## A 'CROSS COUNTER TALK

Customer: "What constitutes good paint?"
Dealer: "Good paint depends on the materials used, the procustomers of manufacture, and the skill of the paint maker—no more,

cesses of manufacture, and the skill of the pant income less.

"Sherwin-Williams Paint, Prepared, is good paint—the best paint, in fact, that can be made. No care or detail is lacking in its manufacture. The materials employed are of the highest quality and are properly put together by experienced paint makers. The linseed oil—the vital part of paint—used in S.W.P. is made especially by The S-W. Co. in their own mill. The pigments are selected with greatest care and scrupulously tested. The tinting colors are products of the Company's own dry color works. And the mills used for grinding and mixing are designed and made in the machine shops of the Company. They embody the most advanced ideas in paint making. With such high quality materials, such care and attention, S.W.P. must be and is good paint all the way through."

And Also on Overstrong Tea and Even on Gold Water.

According to a house surgeon in a London hospital, it is not necessary to take strong drink at all in order to be ses have been known in which patients have got drunk on a beefsteak after having been for many weeks on a very light diet. The in-torication in these cases showed it-self in a slight dizziness and drows-ness and indistinctness of speech.

llar cases have been known in which the only intoxicant has been strong tea. In fact, there are instances in medical books of exceptional people in whom the constant use of overoverdrawn tea has brought about distinct symptoms of delirium

Perhaps the most curious sort of intoxication on record is that in which the only intoxicant is cold water dripping from a water tap into the ear. In Germany a few years ago quite a number of morbid people had a craving for this curious way of inducing drunkenness, but it seems to have been stamped out.

#### RIDING THE SURF.

Riotous Sport In the Breakers That Lash the Coast of Hawaii.

"One of the novel pleasures in which most travelers indulge while in Hono fulu is surf riding at Waikiki, near Diamond head," writes John Burroughs in the Century. "The sea, with a tioor of lava and coral, is here shall low for a long distance out, and the surt comes in at intervals like a line of steeds cantering over a plain. went out in our bathing suits in a iong, heavy dugout, with a native oarsman in each end.

When several hundred yards from shore we saw on looking seaward the long, shining billows coming, whereupon our oarsmen headed the canoe toward shore and plied their paddles with the utmost vigor, uttering simultaneously a curious, excited cry. In a moment the breaker caught us and, in some way holding us on its crest, shot us toward the shore like an arrow.

"The sensation is novel and thrilling. The foam flies; the waters leap about You are coasting on the sea, and you shout with delight and pray for the sensation to continue. But it is quickly over. The burrying breaker slips from under you and leaves you in the trough, while it goes foaming on the shore. Then you turn about and row out from shore again and wait for another chance to be shot to ward the land on the foaming crest of a great Pacific wave."

Turn to the Earth. You to whom the universe has become a blast furnace, a coke oven, a cinder strewn freight yard, to whom the history of all ages is a tragedy with the climax now to whom our de nocracy and our tiag are but playthings of the hypocrite, turn to the turn to the earth, your mother, and she will comfort you. Italy's Marriage Brokers.

In Italy marriage brokers are a reguiar institution. They have pocketbooks filled with the names of marriageable maidens in various ranks of life and go about trying to arrange matches.
