O. J. C. OPENING.

Big Crowd Went Down to Toronto To-day For Opening.

The Ontario Jockey Club's Spring meeting, which begins this afternoon at the Woodbine, promes to be the best from every standpoint in the history of the club. Hamilton, as usual, will be well represented.

There are hundreds of horses ready to race. Many of them have won this spring at New York, Washington, Bal-timore, Los Angeles and San Francisco. In this respect these horses have an advantage over the Canadian horses, although it may be more fancied than real. The improvements made by the club will be appreciated. In no previous year has the track presented such an attractive appearance. The first race will be run at 2.30, The King's Plate is down to be run at 4.30.

His Excellency the Governor-General and Lady Grey will attend the races this

Bicycles In Darkest Africa.

"Pictures from Central Africa nowadays show the most unexpected things. A photograph just at hand seems merely to tell-the old story of grass huts and lightly attired natives, till you say a black man half way up the hill leaning on his hievele," comments the New York Sun. "The vision suggests something better than the torthous native path as a bicycle highway, and as the seene is in Uganda, this is doubtless true, for good roads are sprending there in all directions and gangs of men are constantly at work keeping them in repair. Missionary Lloyd wrote a while ago that he easily made a bicycle journey from Mendal the said of the prestrong received. easily made a bicycle journey from Men go to the capital of the western province

The whites simply decline to ge through the tall grass when they can hire thousands of men for a yard of calico a day to make good wide roads. There are 200,000,000 people in Africa, and they need bicycles."

A Tribute to the Dutch.

Bill Kirk's an Irish gentleman, and he's lauding Ireland's fame, By cracking up the Irishmen who play our national game, But I arise to hammer back, with a hard half-Nelson clutch, If the editor will give the space for telling of the Dutch.

Who is our greatest shortstop? Hans Wagner, that's the guy; And who's the finest catcher? A Redleg named Bill Schlei. And who holds down the second base for inning after inning? Dutch Schaefer and John Evers. But wait—I'm just beginning.

There's Lobert and John Ganzel, Unglaub and Eddie Ball; There's Thoney and Doc Gessler, Kleinow and Big Jake Stahl. Two Tannehills and two Stovalls Ludwig and Komatchy, Bill Dahlen and Bob Ewing, Cap Lumley and Pattee.

Cravatht and Charley Wagner, and Highlander Hemphill, Harry Arndt and Louie Ritter, Scheckard and Shortstop Nill, Altizer and Pastorius and good old Heinie Burch, But, hold-we've only started leaving Ireland in the lurch.

Fred Falkenberg's the tallest chap that ever pitched a game, And Slagle is the smallest—there's Dutch in every name. And Schmidt and Eddie Siever, and Cecil Ferguson, Steinfeldt and Otto Knabe, and Montreal Loudon.

There's Wiltse and Kling and Hallman, and a hundred others grand, Pop Schriver and Bill Hinchman can hit to beat the band. Perring, Berger, Thielman, Milan, Hoffman and Schreck—When Ireland stacks up against that bunch she gets it in the neck.

Rheulback, Shipke, Hartsell and Pit her Jakey Coombs, Red Hulswitt and John Anderson, and Western Billy Loams; So raus mit Ireland's prestige, it don't amount to much, I'll pick my greatest players from a nation called the Dutch.

GUARANTEED AGAINST LOSS.

Miss Bateman Risked Life to Save Further Details of Street Railway Agreement.

> Southam Home Trouble Not at an End Yet.

Citizens Notify Mayor They Will Hold Him Responsible.

The draft agreement submitted by Col. Gibson to the committee dealing with street railway matters, after rereciting concessions to be granted by the city, including the reduction of percent age to six per cent. on gross earnings over \$316,000, including the Deering division, and the guaranteeing of a bond issue of \$500,000, outlines what the com pany undertakes to do. The agreement

pany undertakes to do. The agreement provides for the Dominion Power & Transmission Company guaranteeing the city against any loss. The company undertakes to account for all fares on the Radial over the Deering division, so that they may be added to the street railway earnings with the traffic from the Harvester Works.

The city wants to guard against the company evading the percentage on the Deering division at any time by turning it over to the Radial or building new tracks in the city under the Radial charter and using them for street railway purposes. It will ask that Radial tracks in the city at the end of 1928 come under the street railway agreement.

The company stipulates that in the matter of further extensions than those

The company stipulates that in the matter of further extensions than those agreed upon in the present arrangement the company shall not be ordered by the Railway Board to make any, unless it is clearly shown that the net earnings and traffic justify it, this being in addition to the operating expenses, interest on capital invested and other fixed charges. The city will demand that the matter of extensions be left entirely to the Railway Board, without any restrictions. The company's proposition asks that it shall not be expected to spend money fitting up its system during the last five years of the franchise. The city will endeavor to have this made three years. The city will also demand that ten new cars be secured the first year, and not less than ten a year after that until fifty new cars are being operated. It stipulates that \$100,000 shall be spent in 1908; \$200,000 in 1909 and the same amount in 1910. amount in 1910.

in 1908; \$200,000 in 1909 and the same amount in 1910.

The agreement also provides for the establishment of a sinking fund in connection with the new issue of street railway bonds, amounting with interest to 40 per cent, of the investment, to begin in 1913.

The company wants the assessment to remain as at present on the Radial, Street Railway, Hamilton & Dundas, Hamilton Electric Light Company, the Cataract Company, Dominion Power & Transmission and the Terminal Station. It asks for an exemption on the new car and repair shops, but not on the lands. It is further stipulated that no mileage shall be collected on any new extensions.

Although the property owners on Wely lington street have evidently lost—in their fight to have the site of the Southam Home for advanced cases of consumption changed from Copeland avemue to the northeast corner of the hospital grounds, they intimate that they will seek redress through the courts. Mayor Stewart last night was served with a written notice, signed by twenty-three owners, warning him that he and the aldermen would be held responsible for any depreciation in the value of the property. There is also talk of applying for an injunction.

As was expected, the special session of the Council called for last night to deal with the matter did not take place.

of the Council called for last night to deal with the matter did not take place The donor, at the meeting of the Fin-ance Committee, intimated that if the site was changed he might be inclined to withdraw the offer, and that seems to have settled the matter, as far as a majority of the aldermen are concerned. Ald. Lewis and the members of the Sewers Committee, who were holding a meeting, were the only aldermen on hand, and the Mayor declared the Council meeting off for want of a quorum at 8.30. Ald. Lewis said he did not. know whether he would introduce the matter in the Council again. The Mayor had a lively argument with a deputation of property owners in the corridor. The argument he used was that there was not a house within a hundred feet of the home, where it is being built, while on Victoria avenue it would be within 70 to have settled the matter, as far as
