...times has received from the ...ny, Toronto, a flatter... ...to the value of the ...on's Favorite Family ...dvertising medium. It ...emembered that the Ozone Company after an announcement in the Times had a free distribution of samples of their remedy. Referring to it, the manager, Mr. T. M. Humble, says:

"In this connection I desire to add that although only having two advertisements in the Times, we were able to secure an audience of thousands of people, which strengthened our first estimate of your paper that we believed we were using the best medium in the city.

"The results from our advertising in the Times from a monetary point of view have been very gratifying and you will have no difficulty whatever in renewing the present contract as soon as it expires.

"In fact, we are largely under the impression that as results have been so good so far, we are likely to use up our space in about half the time we intended."

Well Worth Remembering.

A firm to be progressive must keep in touch with the requirements of the people. Messrs. Green Bros., the undertakers, have recognized this and have introduced a system to their increasing business by manufacturing their own burial cases, thus doing away with the middleman's profit. Their office is open day and night, and patrons will be well looked after.

Mr. James Angus, No. 38 King street west, has assumed the management of E. M. C. Cassel's boot and shoe business, and as everything has to be cleared out, genuine bargains will be given. The stock is valued at $10,000, and is of a variety to meet all demands. Trunks and valises are on the list.

THE QUESTION OF LIGHTING

To be Considered by the Committee on Monday.

SCHEDULE OF PEDDLERS' FEES.

Two by-laws and the statement of comparative cost of gas and electricity will be considered by the Markets, Police and Jail Committee at its meeting on Monday night. Secretary Barr has completed his report on lighting. The Gas Company's offer to light the City Hall is $235 a year. In 1894, the last year the building was lighted by gas, the cost was $315 under the then existing rate of $1.50 net. Electricity was introduced in 1895, and cost $236.26. In 1898 the cost was $442.78, and in 1899, $454.19. Mr. Barr in his report says: At the city jail in 1899 there was consumed 161,800 cubic feet of gas, at a cost of $232.52 at the old rate. Under the new rate ($1 per 1,000 feet), the cost would only be $161.80. The company's flat rate offer is $185. Assuming that the same quantity of gas would be consumed this year, the gas if charged by meter would be considerably less than the flat rate offer. I find similar results in the other departments where gas is used—that is, that there is very little difference between the flat rate offer and the cost if charged by meter; but the flat rate for the clock tower is very low. It could not be lit for that money if charged by meter.

The two by-laws to be considered are one to license and regulate lodging houses, tobacco stores, etc., and the other is to amend the hawkers and peddlers' by-law. Under the proposed new schedule of the peddlers by-law, the fee for selling foreign fruit from a basket, hand cart or one-horse wagon is $10 a year; to sell produce of farm or garden, or to sell fish from basket, $5; from one horse wagon, $10; from two horse wagon, $15 a year. To sell flowers, small wares, etc., from basket, hand-cart or valise, $2 a year. To sell plated ware, etc., $10. To sell coal oil, gasoline, etc., from hand cart, $5; from one horse vehicle, $10; from two horse vehicle, $15. To sell tea, $10. To sell dry goods, etc., $10.

For a license for hawkers, who, being agents or persons not resident within the county, to sell or offer for sale tea, dry goods, watches, gilded ware, silverware, furniture, capets, upholstery, millinery, jewelry, or carry or expose samples or patterns of any of such goods to be afterwards delivered within the county to any person not being a wholesale dealer in such goods, wares or merchandise, $10.

One case of diphtheria and nineteen of measles were reported this week at the Board of Health office. The measles have about run out.

Work on Birch avenue sewer will be begun on Monday morning. P. Nelson will be foreman.

With two tank cars of tar and a carload of barrelled tar on hand, the Board of Works has now lots of road-making materials on hand, and will push the work along without further delay. Foreman Towers will begin the East avenue work on Monday, working from the southerly end. The work on York street is now progressing satisfactorily.

H. G. McMahon has taken out a permit for alterations to No. 13 West avenue north, for A. Harris, to cost $500. A permit has also been issued to F. J. Rastrick & Son for the erection of a brick house on Hunter street, between Bay and Caroline, for Edwin Skedden, to cost $1,500.

