Don't

Let that cold of yours run on. You think it is a light thing, but it may run into catarrh, or into pneumonia, or consumption.

Catarrh is disgusting. Pneumonia is dangerous. Consumption is death itself.

The breathing apparatus must be kept healthy and clear of all obstructions and offensive matter. Otherwise there is trouble ahead.

All the diseases of these parts—head, nose, throat, bronchial tubes and lungs—can be delightfully and entirely cured by the use of Boesche's German Syrup. If you don't know this already, thousands and thousands of people can tell you. They have been cured by it, and know how it is, themselves. Bottle only 75 cents. Ask any druggist.

A Model Heating Apparatus.

School commenced for the term in district No. 2 this week. Miss Cooper, their teacher, and the secretary's patient and devoted, with a punching machine connected by a good-sized boy, to get up heat enough to warm the school, and to let the pupils through the punched-out panels of the doors leading to the school room. The cold air that the store is unable to heat and the scholars must up is vented through the patent arrangement in the stove to keep the fire burning. It has been suggested that the Board of Education adopt this new heating arrangement for all schools under their charge.

DEACONS.

No suffers from any scrofulous disease, who will fairly try Ayer's Sarsaparilla, need despair of a cure. This remedy purges the blood of all impurities, destroys the germs of scrofula, and infuses new life and vigor throughout the physical organization.
