General Intelligence

TO LONDON IN THREE DAYS.

THAT IS WHAT THE TIME WILL BE BY THE TURBINE STEAMER.

If the two turbine steamships that are now being built on the Tyne come up to the expectations of their designers, Canada will be called upon to make no contribution for the establishment of a fast Atlantic service. The service will come about of its own accord, and it will be a fast service in very truth. A London despatch to a New York daily says that the establishment of a turbine service across the Atlantic is no visionary scheme, but a well-considered commercial venture with the soldiest kind of financial backing. We are told that plans have already been drawn up for the formation of a giant transportation company, which, if the new boat proves a success, will at once order a fleet of the same kind. Simultaneously there will be begun the construction of a submarine tunnel between Ireland and England, so that trains may run through from London to Galway Bay, which is intended to be the the point of departure of this surprising line. On the American side the harbor will be at Hall's Bay, Newfoundland. The distance between this place and the west coast of Ireland is about 1,650 miles, or about one-half that between New York and Liverpool. It is expected the new boats will make forty miles an hour at least, so that the trip to Newfoundland will be made in forty hours. Express trains will convey passengers across the island, and a few hours' run by steamer from the western coast of Newfoundland will make connections with the American railway system. By means of this astonishing service New York and Montreal will be brought within a little over three days of London.

We have little doubt that the recent advent of the Turbinia has acted as a disturbing element in the flotation of of the proposed Canadian Fast Atlantic service. Capitalists see in that wonderful little steamer the germ of a novel trans-Atlantic passenger fleet, and the route of such a fleet will undoubtedly lie via Newfoundland and Canada. We agree with the London correspondent that the scheme is by no means a visionary one. Its realization is the natural outcome of what has already been proved by the Turbinia. The two vessels that are now under construction at Wallsend, on the Tyne, are rated at 10,000 horse power. One of them is intended for the Admiralty. The very fact that such a conservative body as the Admiralty has ordered a vessel of the Turbinia type is evidence in itself that the new turbine motor must possess great possibilities. The success of the invention means much for Canada. It will make this country the gateway to all North America of the passenger traffic from Europe.

USE FOR MILL REFUSE.

The discovery of a Mr. Emerson of Baltimore, that the sawdust and refuse wood of mills can be used to advantage, making valuable products, should be carefully investigated by our millmen. Perhaps it will be found that the new industry is one to which St. John offers peculiar advantages. Certainly there would be ample sawdust and refuse wood to keep a large plant in operation. Mr. Emerson has invented machinery that is practically automatic in its operation, which converts the sawdust and other wood waste into a superior grade of carbon that can be sold in competition with coke, being produced for about 50 cents a ton. For carbon there are many uses, the chief being the manufacture of calcium carbide. The by-products of the waste can be utilized in making white lead, paints, acetate of copper, calcium acetate, varnishes, printers' ink and many other products, the market for all being practically unlimited. A very practical use of the carbon is for smelting purposes and this is an industry that should flourish in St. John. A practical test of the Emerson process was given a few days ago in Ottawa at the mill of W. C. Edwards, M. P., and it was shown that the machine would do all that was claimed for it. Now the capital is looking for great results from the establishment of the works there and also from the building of a smelter. It is expected among other things to produce a gas for both heating and illuminating purposes superior to any now on the market and much cheaper, beside being odorless and having no asphyxiating properties.—St. John Globe.

RAILWAY DISASTER.

TAUNTAN, MASS., Sept. 7.—Two trains over the New York, New Haven & Hartford railroad, from Boston, one from Park square station and the other from the Kneeland street station came into collision at Whittenton Junction about two miles above the station here just before 8 o'clock last night, and in the wreck which followed, in one of the cars of the Park square train 15 persons were more or less injured, one of whom, Harry W. McIntyre, has since died and another, Nicholas Young of this city, is not expected to live.

A HEALTHY WOMAN.

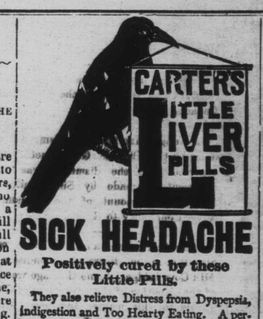
Nine-tenths of all the suffering and disease in the world comes from the kidneys. Yet how few people there are who take any care of these delicate little organs. Backache, lame back, headaches, listlessness, all signs of kidney trouble, are almost universal.

Doan's Kidney Pills

Tone and regulate the kidneys and help them to throw off the poisons from the system.

Mrs. A. Brown, P. O. Box 202, Dresden, Ont., says: "For years I suffered from dropsical trouble which caused me much distress. I heard of Doan's Kidney Pills and got a box of them at Switzer's Drug Store. Before commencing to take them I was unable to button my shoes on account of my swollen condition, but by the time I had finished the first box I could do this without inconvenience. I have now taken a second box and have no hesitancy in recommending Doan's Kidney Pills for any Kidney or Dropsical trouble."

