MAY VISIT USAustralian Premier Is Coming
to America.

AN INTERESTING CAREER

William Morris Hughes is a Labor
Man. Though He Does Not Work
With the Radical Element, and
He Resembles Premier Lloyd
George in Many Ways.WILLIAM M. HUGHES
Prime Minister of Aus-
tralia, is paying a visit to
America. He was on this
continent a few years ago. Since then
he has passed through a crisis in his
career and triumphed in a difficult
achievement, and he appears before
us in a somewhat different light. A
labor man he is still, but a labor man
who has broken with the radical ele-
ment in his party, fought with all his
strength for the establishment of con-
stitution, been expelled from the
councils of the labor extremists, and

PREMIER HUGHES.

wielded the moderate laborites into
one war party with the conservative
elements in Australian politics. As
Prime Minister in a Coalition Cab-
inet, he has ceased to be the leader
of a majority party only; he has fused
labor and capital into a working
combination to which only the
"I. W. O. element" has been oppos-
ed. And he has worked successfully
to overthrow the labor machine which
he himself built up.
In February of last year the Aus-
tralian Cabinet, with Mr. Hughes as
Prime Minister, resigned, and he was
at once asked to form the new coal-
ition Ministry.
Like Lloyd George, the Australian
Premier is a Welshman, and self-
made. His rise has been against tre-
mendous odds of physical disability.
He was born in 1864, weighs scarce-
ly 100 pounds, and is said to be a
chronic dyspeptic.These Were Once a Religious Sect.
The word "thug" has an interest-
ing historical origin and comes to us
from India. In a recent address in
England, Rudyard Kipling told the
story as follows:"Once upon a time, a hundred
years ago, there was a large and
highly-organized community in India
who lived by assassination and rob-
bery. They were educated to it from
their infancy, they followed it as a
profession, and it was also their re-
ligion. They were called Thugs.
Their method was to disguise them-
selves as pilgrims or travellers or
merchants, and to join with parties
of pilgrims, travellers and merchants
moving about India. They got into
the confidence of their victims, found
out what they had on them, and in
the time—after weeks or months of
acquaintance—they killed them by
giving them poisoned foods—sweet-
meats for choice—or by strangling
them from behind, as they sat over
the fire of an evening, with a knotted
towel or a specially prepared piece
of rope. They then stripped the
corpses of all valuables, threw it down
a well or buried it, and went on to
the next job.
"At last things got so bad that
the Government of India had to in-
terfere. Like all Governments, it cre-
ated a department—the Department
of Thugges—to deal with the situa-
tion. Unlike most departments,
this department worked well, and af-
ter many years of tracking down and
hanging up the actual murderers, and
imprisoning their spies and confeder-
ates, who included all ranks of so-
ciety, it put an end to the whole busi-
ness of Thugges."What Is T. N. T.?
Tri-nitro-toluiol, or tri-nitro-tol-
uene or T. N. T. is a white solid which
is easily made and which is safer to
use than many other explosives. Chemically it is CH-3 C-6 H-2 (No.
2)-3. It is made from toluol and
nitric acid. The toluol is obtained as
a by-product in the coke industry.
There is not enough toluol prepared
in the United States to supply its
present needs. The tar and illumina-
tine gas of the city gas-works con-
tain toluol. By making certain
changes in equipment the toluol
could be saved. Toluol in gas gives
illuminating power, but if gas man-
ufacturers used its absence will not be
missed. It is of no value in the gas
used for heat. It has been estimated
that enough toluol is burned in illu-
minating in the United States in one
day to make T. N. T. for 150,000
3-inch shells. Three hundred pounds
of T. N. T. are used in a single tor-
pedo.—Electrical Experimenter.Boys' hose 31c, extra quality rib-
