

Fire-Proofing Facts

The roof is the most vulnerable part of any building. If it is inflammable the building is not fire-proof.

"Galt" Galvanized Steel Shingles are the only *practical* fire proof roof. Their weighty and numerous advantages over "composition" and wood roofing make them pre-eminent on factories, warehouses, etc. Absolutely *fire* and *lightning proof*, they are *very durable*—will outlast 8 ordinary wood roofs. Easily laid and require absolutely no attention thereafter. Surprisingly low in cost.

Catalog B. 3 illustrates full line of Fire-proof Goods, including Roofing, Siding, Skylights, etc. Ask us for it.
