Kitchener on a Holiday. (New York Times).

Lord Kitchener, British agent in first location in three years. Despite his sixty-three years, he is said to work fifty hours a day, and does practically the whole work of the Egyptian government himself. His great ambition is to transform the Sudan desert into a cotton-bearing land, and this necessitates the building of two high dams on the Blue and White Nile above Khartoum which will cost \$24,000,000, of which Kitchener has already secured \$15,000,000 from Chancellor Lloyd George.

Never wash the face directly after exposure to the burning sun. Use cold cream instead and wash later.

CONDITIONS IN JAPAN ARE BAD

Missionary Declares Country is Governed by Atheists

TELLS OF HIS WORK

Rev. E. C. Hennigar, in Farewell Address, Makes a Strong Plea for Financial Assistance—Extent to Which Japan has Influence Over China—Some Striking Incidents.

That Japan is governed by agnostics and atheists, and men uncertain morally, was the declaration made by the Rev. E. C. Hennigar, who with his wife will leave St. John today as the missionary of the St. John Methodist district, at a farewell service tendered him at Centenary Methodist church last night.

Mr. Hennigar's address was listened to with close attention by a large congregation, and was a statement of his reasons for returning to Japan to continue his labors there in the province of Toiyama.

"The decay of all native religion in Japan is a constant call to western christianity," remarked Mr. Hennigar in commencing his farewell address. "This is especially true in the educated, the middle class, and the aristocracy. A religious census taken at the Imperial University of Tokyo just before I left last time, showed that of 4,000 students only about 100 professed any religious belief at all. Of this 2.8 per cent were Christians, and the remainder were largely true of all schools and colleges in Japan. And from the Imperial University is recruited the diploma men, the legislature, the learning and the teaching profession of the nation. The men who today are leading Japan politically, intellectually and morally are chiefly men who profess no faith in any religion whatsoever. Some illustrations.

"In order to show you the extent to which Japan has reached in its influence over China, 70 per cent of the present provisional government of that great republic are men educated at the Imperial University of Tokyo. Nine out of the seventeen governors of Chinese provinces are men who have graduated from the schools of Japan. Japan exercises thus a tremendous influence on China today.

"This is the extent of the influence of Japan in opening the sluice gates to a flood of vice and immorality. In order to show you this, here are two anecdotes. University was returning to the college one night when a woman leapt out of a dark hallway and stabbed him in the back. It turned out that the woman was his wife, who had left her school weeks previously and was at the time living with another woman who was not his wife in a different section of the city.

"At this time the man who was teaching moral hygiene in the greatest university in the Far East.

"In a similar town the principal of the high school was known by the students to be a constant frequenter of houses of ill-fame. This being the case the students thought that they might also visit the places, and their expulsion followed. Then the whole school struck, saying that what was good for their principal should also be good for them, and the government, forced to action, removed the principal.

"The province of Toiyama is on the border of Japan, a province scarcely touched by civilization and one to which the railroads have only recently reached. I consider it the best field for missionary endeavor in Japan. The Methodists are responsible for the success of the work in that province alone, having split the province with the Presbyterians. I shall live in a city of 80,000 and superintend a grammar school. The entire Methodist work there is financially dependent upon the people of the St. John district and I appeal to this congregation for financial aid as well as prayer for the success of my work."

An attractive programme had been arranged and was carried out by the Methodist Young People's Society in honor of Mr. Hennigar and his wife.

John McDonald, Jr., inspector of inland revenue, has purchased the W. G. Dunlop property on King street east. It will be sold by Mr. McDonald, and Mr. McDonald and family will remove there at an early date. Philip Grannan, M. L. A., has bought the W. G. Estabrook property on Douglas avenue and will shortly remove there. The King street property was purchased by Mr. Grannan recently through Messrs. Taylor and Sweney. Shortly after the sale he traded the house with Mr. McDonald, who had acquired the Douglas avenue house.

It is understood that negotiations are in progress between S. Curry and the Toronto syndicate for the sale of its property consisting of three houses with a frontage on a different street. Should the sale be completed at least one of the houses will be removed and it is proposed to erect a large warehouse on the site.

