\$3.50 Recipe FREE For Weak Men.

Send Name and Address Today—
You Can Have it Free and Be Strong and vigorous.

I have in my possession a prescription for nervous debility, lack of vigor, weakened manhood, failing memory and lame back, brought on by excesses, unnatural drains, or the follies of youth that has cured so many worn and nervous men right in their own homes—without any additional help or medicine—that I think every man who wishes to regain his manly power and virility, quickly and quietly, should have a copy. So I have determined to send a copy of the prescription free of charge, in a plain, ordinary sealed envelope to any man who will write me for it.

This prescription comes from a physician who has made a special study of men and I am convinced it is the surest-acting combination for the cure of deficient manhood and vigor failure ever put together.

I think I owe it to my fellow men to send them a copy in confidence so that any man anywhere who is weak and discouraged with repeated failures may stop drugging himself with harmful patent medicines and secure what I believe is the quickest acting restorative, up-building, SPOT-TOUCHING remedy ever devised, and so cure himself at home quietly and quickly. Just drop me a line like this: Dr. A. E. Robinson, 4215 Luck Building, Detroit, Mich., and I will send you a copy of this splendid recipe in a plain, ordinary envelope free of charge. A great many doctors would charge \$3.00 to \$5.00 for merely writing out a prescription like this—but I send it entirely free.

years, but this is the first time I have endeavored to place a letter in its columns. The correspondence columns are very interesting and also educating; as for the magazine, it should be found at every fireside. I am a farmer and also a bachelor. It seems to me that nearly all the male letter writers are bachelors. What is the attraction? I would be pleased to hear from those Sunday school girls who sign themselves Two Heavenly Girl Twins and also Betsy B. and perhaps I may be able to learn something about the inside work on a farm. Trusting this letter will not take up too much of your limited space, and wishing you every success. I will sign myself,

Dear Editor, — Having been for some time a very interested reader of your paper, I take the pleasure of writing to the correspondence columns. I am a poor, lonely homesteader, living about 20 miles from town, so if some of the Eastern girls, as well as Western girls,

The Chore Question.

Dunallen, Man., March 14, 1912.

Dear Editor,—I have been an interested reader of your valuable magazine for some time and think it the best paper in print. It gives good, sound reading from cover to cover. I like the correspondence columns. I see no other paper has this, and if they had, they would only be an imitation of the real famous magazine—The Western Home Monthly. I am a farmer's son, and like plenty of sport. I am a total abstainer from bad habits. Now, I will give my opinions on the chore question. I don't think a woman should be expected to do a great deal of chores. I think that is the man's work, and a man should not be expected to scrub floors, wash dishes, and peel potatoes; that is a

who profess to be in sympathy with the bachelors, will write to me I will gladly answer them. Now, I will take for my argument the dance that is not attended by the lower, vulgar classes where strong drink holds a prominent place, but the country dance, for instance. I, for one, would call it an accomplishment. It teaches us to be manly and courteous to those of the opposite sex. It gives a person an easy manner and a graceful walk. According to Webster, then, the voice, ease of speech, a graceful walk, and things of that sort are not accomplishments. Then what are they? At this day and age of the world does anybody question "fashion?" And since the attitude of the dancers are as they are, and the modern dance as Josephus terms it, cannot be performed in any other form, why should we question it? I suppose when we get to be old and grey we will look back and laugh at our folly. Does it make any difference as to whether round dancing was invented by lewd dancing masters or by the Pope of Rome, since its intention of to-day is entirely different. Is dancing the only thing that leads girls to their downfall? Why is it that the dance leads them to fall? Take other games, such as spinning the

woman's work, but if a couple sincerely love each other they will not object to helping each other, and life will be much pleasanter. I like the farm in preference to the city. I have been to Saskatchewan twice. I think it is a fine part of the country. Now, if any girl between 17 and 25 will write to me I will be pleased to answer all letters, if they will write first, as I am rather backward in starting. I will close. Wishing The Western Home Monthly every success and leaving my address with the editor. I will sign myself,

Dear Editor.—It is some time now since I had a say in your columns. But I have gall enough to come again. I am still a subscriber and a very interested reader. And as for our Western Home Monthly. I do not think there is a better magazine printed anywhere. I like the Young Man and His Problem very much, and think it would be beautiful for any young man to read it. I mean all young men, even The Doctor. Well, now, readers and members of our merry circle, there have been several good letters in the last few issues. I
