

TABLE OF CONTENTS.

	PAGE
Letter of Transmittal	iii
Preface	xi
CHAPTER I.	
Introductory	1
General discussion	1
Origin and composition of coal	4
Historical survey of previous investigations	8
Summary of conclusions of previous investigators	13
CHAPTER II.	
A General discussion of weathering	15
Weathering in nature	15
Weathering taking place in the mine	15
Evolution of gas	16
Absorption of oxygen and oxidation	16
Weathering losses in transit	22
Weathering " in storage	23
CHAPTER III.	
A Discussion of the causes of weathering	25
A classification of causes	25
Kind of coal	25
The time of previous exposure	27
The effect of the presence of moisture	27
The presence of pyrite	31
Disintegration due to pyrite	31
General discussion	31
Parr and Wheeler quoted	32
Heating due to oxidation of pyrite	35
General discussion	35
Fayol quoted	35
Richers quoted	35
Kindball "	36
Lewes "	36
Haldane and Meachem quoted	37
Parr and Kressman quoted	37
Porter and Ovitiz "	40
Lamplough and Hill quoted	40
Porter and Ovitiz "	42
Parr and Kressman "	42
Conclusions	43
The size of the coal	44
General discussion	44
The size, shape, etc. of storage piles	47
General discussion	47
Fayol quoted	49
Porter and Ovitiz quoted	49
Porter and Brunton "	50