The following transfers of real estate have been recorded: Harold Chadwick to Lloyd Chadwick et al, property on Ludlow street, Carleton. F. P. Charleston to R. M. Burden, property on Douglas avenue. Harold Chadwick to Lloyd Chadwick, property on British street. Samuel Galbraith to Ethel A. Shanks, property at Lancaster. C. A. Morrison to L. W. Ledbrook, property at Lancaster. E. L. H. Smith to the Penton Land and Building Company, property on Seely street.

The following five sales made by Allison & Thomas go to show that St. John real estate is being bought and sold regardless of the fact that the real estate business in practically every city in Canada has been very inactive of late. The large terrace of three modern residences Nos. 10 to 14 Mecklenburg street, lately owned by Mrs. Cruikshank, has been sold by Allison & Thomas to H. A. Doherty. This property has the large frontage of eighty feet on the south side of Mecklenburg street and the houses have been built only a very few years and are thoroughly modern in every respect and situated in one of the best residential districts of St. John. Allison & Thomas have sold one of the Josiah Fowler cottages in Wright street. The property consists of a large freehold lot, 40x200 feet, with a modern particularly well built cottage. A tenement house and warehouse on the east side of Long wharf near Main street, a leasehold property, has been purchased from Allison & Thomas by a local man. A large freehold property at the corner of Tower street and City road, lot 10x100, formerly a portion of the Gwynor estate has been sold to an outside purchaser; also a freehold lot on the corner of Charlotte street extension and City line has been sold by Allison & Thomas to a local buyer.

FAKE ROAD SALES ENGINEERED TO MISLEAD PEOPLE

(Carleton Sentinel)

A real, genuine Tory road sale, was held at Lakeville on Saturday afternoon last. "The Deal road," so called, running from Lakeville to Wilmet and Charlton, is and has been for some years, practically impassable, and not long ago, the good Tories of that vicinity with a great flourish of trumpets, announced the fact that the local government had made a grant for the improvement of this road, of \$800.

Notices of the sale for Saturday afternoon were posted in the village, but the specifications were carefully concealed. Just before the sale a caucus of the leading Tories of the village, with G. L. White, M. P. P., and the commissioner, was held in W. Wilson's store, where the plans were laid, and they immediately proceeded to the appointed place to carry them into execution. The superintendent of the road, Mr. White, commended that no sale was to be made, but obligingly carried out the programme.

The first piece was put up at auction, and promptly bid in by William Wilson, he of alderman fame, at \$1.50 a rod, about one-half of what it would cost. Of course this precluded further bidding, and for the commissioner would fall to carry out his instructions. Mr. White, the member, quietly informed him that he was not bound to accept any person's bid. Then the commissioner allowed that the work would have to drop. The next section being the more difficult one, was then put up, and Sidney DeWitt, a prominent Conservative, agreed to build that portion for \$60 a rod, about the correct figure. The commissioner, under instructions refused to let the contract. The third piece was put up, with the same result, and Mr. White announced that the work would have to be done by the work. Previous to this J. F. Williams, the Tory councillor, made a speech extolling the Flemming government for honesty in the administration of public affairs. It was announced that the work would not be commenced until next spring, and probably just before the next election \$800 or more would be squandered by the Tory heebers of that portion of Wilmet, for the purpose of inducing votes, the result, of course, being no road, and as usual the money squandered.

Mr. White is young at the business or he would not have gone through with the farce exhibited on Saturday last. Messrs. Flemming and Munroe are older, have had more experience in getting hoodling and do not make the mistake of pretending to put up public work for the sake of the Tory vote. They will learn and in future, no doubt, will hear nothing further from road sales and he will allow his friends to squander the money as usual.

A good illustration of how this is carried out, was seen just below Lakeville, one day last week, when one of the new Tory road commissioners, after having spoiled all the smooth portions of the road with the road machine, was seen with himself, his team, his car and man, carting sods from the swamp with which to fill up a few holes in the road. The result being more mud, and \$10 of the public money squandered. No wonder the roads are getting worse all the time.
