

THE WEATHER.

Forecasts.
Maritime—Fresh to strong
southeasterly winds; fair and
mild.

Toronto, Oct. 23.—Pressure
is high over the Maritime Pro-
vinces and Newfoundland, while
a shallow low area is centered
to the westward of Lake Su-
perior and another just north
of the Gulf of Mexico. Rain has
fallen today in many parts of
Ontario, while in Quebec and
the Maritime Provinces the
weather has been fair. In the
western provinces it has been
fine and quite mild.

AROUND THE CITY

Will Preach This Evening.
Rev. J. C. Mortimer will preach at
the preparatory service in St. Ste-
phen's church this evening at 8 o'clock.

Wortman-Ellison.
A very pretty wedding took place
last evening at the residence of Rev.
H. H. Nobles, Victoria street, last
evening, when he united in marriage
Percy Ray Wortman, of Sussex, and
Miss Rachel D. Ellison, of Millstream,
King's county. The young couple
were unattended and after a honey-
moon trip through Nova Scotia, will
reside in Grand Falls, where the
groom is the proprietor of a flourish-
ing blacksmith business.

Death Clearly Accidental.
Coroner Fairweather, of Rothesay,
completed his enquiry yesterday into
the cause of the death of John Bradley
who was killed Wednesday night near
Riverside when the Boston express
ran into him. L. R. Ross, terminal
agent for the I. C. R., accompanied
him when an examination was made
of the scene of the accident. Mr. Ross
said last night that it was clear that
no one but the deceased was to blame
and that Dr. Fairweather had decid-
ed that an inquest was not necessary.

Swordfish Shipment.
A shipment of swordfish for the Amer-
ican market from the Maritime Pro-
vinces passed through the city last
night. The fish came from Halifax on
the Montreal express and was trans-
ferred to the Boston here. Swordfish
meat is considered a great delicacy
by the people of the United States and
there is a great demand for it there.
The fish were caught off the Nova
Scotia coast and were packed in large
cases. It is expected that large quan-
tities of the fish will be shipped dur-
ing the season.

Choice Approved.
The choice of Walter E. Foster as
chairman of the Board of Conciliation
in the dispute between the shipping
companies and the longshoremen of
the port has been approved by the
Labor Department. Mr. Foster re-
ceived a wire from Ottawa to that ef-
fect yesterday. Before calling a meet-
ing of the board he will wait for an
official communication and instruc-
tions as to the procedure under the
Industrial Disputes Act. The board will
probably convene at the first of next
week.

A Question.
In view of the fact that the C. P. R. have
treated the city in the matter of the
mail boats, some of the merchants and
shipping men are saying that the city
authorities ought to make a reallo-
cation of the berths at Sand Point, as
when the allotment was made and the
C. P. R. were given Nos. 1, 2, and 3,
berths the expectation was that the
Empress boats would come here.
Some of the citizens are saying that as
the city controls the most of the
berths on the West Side, the commis-
sioners might consider the advisabil-
ity of bringing pressure to bear upon
the C. P. R.

FUNERALS.

The funeral of Mrs. Mary E. Duffy
took place yesterday afternoon from
her late residence, 98 Coburg street.
Service at the Cathedral was con-
ducted by Rev. Miles Howland. The
Cathedral chimes played "Lead Kindly
Light" while the body was being borne
from the edifice and the Dead March
from Saul was played on the church
organ. Relatives of the deceased acted
as pallbearers and interment was
made in the family lot in the new
Catholic cemetery.

INDIAN TRADE IS SERIOUSLY HURT.

Bombay, British India, Oct. 23.—
The financial excitement as a result
of the closing of the Bombay share
market yesterday, continues, and
other branches of trade besides those
concerned in the mill share market
are badly affected. The shutting down
of the market was due to a tremendous
fall in Bombay mill shares and a num-
ber of failures. Today a pearl mer-
chant failed for approximately \$1,
200,000, while another gem merchant
failed for \$100,000.

LOAN SHARK GETS A HEAVY SENTENCE.

New York, Oct. 23.—Daniel H. Tol-
man, known to many cities in the
United States and Canada as "King of
the Loan Sharks," must serve six
months in jail for usury. The Supreme
Court so decided today in denying his
appeal from conviction on October 9
of having violated the law in charging
a bonus of 45 for a \$10 loan for three
months.

SAVES LIFE
OF CHILD BY
PROMPTNESS

Gerald McPeake, Aged
Five Years, Nearly
Drowns.

FALLS INTO I. C. R.
TANK, NEAR DEPOT

Boy Sinking for Last Time
when Brought to Surface
by Harry Ross—A Brave
Deed.