Price 50c. a box, 5 for $1.25, all Druggists. The Doan Kidney Pill Co., Toronto, Ont.



SICK HEADACHE

Positively cured by these Little Pills.

They also relieve Distress from Dyspepsia, Indigestion and Too Hearty Eating. A perfect remedy for Dizziness, Nausea, Drowsiness, Bad Taste in the Mouth, Coated Tongue Pain in the Side, TORPID LIVER. They Regulate the Bowels. Purely Vegetable.

Small Pill. Small Dose. Small Price.

Substitution

Carter's Little Liver Pills.

BRITISH SAILORS KILLED.

20 BLUEJACKET ANNIHILATED BY MUSSULMANS.

CANDIA, ISLAND OF CRETE, Sept. 7.—The British battleship Camberdown having on board Sir A. Bilotti, the British consul at Canea, has arrived here. Several other warships have also reached this port. Reinforcements of bluejackets have been landed and an early restoration of quiet is expected. The fires have been extinguished but, during the rioting the British and German consulates were burned.

The custom house barracks and court house, were saved. Quiet is being rapidly restored.

LONDON, Sept. 7.—Sir A. Bilotti, the British consul at Canea, who went to Candia on board the British battle-ship Camperdown, cables to the Foreign Office, saying that the rioting in Candia was caused in the following manner:—A British soldier on guard at the tax office was suddenly stabbed in the back and he dropped his rifle, which exploded, killing a Mussleman, the firing then became general, and a party of twenty British bluejackets, from the British torpedo gunboat Hazard, was almost annihilated before the sailors could reach their ship. In addition a detachment of 45 British soldiers were driven from their quarters near the Telegraph station and many of them were wounded.

The total casualties as far as are known, are 20 killed and 50 wounded. The fate of the christians of other towns is uncertain; but it is feared that only those who succeeded in obtaining refuge in the Court house have been saved.

The British vice-consul, Mr. Colocherine was burned to death in his house.

SIR HERBERT KITCHENER.

Sir Herbert Kicthener, who on Saturday smashed the Khalifa, has been a man of the day before this, and probably will be again, for he makes a point of doing something notable about once a year. This year he has done it twice, for on Good Friday last he fell upon the Khalifa's advanced guard at the Atbara and fairly annihilated it. Now he has destroyed the Khalifa's power in his chosen stronghold. Sir Herbert—will he be raised to the Peerage for this victory?—is an engineer officer and is 48 years old. He is thus young to be a general of eight or nine years' standing, and his rise in the army for a while was slow, as he was thought to be a plodder rather than a brilliant man. His chance came when he joined the Egyptian army at the time of its reorganization by Sir Francis Grenfell. His high qualities were soon seen, and he commanded the Egyptian cavalry from 1882 to 1884, and then, after serving in Lord Wolseley's expedition, was governor of Suakim for a couple of years more, becoming Sirdar in 1890. He also found time for some exceedingly daring exploration work, and gained a profound knowledge of the natives. As Sirdar he has done wonderful work. He is a master organizer, can do more with narrow means than any other soldier in the empire, probably in the world, and has a record of absolute and unbroken success. His prestige among the fatalistic Arabs by this time is immense

DERVISHES COURT DEATH.

LONDON, Sept. 7.—A special despatch from Omdurman says: Hubert Howard, the correspondent of the Times, met his death owing to his eagerness to get the first news of the fate of Karlueufeld and the other European prisoners of the Kholifa. He pressed into the city before it was safe to do so, and was making his way all alone down a narrow valley, leading to the prison, when he was attacked and killed. The finest display of heroism on the Dervish side was made by the Khalifa's brother, Yantub, with his adherents, who, utterly regardless of our terrific fire, made a superb attempt to retrieve the day's fortunes. Though far from asking quarter, they simply hugged death. Yantub died in the prison of his old enemy, Slatin Pasha.'

THE ALSACE-LORRAINE QUESTION MUST BE CONSIDERED.

ST. PETERSBURG, Sept. 7.—The Novosti, in a long article declares that the principle subject to be considered by the disarmament congress must be the the question of Alsace-Lorraine.

In anticipates that the result of consideration or this matter will be either the neutralization or independence of Alsace-Lorraine, which will now be possible without wounding the amour propre of either nation.

'Both Germany and France,' says the Novosti, could make this self sacrifice to attain the Czar's worthy object, and thus restore friendship and relieve the world of the burden of armed peace.'

WIDE TIRES ON HEAVY VEHICLES.

