EGGS that will hatch strong chicks. Houlihan, White Wyandottes, Leghorns and Card Reds. Card brings you circular and price list. GEO. M. CUNNINGHAM, Collingwood, Ontario.

Always mention The Farming World when answering advertisements. It will usually be an advantage to do so.

bring from \$30 to \$60 each, the best selling at \$35 to \$45 each. Medium classes of veal calves are easier, but choice new milk-fed calves bring a good price, ranging from \$2 to \$4 each, or \$3.50 to \$5.50 per cwt. Really choice ones would bring a little more.

The demand for sheep exceeds the supply and prices are higher, especially for choice grain-fed yearling ewe and wither lambs. There are too many lambs coming forward. Farmers should see that lambs are castrated. Export ewes sell at \$4.75 to \$5.50 per cwt, bucks at \$3.75 to \$4.50 and mixed lots at \$4.50 to \$5 per cwt. Choice yearling lambs, ewes and withers, grain-fed, bring \$7.25 to \$7.75 per cwt, heavy buck lambs \$6 to \$6.50, and common yearling lambs \$5.50 to \$6 per cwt. Spring lambs bring from \$10 to \$16 each. The run of hogs just now is light. Prices rule at \$6.25 per cwt. for selects, and \$6 for lights and fatts. These prices are for fed and matured.

HORSES

The horse market is active and first-class horses of any type find ready purchasers. To show that the automobile is not everything, it may be stated that Crow & Murray, of this city, last week shipped nine specialty line carriage horses to a wealthy gentleman in New York, who is giving up automobile. Things have been busy at the Repository lately. The following are current quotations: Single roadsters, 15 to 16 hands, \$140 to \$200; single cobs and carriage horses, 15 to 16.1 hands, \$175 to \$225; matched pairs carriage horses, 15 to 16.1 hands, \$360 to \$550; delivery horses, 1,100 to 1,200 lbs., \$120 to \$175; general purpose and express horses, 1,300 to 1,500 lbs., \$160 to \$200; draught horses, 1,350 to 1,750 lbs., \$175 to \$250; serviceable second-hand workers, \$90 to \$130; serviceable second-hand drivers, \$75 to \$125.

TORONTO JUNCTION

The Union Stock Yards have been getting a good share of the trade lately, though not as much as they should get, considering the fine accommodation provided. Business has been brisk, with quotations about the same as at the city market, though on Tuesday last \$6.40 to \$6.50 was paid for hogs off cars.

"I met the minister this morning," said the little boy in red mitts. "And did you take your hat off?" asked the fond mother. "No, I took his hat off." "Tommy!" "Yes, with a snowball!"

MARITIME MARKETS

Halifax, N.S., April 17, 1905.

Business is improving and the spring trade is now on, but prices remain firm. Eggs are now coming comparatively regularly and the market has been declining from day to day throughout the week, until the price of new laid eggs is 30 cents per dozen.

Quite a few small shipments of butter have come in from Nova Scotia points to the commission merchants, who are selling at prices below those at which butter can be landed from the upper provinces. Creamery is quoted at 27 cents, and dairy sells at from 20 to 25 cents, according to quality. Cheese remains about the same, there being little change since last reporting.

P. E. Island potatoes seem quite plentiful, the price ex vessel being from 32 cents to 35 cents per bushel. New Brunswick are quoted at \$1.45 for three bushel bags, barrels \$1.50. Turnips are worth about 40 cents a bushel.

Feeds of all kinds remain firm. Hay is still scarce, with supplies coming in from Quebec. Bran and middlings have advanced, bran being worth from \$21 to \$24, according to quality, while middlings are quoted from \$24 to \$25.

The market has been full of apples during the past week, the Gulf of Anecd taking some ten thousand barrels. Vegetables still remain out of the question.

Adulterating Bran

One would be of the opinion that such a bulky substance as bran would be free from adulteration. But such is not the case. It is reported that certain unscrupulous dealers are mixing re-ground oat hulls with bran to the extent of 35 per cent. As the re-ground oat hulls are only worth \$8 to \$10 per ton, there would be a good profit in selling them as bran at \$18 to \$20 per ton.

More Veterinary Surgeons

On March 30th, ninety-one were added to the 2,767 graduates that had previously passed during the Ontario Veterinary College. The occasion was the 99th annual commencement exercises of the college. The principal, Dr. Andrew Smith, presided. Among the speakers was Prof. Harrison, of Guelph, who advised a closer study of pathology by veterinary students. He also suggested that veterinarians should study sanitation, physiology, the hygiene of milk and should give attention to the inspection of meat. By doing these things they would help themselves and elevate their profession.

Instructors' Fees

Mr. E. M. Hart, manager of the Strathroy Cheese and Butter Co., has been engaged as the tenth instructor by the Western Dairymen's Association. He will have charge of the cheese and butter factories in the Kincardine district. The fees this year will be on a sliding scale. For factories making under fifty tons of cheese the fee for the season will be \$9; from 50 to 100 tons, \$12; and over 100 tons, \$15.

Parliamentary

An indignant letter dictated by a clever old gentleman runs thus: "Sir, my stenographer, being a lady, can not take down what I think of you. I, being a gentleman, can not express it; but you, being neither, can readily divine it." Birmingham (England) Post.