A strange accident, which, had it not
been for the timely arrival of Harry
Ross, I. C. R. fireman, would have re-
sulted in the death of five-year-old
Gerald McPeake, who after a sensa-
tional rescue from drowning now rests
in a critical condition, occurred shortly
after three o'clock yesterday afternoon
on the I. C. R. property in the rear of
Paradise Row.

While playing near the I. C. R.
reservoir, used in connection with the
grain elevator, the young lad, a son
of Frank McPeake, of 26 Southwick
street, accidentally slipped into the
large pool of exhaust water six feet in
depth. After he had plunged for the
third time below the surface a suc-
cessful rescue was effected by Mr.
Ross who, hearing the cries for help,
dove in and with little difficulty drag-
ged the lad to shore. Even then the
life of the boy was not certain, and
had not the victim of the accident
been resuscitated immediately after
his immersion he would have died.

In an effort to rescue the child from
his perilous position before the arrival
of Mr. Ross, Mrs. Collins, wife of I.
C. R. policeman John Collins, jumped
into the water of the reservoir and
was herself pulled out in an exhausted
condition by two neighbors.

As far as could be learned from the
broken story told a Standard report-
er by the unfortunate little fellow
yesterday afternoon, he was playing
with the water filling an old tin when
he lost his balance and fell headlong
into the reservoir.

For the past week it has been the
custom for little boys living in this
vicinity to play near the reservoir,
and following the usual practice Ger-
ald McPeake, with his younger brother
Arthur and two young companions
went yesterday afternoon to play
about the pool.

A few minutes before cries for help
were heard the little tots were play-
ing on an old fence by the edge of
the reservoir which had been blown
down by the recent gales. According
to the child's own story he was slip-
ping out water in a tin when he slip-
ped and fell headlong.

Women living in the vicinity im-
mediately set up cries for help, and the
Misses Hurley, whose residence over-
looks the reservoir ran to secure aid.

Mrs. John Collins, who reached the
scene within a few minutes after the
accident occurred, immediately plun-
ged into the water in an attempt to
rescue the young lad, but she had not
gone out far from the bank when she
fell. It was with much difficulty she
was able to make her way out with the
assistance of the other two women.

In the meantime the little fellow
was struggling in the water, too young
to render any assistance to himself.
Harry Ross, working at the plant
had gathered about were heard in the
I. C. R. plant a short distance away.
Jeremiah Daley, engineer, and fireman
Harry Ross, working at the plant
hastened to the scene of the accident
just in time to save young McPeake's
life.

Tiny bubbles forming on the surface
of the water was all that could be
seen at the time of Mr. Ross' arrival,
and without hesitating a moment he
dove in and succeeded in bringing the
child to the surface.

The lad was unconscious when pulled
out of the water, but revived after
those about had worked over him for
ten minutes. He was then carried to
his home, and Dr. Case was summon-
ed. The boy was found in a very weak
condition after his trying experience.
The parents of the boy are very
thankful to Mr. Ross, to whose prompt-
ness may be attributed the life of
their child.

English-Made Undershirts.
England is the peer of all in manu-
facturing and when one gets goods
from one of the best of their manu-
facturers he usually has a strong pull
to get business. P. A. Dykeman & Co.
are showing a lot of English-made un-
dershirts of striking good quality at
extraordinary prices; \$2.00 for a silk
morte petticoat with silk embroidery
founce (shown in their window) one
of the daintiest and best wearing un-
dershirts that they have shown in a
long time. There is another innova-
tion, a black sateen undershirt with
silk taffeta founce at \$1.35; colored
morte undershirts, English made, nar-
row and medium style, with correct
shape and founce, so that the prevail-
ing style of skirts will set well over
it, 75 cents; they are worth \$1.25.
Sateen undershirts made from light
weight fast black, clinging sateen,
\$1.00, \$1.25 and \$1.50.

North End Conservative Club.
The annual meeting of the North
End Conservative Club will be held
at Orange Hall, Simonds street, on
Monday evening, 27th inst., at 8
o'clock, to elect officers and arrange
programs for the winter months. At-
tending the business is over there will be
short addresses by Hon. J. E. Wilson,
L. P. D. Tilley, C. B. Lockhart, J. B.
M. Baxter, Philip Grannan and others,
at which all members and their friends
are cordially invited to attend.

Exclusiveness in Furs.
Our fur garments are characterized
by that correct touch and exclusiveness
of outline that gives them individual-
ity and exclusiveness. H. Mont. Jones,
54 King street.

Bark-Dog Show opens next Wed-
nesday.

