HABITANT FARM HOUSES MAKE

With a Few Alterations and Eleven Interior De ing Hideous Farm House is Turned Into Attractive Bungalow in Laurentians.

The chief expenses in making these buildings habitble are incurred in installing bath rooms and also in putting in a fireplace in the living room.

outling in a lireplace in the typing toom.

The living room in most of these cottages occujes practically the entire ground floor, and serves oth as dining room and sitting room, and the firelace is an essential feature both for the comfort of hose living within and for making the room more Therefore great attention is paid to this and often a great deal of money is spent in making it

in both winter and summer by the addition of furnaces and hot water heating.

The bedrooms upstairs are usually small and the low the bedrooms upstairs are during makes the ventilation of the room a difficult matter. Many, however, have overcome this difficulty by having placed sleeping porches built outside the original bedrooms, which they then use only

THE SECOND INTERNATIONAL

Big Safety Exhibition Will Take Place in Decemb and Will Show How American Workmen

Plans are rapidly formulating which will make the and International Exposition of Safety and Sanitation, to be held at Grand Central Palace, December 12 to 19, under the direction of the American Museum of Safety, one of unusual scope and interest. The stimulus given to the movement for greater safety, as well as the concerted effort in the great industries by he First International Safety Exposition, held last year has been noted throughout the entire country, and it is plannd that the Second Exposition shall exceed ery way the first.

The same general principles and objects hold good for this exposition as for the initial one, namely, it will be shown how the health and safety of the worker are looked after in the various American industries, manufacturing, trade, railroading, building, business and engineering, as well as the method which has been adopted for the welfare and education of

Paramount, however, in this year's exposition will be the vastly important subject of fire prevention.

PLANT STARTS AGAIN.

COMPENSATION QUESTION

Man Who Has Already Lost One Arm Loses the Other.

Syracuse, N.Y., September 12.—Is a man who lose: one arm before the compensation law became effective and then loses another arm after the compensa tion law became effective entitled to receive the full compensation for total disability or is he entitled only to compensation for loss of one arm? That is the question that the compensation commission will have o settle, and the entire State will be interested in the outcome of the case. Deputy Commissioner John COTTAGE IN OUTREMONT - WELL LOCATED Fitzgibbons, of this city, is going to investigate the case, which occurred in this district.

On July 6, a week after the compensation law became effective, Jacob Schwab lost an arm while employed by the Emporium Forestry Company at Conifer, St. Lawrence County. In 1892 Mr. Schwab lost an arm and the loss of his second arm totally disables him. The question which the converse of the control of the contr ables him. The question which the commission will have to pass upon, therefore, is whether he is entitled to compensation for the loss of one arm or for total on Bellingham avenue, close to St. Catherine on Bellingham avenue, close to St. Catherine of Control of the loss disability. It is argued on one side that he is en-titled only to compensation for the injury occurring since the law became effective. On the other side it is claimed that inasmuch as he was able to work ident occurred, he is now t disabled and, therefore, entitled to compensation for total disability.

Under the law for the loss of one arm Mr. Schwab Under the law for the loss of one and would be entitled to compensation for 312 weeks, or six years, for the loss of one arm. For total dis-ability he would be entitled to one-third of his wages for the rest of his life. Mr. Schwab is more than seventy years old. The commission in this district has several death claims to investigate. There are five from this county, three from St. Lawrence County, four from Oneida and one each from Herkimer, Cortland, Lewis, Oswego and Broome Counties.

WE HAVE some very fine offices, show rooms, in the Windsor Arcade Building, corner of Peel and St. Catherine streets, and Southam Building, 123 Bleury street. For further particulars and book-land, Lewis, Oswego and Broome Counties.

RECENT FIRES

Moncton, N.B., September 14.—Fire broke out in the car barns of the Moncton Tramways Electricity and Gas Co. about seven o'clock this morning and within half an hour the entire building was reduced to ashes. Employees succeeded in running all street faces on second and third stories, of new building, cars out of the barn, but a large quantity of electrical supplies were destroyed. The street opposition of the street opposition of the street opposition of the street opposition. supplies were destroyed. The street car service was suspended during the forenoon but was resumed as usual at noon. The building was valued at \$4,000. Supt. Coryell this morning was unable to state the MANUFACTURING FLATS, WAREHOUSES AND value of the contents burned. The building and supplies were well covered by insurance

NATIONAL DEFENSE BONDS.

Bordeaux, September 14.-President Poincare has signed a decree authorizing the issue of treasury bonds, redeemable in from three months to one

year, bearing five per cent.

The bonds are to be called "National Defense Bonds," and the holders will be given preference in the allotment of future loans. The amount is not mentioned, but the bonds will be of 100, 500 and 1,000 161% francs.
