BABY'S GREAT DANGER DURINGHOTWEATHER

More little ones die during the hot weather than at any other time of the year. Diarrhoea, dysentry, cholera infantum, and atomach troubles come without warning, and when a medicine is not at hand to give promptly the short delay too frequently means that the child has passed beyond aid. Baby's Own Tablets should always be kept in homes where there are young children. An occasional dose of the Tablets will prevent stomach and bowel troubles, or if these troubles come auddenly the prompt use of the Tablets will cure the baby. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

Serious Fire at Carlisle

On Sunday evening fire destroyed the barns owned by Neil Pratt at Carlisle. Although the flames were discovered about as soon as they started nothing in the buildings were saved and those who were inside at the time had narrow escape of their lives. Among other things lost were a fine span of horses. There were about six tons of hay in the barn, Mr. Pratt carried no insurance and as he is an elderly man he feels his