CELEBRATE
TRAFALGAR
DAY

Marlborough Lodge, Sons
of England, held Enter-
tainment—Ven. Arch-
deacon Raymond Deliv-
ered Address.

Marlborough Lodge, Sons of England
celebrated Trafalgar Day by holding
an entertainment in their hall, on
Charlotte street last evening. The
principal feature of the entertainment
was an address by Ven. Archdeacon
Raymond on "The Day We Celebrate."
Dr. Raymond dealt in an interesting
manner with the meaning of Trafal-
gar Day to the British Empire, point-
ing out what momentous consequences
hung on the famous naval battle. He
gave a brief sketch of the career of
Nelson, and told of some of his en-
gagements. He also described the
character of the great sea fighter, and
pointed out that the dominant prin-
ciple in his character was his devotion
to his country and the duty of the
hour, however dangerous or arduous.
After showing how the last great
victory of Nelson had put an end to
Napoleon's hope of world conquest,
and exercised a profound influence
upon the destinies of the British Em-
pire, the speaker went on to impress
upon his audience the vast impor-
tance of the naval power of Britain,
and to draw some interesting moral
lessons from the life and death of the
great admiral.

Postmaster Sears also delivered an
interesting address, saying the Sons
of England had every reason to hon-
or the memory of Nelson, and point-
ing out how the night and majesty
of the Empire was typified in his navy.
He regretted that Canada had not yet
settled the question as to how it would
bear its share in the burden of Empire
defence.

P. J. Steele presided, and opened the
proceedings with a brief speech. In
addition to the addresses there was an
interesting musical programme, which
proved a source of much pleasure to
the gathering. Miss Fox contributed a
piano solo, and Mr. and Mrs. Edward
Palmer a duet. Fred Punter sang a
comic song entitled "I was laughing
all over my face," and was obliged to
respond to an encore. Miss G. Titus
was heard to advantage in an inter-
esting recitation of an appropriate
character. A feature of the programme
was a song by a quartette consisting
of Miss Bernard, Miss Sparks, Miss
Fox and H. Brindle. There were also
songs by Miss Rogers, Miss Sparks, H.
Marley, Mrs. Bernard, T. Brindle and
Mr. Allan, and musical selections by
G. H. Waldron and T. Pyle. The large
hall was well filled and many of the
hay ribbons of the evening were in
attendance. After the programme,
refreshments were served.

HUNTING SEASON
PROVING SUCCESS

Reports Show Sportsmen
are Taking Advantage of
Abundance of Game in
New Brunswick.

FIND ST. JOHN
WHISKEY PURE

Analysis of Samples Se-
cured by Inspector Jones
and Chief Clark, not Ad-
ulterated, Says Chemist

That the joy waters of St. John,
which flow over the town between Mar-
ket Square and the Marsh Bridge, are
free from any deleterious ingredients,
except what might be found in the wa-
ters of honey Loch Lomond, has been
shown by an analysis of samples of
the stuff that gives the feeling of ex-
hilaration and freedom from the cares
of the world and the enlargement of
Ego which some times in the cold grey
light of the morning after makes the
brain feel big for the head.

Some time ago Chief Clark and
Liquor License Inspector Jones made
a round of the saloons between Market
Square and the Marsh Bridge, and
brought from bottles being used by the
bartender samples of booze. The sam-
ples were poured into bottles prepared
for the purpose, tickled and sealed
and then sent to Mr. Paddock, the
chemist, for analysis. The chief and
the inspector had to pay for the sam-
ples.

Mr. Paddock has made a careful
analysis of the samples submitted, and
has just made a report to the Liquor
License Commission. In his report
he said he found no deleterious sub-
stances, which would indicate adul-
teration within the meaning of the
Adulteration Act. Most of the samples
were deficient in alcoholic strength,
and evidently diluted with water, but
diluting liquor does not constitute ad-
ulteration within the meaning of the act.
Mr. Paddock reported that the amount
of fusel oil contained in the samples
was about the same as that usually
introduced during the process of manu-
facture.

Fish Markets.
One of the effects of the storm of
the early part of the week has been
to prevent the fishermen from going
out, and as a result a scarcity of fish
prevails today. There is a very poor
supply of fish in the market. The
different kinds is to be had. In con-
sequence prices are higher than last
week. The quotations for today's
market will be about as follows:
Halibut 18c; herrings 24c; flinnet
haddie 8c per lb; smoked salmon
25c; 18c; 30c; do herrings 30c; oys-
ters still keep high and are selling at
75c; a quart, while clams are 20c.
Mackerel is about the scarcest article
in the market. Last night there was
but a small quantity to be had, and
it is doubtful if there will be any for
today's market.

