## THIE EVENING OF UIFE

Declining years-the time when one is on the other side of the hill, call for constant care in the matter of nutrition. Life then depends so much on the body's power to repair loss and waste. This power grows less and less. The ability to shake off local disorders and to draw heavily on the body's reserve force are privileges that youth alone can claim.

With age comes siow movement, slower operation of the whole body's forces. Trifles become burdens and we live in the past. Ordinary food no longer nourishes. Poor teeth, perhaps, and improper mastication give the stomach work that it is not supposed to do-the digestion is taxed and even injured when it should be troubled least.

Many elderly persons get strength and nourishment from Scott's Emulsion It slips into the blood so quickly that the stomach is not aware of its presence. Not only does Scott's Emulsion furnish nourishment itself, but it helps to digest other food. It aids in the proper distribution of food benefits-simplifies the stomach's work.

Moreover, the lime and soda contained in Scott's Emulsion in the form of hypophosphites nourish the bones and reduce the acid in the blood which feeds rheumatism.

Well send you a sample free upon request.
