board of trade rooms, Dr. G. H. Hay presiding, brief addresses were made by Judge Armstrong, treasurer of the association and Judge Forbes expressing regret at the loss of the association and sustained in the death of G. S. Fisher, and the following resolution presented by them was unanimously adopted: Resolved, that the directors of the St. John Horticultural Association sorely regret their deep sense of the loss which the community has sustained in the death of the late George Starboard Fisher. Almost from the time the association was incorporated Mr. Fisher has been its honorary managing director and superintendent, and sustained in the love of nature, a wish to add to its beauties and to the pleasure of his fellow citizens, for years and to the last, without recompense other than the appreciation which his efforts earned, he gave largely of his time, his energies and his abilities to the work of the association. The results are seen on every acre in Rockwood Park. With the skill of a trained engineer, roads and paths, bridges and artificial lakes have under his designed and constructed; bare places made to blossom, unsightly spots concealed, and pleasing vistas opened. In all seasons of the year he has visited the park, supervising the work in the exercise of an intelligence with which few men are endowed. Not only to this Park but to other public institutions he gave his talents and his energies. His removal is a loss which grieves him to the heart and to the community at large. His practical and unselfish work in the interests of our city grieves him to the heart and to the community of every dweller in this city.

Further resolved that the directors attend the funeral in a body, and that a copy of these resolutions be sent to the widow and family.

The adjourned meeting of the Charlottetown weir owners and weir operators was held at St. George's yesterday. J. A. Belyea, the president of the union occupied the chair, and there was a large attendance from all different parts of the county. The principal matter before the meeting was the question of fixing prices for the year and after a long discussion the price of sardine herring at the weirs was fixed at \$12 until the first of August and at \$16 for the remainder of the season. Various other matters relating to the interests of the weir fishermen were discussed, most of which were of a technical character, and of little interest to the general public.
