

VANCO LEAD ARSENATE

Kills Codling Moth and Leaf-eating insects every time.

VANCO contains a guaranteed amount of Arsenic Oxide. Simply mix VANCO LEAD ARSENATE with water and you have a spray that is sure death to Codling Moths, Potato Bugs, Cabbage Worms, Asparagus Beetle and all other leaf-eating insects. Easy to spray—will stand two or three rains without washing off—and will not burn the foliage.

Absolutely guaranteed in quality and strength. Made in Canada. Factory near at hand, means low prices and less freight.

Write for prices and free book on spraying.

FERTILIZERS—We also sell Nitrate of Soda, Muriate of Potash, Sulphate of Potash and Acid Phosphate.

Chemical Laboratories Limited
126-136 Van Horne Street, Toronto.

All ready for Galt Shingles

Don't buy roofing from force of habit. Be progressive.

Make your new barn better than your old one—make your present one better than ever before—by putting on a roof of "Galt" Steel Shingles. The wood Shingles of today can't give you satisfaction and are a constant expense. "Galt" Steel

Shingles make a permanent, storm-proof, fire-proof and lightning-proof roof that saves your money for you every year in protecting barn and stock, and in doing away with repairs.

"The Kids from Galt" will stick in your mind until you send for a free copy of our book "Roofing Economy". Better write for it today and get it off your mind. We'll send it by return mail.

THE GALT ART METAL CO. Limited, GALT, ONT.

Cows Produce More in BT STALLS

Our cows will produce more, because BT Stalls give them perfect freedom and comfort and make possible greater cleanliness.

BT Stalls protect your cows against disease, worry and accident. Our catalogue explains how this equipment lessens abortion and does away with the principal causes of big knees, ruined udders and many other injuries. Further, it explains how our individual mangers prevent overfeeding and underfeeding.

If you are building or remodelling your stable, write at once for the BT Catalogue on Barn Equipment. No other investment will pay as big dividends as BT Equipment in your barn. Your barn is your profit-centre—HAVE IT RIGHT INSIDE.

