CORRESPONDENCE

Halls Harbor, Sept. 9th, 1901. Kentville ADVERTISIO

Sir,—Allow me a small space in your luable paper. I am not in the habit valuable paper. I am not in the habit of writing newspaper gossip only I thought I should like to write you a few stray thoughts about Halls Harbor, now that it is becoming one of the favourite recorts for summer visitors. I have no hesitation in saying it is one of the finest places along the whole shore; the views around the harbor are something grand. The beach is one of the finest for bathing. Travelling either way along the shore you have views unsurpassed and from the top of the hill look, ing down upon the harbor it fairly dazzles your eye.

last Sunday evening Rev. F. Friggina preached an earnest and practical sermon to the young people of his congregation.

R. Watson's. These have been the means of reising Halls Harbor to its present state. The latter has been the means of getting the Telephone into the harbor, which has been one of the greatest booms the place could have. It has placed the people of the Harbor in full communication with the outside world, before they were; as if they lived in the back woods. The place was not known, now it is different.

We all wish Mr. Watson success in any enterprise he may take in hand for the welfare of the place. We wonder if he intends doing anything about a linear school this winter? It was the last sunday evening Rev. F. Friggina preached an earnest and practical sermon to the young people of his congregation.

Rev Alfred Faulkner, D. D., and bis son, Arthur, are visiting at the old sunday evening in Brunswick Street church for Rev. W. H. Langille, and he will preach for Mr. Friggins next Sunday morning.

Son Catlewill have a hard time to find water on the dyke.

We all wish Mr. Watson success In any enterprise, he may take in hand for the welfare of the place. We wonder if he intends doing anything about a singing school this winter? It was the joy and pleasure of the people last winter, many a long winter night being spent by both young and old, listening to his teaching and singing, which was given gratuitously to all. He also was the means of getting an organ for the ball.

I am sorry to say that the Smallpox

I am sorry to say that the Smallpox scare has frightened the people not a little, but there is no danger in coming to the harbor as their is no case with in seven miles of it and the air is fine and refreshing.

The Farmers have had all their hay and oat crop securely housed, for the winter and I understand it has been a very good crop and got in in splendid condition. Now they are prepairing for potato lifting, which they expect will be a fairly good crop, considering the very dry season.

GRAND PRE

Sept. 11th,—Methodist Financial District Meeting for Windsor district was held in the church in Grand Pre, \$1,500,000 \$900 000 \$505,000 after work in the district and their lay delegates were present. In the afternoon the usual business was transacted and in the evening a Missionary meeting was held. The church was cer President well filled and the hymns and anthems by the choir were very enjoyable and a duet by Mrs. Newhall and Mrs. Willet, the former playing the organ accom-

Rev's Dobson, chairman, Armstrong and Aikens delivered earnest and eloquent addresses. Mr. Armstrong has of fered himself for the work in China. Mr. Dobson's address was scholarly, logical, historical. He denounced war in general and the war in South Africa, the Philippines and China in particular, characterizing such was a disgrace to the church and to Christian nations. Some would agree with him and more would not. A U. S. general has said, "War is hell," and that is true of all wars; but some times nations are forced to go through hell to reach heaven.

In South Africa it was either English from Cape to Cairo, or a Dutch South Africa Krugerism with its cruelty and injustice to Outlanders, its conspiracy for Dutch supremecy, its insulting ultimatum and its invasion of British territory, forced the British Empire to go to war, and that war should be continued until the Boers are completely subjugated or annihilated.

ed or aunihilated.

Spanish cruelty and misgovernment led to war with the U. S., and the capture of the Phillipines. Uncle Sam could't give them away and was justiff able to give the people a civilized government and reduce the country to law and order. Every just man will condemn the 'land-grabbing' and 'sphere's of influence' of the nations in China; but when the Celestials go to butcher 'turrin devils' indiscriminitely and were likely to inflect a horrible death on were likely to inflect a horrible death on the beleagered embassies in Pekin, war was the only alternative for the nation. Is it not possible that God makes use of war to open doors and carry out his purposes? Christ wept over Jerusalem, but he pronounced its doom nevertheless and the temple and city were destroyed by war and the Jews scattered broadcast
