

The Meadow Lark Reaper,

Manufactured by **John Elliott**, corner of Bathurst and Wellington Streets, London, Ontario, is of wide-spread reputation, **1000** having been sold during the harvests of 1875 and 1876, and such is the demand at present, on account of not having a sufficient supply for last harvest, that I am preparing **1000** for the harvest of 1877. Call and examine my stock. See for yourselves.