Good Fur Value.
Good judges of quality in fur know
that our furs are far superior to others
that are much higher in price. H.
Mont. Jones, 54 King street.

THE PRINCE WILLIAM HOTEL.

MAY QUEEN
ASHORE IN
GRAND LAKE

River Steamer Drives on
Shoal at Grand Point.

GALES BLEW BUOY
FROM PROPER PLACE

Eight Hundred Barrels of
Potatoes on Board—Tug
and Scow Sent from Gage-
town.

Word reached the city yesterday
that the steamer May Queen on her
way down river from Chipman had
ple in his character was his devotion
to his country and the duty of the
hour, however dangerous or arduous.
After showing how the last great
victory of Nelson had put an end to
Napoleon's hope of world conquest,
and exercised a profound influence
upon the destinies of the British Em-
pire, the speaker went on to impress
upon his audience the vast impor-
tance of the naval power of Britain,
and to draw some interesting moral
lessons from the life and death of the
great admiral.

The steamer was carrying one of the
heaviest cargoes of the season, includ-
ing 800 barrels of potatoes. These,
however, were removed by a tug and
lighters which were sent down from
Gagetown to unload the steamer.

In charge of Captain Weston, the
steamer was making the downward
trip. A buoy which had been in the
channel leading to the bay to safe-
guard steamers had been blown from
its position by the recent gales and
had been carried ashore.

Guiding his course by this buoy, it
is said, the captain drove the steamer
fast on the shoal. The passengers on
their way to St. John were removed
without delay, and a telephone mes-
sage was sent to Gagetown to prepare
for the removal of the cargo. A tug
and a lighter arrived and the complete
cargo was taken off. The cargo was
one of the heaviest, if not the heaviest,
of the season.

An effort will be made to pull the May Queen off
it will probably be made today.

HUNTING SEASON
PROVING SUCCESS

Reports Show Sportsmen
are Taking Advantage of
Abundance of Game in
New Brunswick.

The hunting season is well advanced
and reports from different parts of
the province are that a large number of
sportsmen are taking advantage of
the abundance of big game in New
Brunswick. The American sportsman,
however, is not the only one to whom
New Brunswick looks good as a hunt-
ing ground, for among those now in
the New Brunswick woods are hunters
from the British Isles.

Although it is relatively early in the
season the number of hunters coming
this way has not been a record break-
er as yet. It is anticipated, however,
that the season closes the re-
verse will be the case. The last couple
of weeks of the season generally
brings a large number ahead of last
year. Those who have been in the
woods so far report good luck, a plen-
tiful supply of game and some of the
hunters from outside the province who
have been in the woods have had great
success. All the visiting huntmen
are enthusiastic and in most cases
say that they intend to continue their
stay in the woods as long as the season
lasts. The number of local people
going into the woods this year has
been large and hunting seems to be
becoming a popular means of enjoying
a brief holiday.

FINED FOR
SMUGGLING

Mrs. Frank B. Weborg, of
Cincinnati, Paid Court
\$1,750—Did not Declare
Dutiable Goods.

New York, Oct. 23.—Mrs. Frank B.
Weborg, of Cincinnati, was fined \$1,
750 in the United States district court
today for having failed to declare duti-
able goods on her arrival here on the
steamship Mauretania, September 5.
Henry W. Taft, brother of the former
President, and Frank A. Munsey were
on hand in court today ready to testify
as character witnesses in her behalf.
Mrs. Weborg, who is a niece of Gen-
eral Sherman, pleaded guilty through
her attorney and threw herself upon
the mercy of the court. The attorney
asked that a prison term be imposed
on the ground of his client's
poor health.

"I am surprised," said Judge Hunt,
in imposing the fine, "to see a person
of your prominence and intelligence
not giving the customs regulations
proper consideration."

PERSONAL.

Rev. R. J. Haughton, new pastor of
the Congregational church, arrived
yesterday and will enter upon his
duties immediately.
Dr. L. A. McAlpine left last evening
for New York where he expects to
spend the next two weeks.

SECURITY

When you buy a padlock, amongst other things you want it to secure you against any
any other key fitting your special lock.

You get this in the "VALE" PADLOCK. For ordinary work they are made all dif-
ferent, giving you absolute security. Or a series of padlocks may be arranged in three
different ways:—

First—All different, each key opening only one lock.

Second—All alike, any key opening all of the locks.

Third—Master keyed, with locks all different (as in Plan 1) but with a
master key which passes all the locks (as in Plan 2).

We will be glad to take up the matter of a series of padlocks with anyone interested.
