Dr. Jones' Lecture

Last night's meeting of the Church of England Temperance Society was well attended to hear Rev. Dr. Jones, the new rector of St. Thomas's deliver an address on temperance.

Rev. Canon White presided and briefly introduced the speaker of the evening. Rev. Dr. Jones gave a most interesting account of his experiences and knowledge gained of the liquor traffic in different parts of North Dakota, where he had laboured.

It was sentiment of this nature that should be promoted and in closing, Dr. Jones gave some practical advice as to how the cause could best be advanced.

Following the address, four new members were initiated, and one took the pledge, all being exhorted by Dr. Jones to stand firmly by the step which they had taken.

A vote of thanks was tendered the Rev. speaker at the close by Rev. Canon White on behalf of all present.

Rossley's Theatres

Last night the Rossley Theatre was all filled up with an appreciative audience. The act is the best thing yet attempted by Mr. Ballard Brown and the gifted Madge Locke, and every number was encored again and again.

"Ours in the West End"

There was, as usual, a good house at the cosy little theatre. The pictures are all of the best, and the little singers received great applause when they appeared in dainty Quaker dresses and sang their charming little songs.

At the Nickel

Yesterday's banner-bill at the Nickel was warmly and justly applauded, hundreds of people attending both afternoon and night.

At the Casino

A more appreciative crowd never was in the Casino Theatre than the one which witnessed the magnificent portrayal of "The Wolf" last evening.

A Correction

We were misinformed in our statement of yesterday that the work of re-building the Cochrane St. Church had been placed in the hands of a contractor, and hasten to make this correction.

The Star Society are holding a meeting in a day or two to decide on the order of recognition of the consecration of His Grace. The Star—with all our other Catholic Societies—will make a presentation to our new Archbishop.

(Under the Distinguished Patronage of His Excellency the Governor.)

The first ILLUSTRATED LECTURE of the Second Series at King George V Institute will be delivered by H. W. LEMESSURIER, Esq., in the Grenfell Hall, on Monday evening, May 10th, 1915. Subject:—

"Ancient St. John's"

His Excellency the Governor, Sir Walter E. Davidson, K.C.M.G., will preside. A very interesting incident of the evening, before the lecture, will be the uncovering in the Hall by His Excellency the Governor, of a remarkable fine Autograph Portrait of M. Raymond Poincare, President of the French Republic—recently presented to the Institute by His Excellency the President. Speakers:—The Premier of Newfoundland, The Right Honourable Sir Edward Morris, P.C.; The Chief Justice of Newfoundland, The Honourable Sir William Horwood; The Chairman of the Municipal Board of the City of St. John's, N.F., W. G. Gosling, Esq.; and the Vice Consul of France to Newfoundland, Monsieur P. Suzor.

The Band of the C. L. B., Newfoundland Regiment, by permission of Lieut. Colonel R. G. Rendell, will play selections during the evening. Doors open at half-past seven o'clock. Unveiling at 8 p.m. Lecture to commence at 8.30 p.m. Admission, 10 cents; Reserved seats 20 cents. Tickets to be had at the Atlantic Book-store and Institute.

Submarine Torch

Various combinations of gases giving concentrated high temperatures—oxyhydrogen, oxyacetylene, etc.—are now quite widely used in wrecking metal structures. These flames eat through a steel girder or a ship's plating almost as though it were butter. Not only is much time saved by their use, but structures that were not worth saving because of the cost of old methods of disarticulation can now be sold to the junkman with profit.

A new method of applying the oxyhydrogen torch to such use was recently tried in Kiel harbor. The torch was arranged to work under water—as, for example, in dismantling a sunken ship. It had a bell shaped head and operated in a supply of compressed air. At a depth below the surface of something over sixty feet a cut nearly twelve inches in length was burned through an iron plate of three-quarter inch thickness. The value of such a submarine torch in many marine contingencies is obvious.—Exchange.

S. S. Fortia, Capt. Joe Kean, sailed for Western ports this morning, taking a full freight and the following passengers:—V. Reddy, J. T. Young, J. Conway, Medamos Myrick, Whalen St. Croix, and Mahoney and 28 in steerage.

The Terra Nova landed the following seals at Bowings:—2556 young harps, 29 old harps and 266 old hoods; total, 2851 seals; the value being \$6716.83. The crew of 203 men shared \$11.02 each. Average weight of young harps 45 1-5 lbs.

And Mother Nature, Heaven's nurse, Will ever nightly lave. Your glorious grave with gentle dews. While weeping willows wave; And kindly zephyrs every day And every night will sigh A sweet memorial for aye Your tomb to sanctify.

And Belgian maids, and matrons too, Will often leave the loom To gather wilding flow'rs To beautify your tomb. The peasant, as he passes, Of to his son will say, "Twas here the brave Canadians did hold the Huns at bay."

And when the Angel Gabriel Shall sound the trumpet blast, Then shall you all awake, From your seeming death at last; And standing at "attention," While angel voices sing, You shall salute in unison Your Lord and God and King. D. M. MATHESON

GERMANY PREPARES FOR FOUR YEARS' WAR London, April 29.—A telegram to the Evening News from Copenhagen quotes the German Counselor of State, Herr Gottschalk, as saying that systematic efforts were being inaugurated in Germany for the purchase of sufficient foodstuffs for a four-years' supply. This is being done, it is said, on instructions to German chambers of commerce from Dr. von Bethmann-Hollweg, the Imperial Chancellor, on the ground that Germany "must be prepared for at least this length." Herr Gottschalk is on his way to Sweden and Norway to organize a system for making these purchases.

STEBAURMAN'S OINTMENT

To Whom it may Concern:— I was a great sufferer in 1914 from Dropsy. The physician who attended me failed to do me any good. A friend advised me to give Mr. Stebaurman's trial, which I consented to do being then in a very bad state. After using his remedies I am proud to say I was made a perfect cure, and it gave me great pleasure to publicly recommend him. I shall be pleased to confirm this statement to any person who cares to call on me.

Yours faithfully, WILLIAM HARVEY, 29 Pleasant St., St. John's, Nfld., April, 1915.
