FEVERS .- Fever, like every other form of dised by impure humors. This being caused by the more rapid action of the blood struggling with nature, in endeavoring to cast out at the corrupt matter which is deadly opposed to health. Hence the good and bad humors are at war with each other, and the commotion which follows causes fever and heat. The symptoms of fever are various, causing heaviness, languid, difficult breathing, eyes dull and heavy, anxiety, sighing and yawning, alternate fits of heat and cold. After which the patient complains of pains in the head and back, great thirst, nausea and sickness, a fulness about the stomach, and sometimes vom-ting bilious matter. Dr. Morse's Indian Root Pills are acknowledged to be a strengthening and delightful medicine for all kinds of fevers. They not only cleanse the stomach and bowels from all policies matter, but they open the excretory vessels, causing them to pour copious effusions from the blood into the bowels, after which the corrupted mass is thrown out by the natural passage of the body: All that is required, in urgent cases of fever, will be to take large doses. In order to have them operate thoroughly by the bowels, take from three to five, night and morning, until two to four every evening, until well, and you will be convinced that this is the best way to that the check fever, because they drive out all inflammation, and restore the body to a state of sound health. And the blood and other fluids will be so thoroughly purified that disease in any form will be utterly impossible.

WORMS!

DEOPLE in general are apt to think lightly of the ravales of these parasir ical animals upon the human frame. Whenever a child appears restless, become pale, emaciated, ill tempered and leverish, worms may always be suspected. In such cases the very best remedy is Bryan's TASTELESS VERMIFUGE, which any child will take without any troub e, and not only does it e-pel present Worms, but by thoroughly cleaning the system, prevents the formation of more.
