

DEATHS OF CHILDREN
IN BUDAPEST INCREASE

PARIS, Feb. 17.—A startling increase in the number of deaths of children in Budapest in the past year is shown by official reports of the Budapest health department, received here.

The figures of 1914, which showed that the number of births exceeded the deaths by 238,000, were approximately reversed in 1920. Forty-five per cent of the deaths were of children under 7 years old, while 37 per cent were of children from the homes of the poorest people.

"This proves," the health department states, "that infant mortality in Hungary is due chiefly to miserable conditions in general, and particularly to under-feeding."

Alkali in Shampoos
Bad For the Hair

If you want to keep your hair looking its best, be careful what you wash it with. Don't use prepared shampoos or anything else, that contains too much alkali. This dries the scalp, makes the hair brittle, and ruins it.

The best thing for steady use is just ordinary milled coconut oil (which is pure and greenish), and is better than anything else you can use.

One or two teaspoonfuls will cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of a creamy lather, which rinses out easily, removing every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, fluffy and easy to manage.

You can get milled coconut oil at any pharmacy. It's very cheap, and a few ounces will supply every member of the family for months—Advt.

PUT CREAM IN NOSE
AND STOP CATARRH

Tells How To Open Clogged Nostrils and End Head-Colds.

You feel fine in the morning. You cold in head or catarrh will be gone. Your clogged nostrils will open. The air passages of your head will clear and you can breathe freely. No more dullness, headache, no yawning, no snuffling, no mucous discharges or drips; no struggling for breath at night.

Tell your druggist you want a small bottle of Ely's "A-SORBINE" cream.

It is just what every cold and catarrh sufferer needs. Don't stay stuffed-up and miserable—Advt.

A SORE MOUTH

Or Pyorrhea Quickly Relieved By "ABSORBINE JR."

Are your gums sore and tender? Do they smart or bleed when you brush them? Are they slipping away from the teeth? When your gums get in this condition, they need something to kill all germs in the mouth—something to change the spongy, bleeding flesh into firm, healthy tissue.

As one dentist writes:—"ABSORBINE JR." has a future for dentists in the treatment of Pyorrhea."

Used in diluted form, "ABSORBINE JR." makes a mouth wash that destroys germs, heals the gums, prevents decay. Clean and refreshing in taste and odor—and being a vegetable germicide, is absolutely safe.

\$1.25 a bottle, at all druggists or sent postpaid by W. F. Young, Inc., Lyman Building, Montreal.

MOTHERS, DO THIS—

When the Children Cough, Rub Musteroe on Throats and Chests

No telling how soon the symptoms may develop into croup, or worse. And then when you're glad you have a jar of Musteroe at hand to give prompt relief. It does not blister. It is the remedy for adults, too. Relieves sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of back or joints, sprains, sore muscles, chilblains, frost-bitten feet and colds of the chest (it often prevents pneumonia).

As first aid and a certain remedy, Musteroe is excellent. Thousands of mothers know it. You should keep a jar in the house, ready for instant use. It is the remedy for adults, too. Relieves sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of back or joints, sprains, sore muscles, chilblains, frost-bitten feet and colds of the chest (it often prevents pneumonia).

As first aid and a certain remedy, Musteroe is excellent. Thousands of mothers know it. You should keep a jar in the house, ready for instant use. It is the remedy for adults, too. Relieves sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of back or joints, sprains, sore muscles, chilblains, frost-bitten feet and colds of the chest (it often prevents pneumonia).

HOME ECONOMICS

MRS. ELIZABETH KENT, MacDONALD COLLEGE.

While the furnace is properly the concern of the man of the house, yet in his absence or illness it may fall to the lot of the woman folk to keep the home fire burning, and sad is the result of ignorance then.

If the furnace fire has gone out and must be started again, clean out the fire-box thoroughly first of all. Any thing good in the coal may be used.

THE FURNACE FIRE.

Personal Health Service

(By WILLIAM BRADY, M.D., Noted Physician and Author.)

Still More Antidetonization.

Physiologists and pathologists who have nothing to sell find little if any evidence that a resorption of harmful waste matter or poisonous material of any kind occurs from the intestine in cases of delayed bowel action or constipation. In that sense, then, I am entirely serious when I say that no one has yet proved that there is such a condition as auto-intoxication.

If any deleterious effects can be ascribed to retention within the body and blood of the waste products of normal metabolism or life processes, it is to the formation of abnormal products through disturbed functions, and physiologists and pathologists have every reason to believe that such poisoning does occur as a feature of many disease conditions, the individual obsessed with the auto-intoxication idea should realize, for the sake of his own peace of mind and sanity, that this is seldom if ever due to a coactive or constipated habit.

One who eats too much may or may not be constipated, may or may not depend upon physical to maintain the function of the bowels, but it is not necessary to be auto-intoxicated. One who eats too much can never be uncertain about it; all he need do is step on a scale and find out whether he is overweight. If such a one were a horse, his owner would know at once why the animal was out of condition, but being a human being he keeps on over-feeding (or neglecting daily exercise, which has the same effect).

Any real or potential poison in the nature of retained waste products (retained, I mean, in the blood or tissues, and, of course, not in the bowels) must be eliminated from the blood and tissues through the various excretory organs (lungs, skin, kidneys, liver and only in a limited extent the bowels) or rendered innocuous by combustion or oxidation within the blood and tissues. This latter fact is favored by (1) temperate eating, and (2) sufficient regular exercise daily. Exercise increases the absorption of oxygen in the body tissues, and therefore greatly aids the tissues in disposing of real or potential poisons. Exercise is perhaps the best remedy we have for actual auto-intoxication, over and above its causal regulating action on the bowels.

The late Metchnikoff was on the right track, but perhaps in the wrong tract in his search for a preventive or remedy for auto-intoxication. His fermented skimmed milk—practically buttermilk—is a wholesome beverage, but auto-intoxication neither begins nor ends in the intestinal tract.

Persons who really are suffering from retained or unoxidized wastes (retained in the blood and tissues, not in the bowels) can select no better means of auto-intoxication than oxygen in the minimum doses of two miles three times a day on the hoof.

QUESTIONS AND ANSWERS.

Q. E. O. I have been suffering from dryness or hardness of the skin and a few drops may be applied daily to skin or scalp. In order to confound the fellow who seems to take such flimsy delight in misquoting my name.