Old Valentine H. Tisdale is back again in the house on Hughson street, which he has been occupying for some months. While he was out yesterday and the bailiff was in, the landlord had the lock changed, but Tisdale went back as soon as he got a good meal, and broke in. Every effort to get him to go into the House of Refuge, where he would be well cared for, has failed. He is apt to be arrested as a vagrant.

A SPECIAL DAY.

The G. W. Robinson Co. will place before their customers on Monday the greatest offerings that the good people of Hamilton have ever seen. A big lot of apron ginghams, regular 10c. goods, for 5c. 600 yards of 12 1-2c. print for 5c. Four bargain tables loaded with goods at less than half price. Ladies' vests, regular 10c. goods, for 5c. $1.50 dress goods for 19c. To-night they will sell gents' pearl fedora hats, worth $2, for 99c. Final Band Concert.

The best concert of the season in the Armory by the Thirteenth Band will be held next Wednesday. A choice programme will be given, selected from the many requests received, and should quality and variety count for anything, a large audience is expected. Miss Jeanette Lewis has been engaged, and will recite one of the famous Dooley letters as one of her numbers. Miss Alma Gayfer, a most promising young singer of this city, will also assist.

Mr. Stewart's Derrick.

To the Editor of the Times:

Sir,—From what I read in your paper last evening I infer that you have been misinformed as to Mr. Stewart being hampered in his business in case he is compelled to stay his derrick on his own property. I may say that when I was about to erect this same derrick on my lot at the corner of York and Bay streets, I applied to the Board of Works for permission to place a guy pole across the sidewalk, on the boulevard on both Bay and Merrick streets, eight feet from my line. The committee was then composed of Ald. McDonald, Dunlop, Farmer, Morden, Dunn, McAndrew and Morris. Among the seven there were four of the present members of the Council, and, to a man, they said they could not grant the request, as in case heavy weights were lifted the posts might give way and endanger the lives of pedestrians and the city would be liable for damages. I erected the derrick with seven guys, all stayed on my own property, with the exception of one that was attached to Mr. Copp's building. Notwithstanding my boom was 45 feet long, there was one guy on the Merrick street side that the boom would not pass, the post being but 42 feet from the mast. This derrick was used for eight years, the last three years by Mr. Stewart, and with no inconvenience on account of its not making the circle. As to what Mr. Stewart may say as to his not being able to work his derrick, if guyed on his own premises, I will state that this boom is only 47 feet long, and it is 55 feet from the mast to the corner of his lot where the guy pole should be placed. The mast and boom to this derrick if securely guyed is capable of lifting fifteen tons, but with the present stays I question that the Merrick street guy pole is strong enough to support a block of five tons if the weight is lifted in a way that the whole weight comes on this one guy. I have had great experience with the lifting of heavy blocks of marble, stone and granite, and know of the great danger of guys and guy posts breaking, derricks falling and men being killed. As evidence, ex-Ald. Hancock's brother was killed by the fall of a derrick. Mr. Thomas Barnes has had a derrick fall at his quarry over the mountain, and I believe one or more men were injured thereby. I would be very sorry to do anything to hamper the business of any manufacturer or employer of labor, but as I know full well that Mr. Stewart has plenty of room to stay his derrick on his own lot, and has ample room to swing his boom clear of the guy post. As a citizen I must object to the post remaining in front of my property, and as an alderman I shall, for the safety of the public, advocate its removal, as, in case of a break the derrick would fall, carrying the guy pole with lightning speed across the street and through a street car if it chanced to be in its way, and as it overhangs the trolley wires there would be two "live wires" on the street. As to any feud between Mr. Stewart and myself I will say that as far as I am concerned, the differences have been honorably fought out in the courts, resulting in my favor, and as a man he has paid the awards, and I have buried the hatchet. Very truly, H. H. Hurd.

Herman, formerly of this city, is general passenger agent, has issued a very fine summer tourist book, profusely and handsomely illustrated, and full of useful information.

Chicory is not coffee, nor does first class coffee need chicory; only poor, quakery coffee needs that article, and then to kill the bitter, foul flavor that the dead bean imparts. Dalley's perfect coffee is free from chicory or quakers. Give it a trial.
