

The J. J. Merner SHORTHORN OFFERING

At Clinton, Ont., on Tuesday, October 12th, 1920

One o'clock

FIFTY LOTS

Some thirty cows either safe in calf or with calf at side by prominent sires. A number of these cattle were secured at long prices, and though offered in field condition, should prove excellent investments as breeding propositions. We do not wish to go into details on these cattle, suffice it to say there will be a number of really good things offered. For Catalogue write:

"Facts are Stubborn Things"

Mr. John Copas, Elora, Ont., raised four steers out of grade Shorthorn heifers and by a high class Shorthorn bull.

At an average age of 18½ months, these steers weighed on an average 1300 lbs. each, and Mr. Copas was offered 30 cents per pound for them.

These steers made an average gain from birth (including weight at birth) of over 2½ lbs. per steer per day, and \$1560.00 looks like good money for four grade yearling steers, heifers' first calves at that.

Take into consideration the well-known milking qualities of Shorthorn cows along with the feeding qualities and high market value of Shorthorn steers, and you have a combination which cannot be beaten.

TREGENNA STOCK FARM SHORTHORNS FOR SALE

The entire herd, including the herd sire ROSEWOOD BARON—124448—bred by Wm. Woldie and purchased by me at the London Consignment Sale November 6, 1918—the highest priced bull at that sale. He is a roan, just turned three years—a grand sire, very active, stands straight on his feet, with lots of size and A 1 quality—a Rosewood of the highest type and a guaranteed breeder. He is sired by Hillhead Chief (Imp.)—101812—(131478), and out of Trout Creek Rosewood—70847—, imported.

Having sold my farms, am offering by private treaty our entire herd, consisting of cows, heifers and calves (both sexes), sired by my herd sire, "Rosewood Baron." All will be sold without reserve. Address:

Don't Throw Cattle Profits Away

The feeding, care and milking of cows are all done to produce profits. Every farmer should see that this profit is not thrown away by the use of poor skimming and hard-running separators.

This expensive blunder is continually being made. It can be prevented by using the

Simplex Separator

(LINK BLADE)

The Simplex has been developed, improved and perfected to the point where it is recognized as the most expensively built hand separator on the market to-day. Its high efficiency is represented in the real intrinsic value of the manufacturing cost.

The Simplex skims closely—takes all the cream—it is easy to turn and very convenient in handling and cleaning. Write to-day for booklet, which gives all information and shows the high standard of quality in the Simplex Separator.