'On and after the first day of the year of our Lord one thousand eight hundred and ninety-nine every vehicle loaded with stone, sand, or other material of like nature whatsoever, when the same in weight one and a half tons or more when used and passing over or along the Highway, be provided with tires not less than four inches wide; the owner or person in charge of any such vehicle shall, for every offence against this Section, incur a penalty of five dollars.

Preparation should be made by those interested, so as to conform to the requirements of this enactment.

H. R. EMMERSON, Chief Commissioner.

CHURCH COURTS

May Differ and Split Hairs on Doctrinal Points, but may Join Hands for Humanity in Proclaiming the Virtues of Dr. Agnew's Catarrhal Powder.

Catarrh, that dread menace to humanity, attacks the high, the low, the rich, the poor the learned and the illiterate, but Dr. Agnew's Catarrhal Powder is a sovereign cure and needs no more reliable testimony of its efficacy to cope with and cure this decease than that such eminent divines as Rev. W. H. Withrow, Methodist; Rev. Mungo Fraser, Presbyterian; Bishop Sweatman, and other prominent leaders in the Church courts, who have over their own signatures testified to its virtues. What better evidence for you that it will cure you.—Sold by E. Lee Street.

DREYFUS CASE.

PARIS, Sept. 7—The Figaro today says the cabinet council just held unanimously agreed upon a revision of the Dreyfus case and directed the ministes of justice, M. Sarrien, to take the necessary steps to accomplish it.

WAR ON THE TORMENTORS.

12 Years or Irritation, Torment and Pain, Relieved and Cured with One Box of Dr. Agnew's Ointment, for Skin Diseases and Piles.

A. Darnell, of Hayden, Neb., writes: 'For 12 years I was tormented with itching piles, the agony at times was almost beyond bearing. I tried a dozen or more so-called pile remedies without any lasting benefit. One box of Dr. Agnew's Ointment cured me.' This remedy cures eczema when all else fails.—Sold by E. Lee Street.

THREE MEN KILLED.

WINNIPEG, Man., Sept. 6.—A serious accident occurred Saturday on the Crow's Nest Pass Railway Loop. A work train was standing on a high trestle inside the limit boards when another train came along and ran into it, striking an empty flat car. The engine lifted the flat car off the track and four men who were on it, Mr. Giles, road-master, and two Italians were killed and another badly injured.

A CONVERTED PHYSICIAN.

With the Aid of South American Kidney Cure, Nurses His 'Hopeless' Cases back to Health.

A prominent physician writes this of diabetes: 'Personally until very recently I have never known an absolute cure. But this same physician says further that he has noted the wonderful work accomplished in patients of his by South American Kidney Cure; patients whom he had ceased to treat because in his estimation there was no cure and no hope. What a tribute this is to be a medical genius in the compounding of this great remedy—this Kidney specific. It soothes, heals and cures the diseased parts. Does it quickly and permanently.—Sold by E. Lee Street.

PURSUING THE DERVISHES.

OMDURMAN, Sept. 5.—One of the gunboats sent in pursuit of the fugitive Khalifa Abdullah has returned here. Her commander reports that he went sixty miles up the river. He saw about one hundred fleeing horsemen.

Exhibition Notes.

The poultry at the St. John exhibition will have this year palatial quarters in the new building just finished. There will be accommodation for over 1,500 birds, in a two tier row. The building is well lighted amply ventilated, free from draughts and under the charge of a careful and experienced superintendent.

Visitors to the St. John exhibition will be able to view the high diving and aerial trapeze performances, on the grounds, from a new well arranged and modern, roofed-in grand stand. This building has just been completed, it faces the grounds and harbor and commands a beautiful view of coast line and the Bay of Fundy.

The St. John Exhibition Association have this year been very fortunate in securing as caterer for their restaurant, Mr. Edward Betts, of Montreal, who has for some years occupied similar positions at the Toronto and Montreal shows, so that visitors to the exhibition may feel assured that they can secure a good meal without leaving the grounds and get good value for their money.

Among the attractions in the machinery hall at the St. John Exhibition will be an augur boring square holes. This wonderful tool is a thoroughly practical instrument and designed to save a great deal of labor among carpenters and builders and it never fails to excite much interest. Several of these augurs will be constantly in operation in machinery hall.

Saturday, 17th September will be children's day at the St. John exhibition when every effort will be made to specially interest the children by new features upon the grounds. Admission for children on this day will be 10 cents.

Biliousness

Is caused by torpid liver, which prevents digestion and permits food to ferment and putrify in the stomach. Then follow dizziness, headache,

Hood's Pills

insomnia, nervousness, and, if not relieved, bilious fever or blood poisoning. Hood's Pills stimulate the stomach, rouse the liver, cure headache, dizziness, constipation, etc. 25 cents. Sold by all druggists. The only Pills to take with Hood's Sarsaparilla.
