

Legions More Adopt Goodyear Tires

This Year's Increase So Far—55 Per Cent

Please mark this fact:

After men have tried millions of No-Rim-Cut tires, this year's sales jump 55 per cent.

After going by leaps from bottom place to the top, this tire in one year wins 55 per cent more users. And wins them, mark you, by the mileage test; for most users today meter mileage.

The Highest Court

This verdict comes from the highest court. There is no appeal from users. They bought last year more Goodyear tires than of any other tire in the world. On top of that, they this year buy one-half as many more.

That's because we ended rim-cutting in the only feasible way.

It is because we saved men countless blow-outs with our "On-Air" cure. And no other maker does that.

It is because one method—used by us alone

—lessens loose tread danger by 60 per cent.

It is because of our All-Weather tread—a double-thick, resistless anti-skid, which runs on dry roads like a smooth tread.

No other tire offers one of these features. And the verdict of users tells you what they mean.

Half Former Prices

No-Rim-Cut tire prices are about one-half what they were in 1909. Part of the saving comes in lower-cost rubber, but a very large part is due to quantity output.

There are 18 Canadian and U. S. makes of tires today which sell at higher prices—up to one-half higher. The cost of *three* of some of them will buy you *four* of Goodyears.

Yet we give you in all ways the utmost in a tire. And in four ways we give you more than any other maker offers.

If you consider these facts—with the verdict of users—you can't doubt what tire to buy.