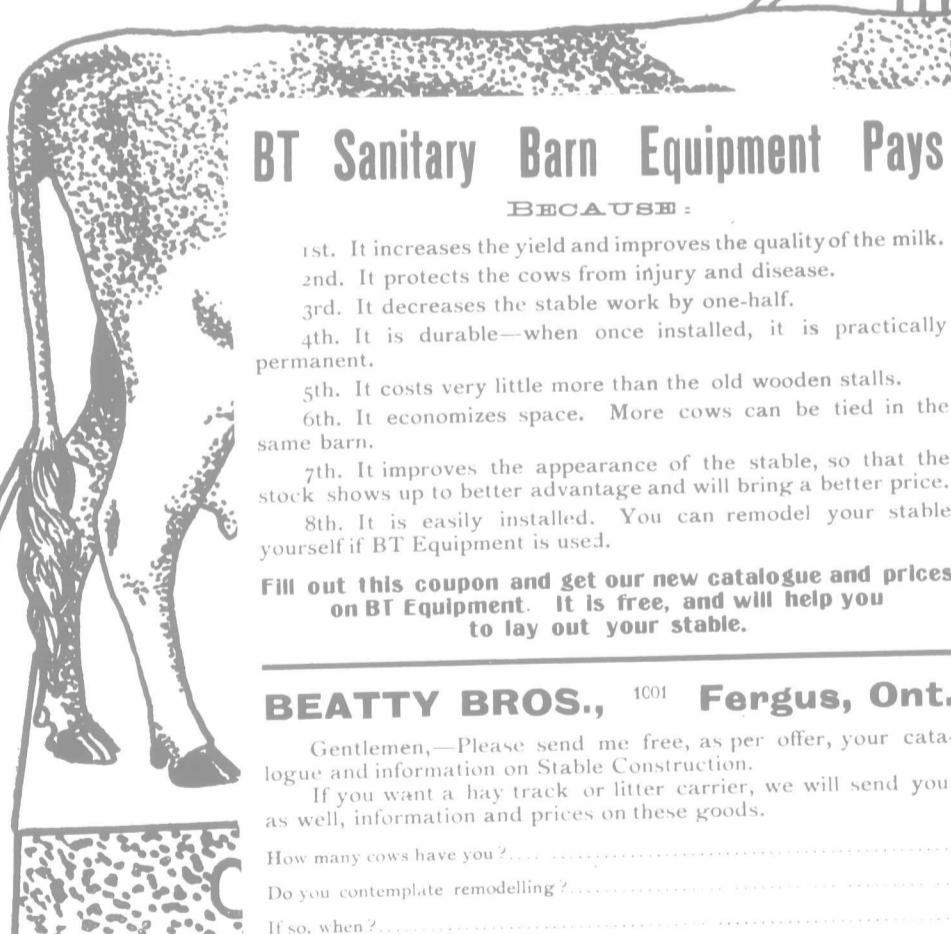

Remember, there are five exclusive features on BT Stalls, in which they excel all others. For instance, BT Stalls are the only ones by which you can line up all cows, whether long or short, on the gutter. No droppings will fall on the cattle-stand. Your cows will remain clean if tied in BT Stalls. Let us tell you about our other exclusive features: Our Sure-Stop Post—our Self-Cleaning Manger—our Swivel Stanchion—our Cross Chain—and our Calf and Bull Pens.

The interior arrangement of your barn is important, and, if properly arranged, it will save much time and labor in doing the stable work. We will help you to get the best possible layout. If you use BT Stalls you can economize space and tie more cows.

The New BT Catalogue on Sanitary Stalls tells how the cement floors should be laid for stables, the proper measurement and shape for the cattle-stand, the manger, the gutter, etc.

If your stable is equipped with BT Stalls you do not need to be afraid of any inspection. They will be as sanitary as it is possible to make them, and a pleasure to see and to work in.

Write for our catalogue today. It will be sent free if you fill out the coupon.

BT Sanitary Barn Equipment Pays

BECAUSE:

- 1st. It increases the yield and improves the quality of the milk.
- 2nd. It protects the cows from injury and disease.
- 3rd. It decreases the stable work by one-half.
- 4th. It is durable—when once installed, it is practically permanent.
- 5th. It costs very little more than the old wooden stalls.
- 6th. It economizes space. More cows can be tied in the same barn.
- 7th. It improves the appearance of the stable, so that the stock shows up to better advantage and will bring a better price.
- 8th. It is easily installed. You can remodel your stable yourself if BT Equipment is used.

Fill out this coupon and get our new catalogue and prices on BT Equipment. It is free, and will help you to lay out your stable.

BEATTY BROS., 1001 Fergus, Ont.

Gentlemen,—Please send me free, as per offer, your catalogue and information on Stable Construction. If you want a hay track or litter carrier, we will send you, as well, information and prices on these goods.

How many cows have you?

Do you contemplate remodelling?

If so, when?

What size of barn?

Will you want a hay track?

Will you want a litter carrier?

NAME

POST OFFICE

PROVINCE

We also build BT Unloaders for Steel, Wood or Rod Track, and the BT Litter Carrier.

Barn Work is Reduced by BT STALLS

They will about cut in two the stable work.

BECAUSE:

1st. The cows can be tied or untied in quarter the time with BT Stanchions than when chains are used.

2nd. When BT Alignment Stanchions are used all the manure is confined to the gutter. None falls on the cattle-stand. The cows remain clean, and much time is saved, which otherwise would be required to clean them.

Investigate, and you will be surprised at the saving with BT Stalls.

3rd. The manure being confined to the gutter, is easily removed, especially if a BT Litter Carrier is used.

4th. BT Stalls are made of steel tubing, so that there are no cumbersome wooden partitions to collect dirt or to work around. It is easy to bed-up a row of cows tied in BT Stalls.

5th. The mangers are self-cleaning, and the same manger can be used for watering, thus saving the turning out of cows.

6th. BT Mangers are large and capacious, so that they are easy to feed in, and each cow can be fed separately, as desired.
