VARIETIES.

A Reminiscence of Old Times.—The first bell in Haverhill, Mass, was purchased in 1731; before that time there was a singular substitute, as appeared by a vote passed in 1630—"That Abraham Tyler blow his horn half an hour before meeting time on Lord's Day, and on lecture days, and received one pound of pork annually for his services from each family.

Irish Sugar.—The first annual meeting of the Irish Beet-root Sugar Company was held recently in London, when a very satisfactory report from the Directors was read and unanimously adopted. The works have all been erected, and operations have commenced. The sugar produced has been pronounced extremely good; and the prices obtained in London, Dublin, and Belfast, "have proved beyond question that the sugar obtained from beets can compete successfully with the colonial produce of the cane."

Misapplication of Words by Foreigners.—The misapplication of English words by foreigners is often very ludicrous. A German friend saluted us once with, 'Oh, good bye, good bye'—meaning, of course, 'How d'ye do?' It is said that Dr. Chalmers once entertained a distinguished guest from Switzerland, whom he asked if he would be helped to kippered salmon. The foreign divine asked the meaning of the uncouth word kippered, and was told that it meant preserved. The poor man, in a public prayer, soon after offered a petition that the distinguished divine might long be "Kippered to the Free Church of Scotland.

The advertising columns of the Australian newspapers contain several such notices as the following:—"Wanted, by three respectable, able-bodied men from Canada, employment at clearing, fencing, or splitting firewood, by contract or weekly wages; apply to Robert Clarke, next Black's Stables, Collingwood."

Bennet, Marshall, & Co., of Pittsburgh, have bought a quantity of large iron cannons in Canada, which they will convert into railroad iron. The cannon were used against the United States throughout the war of 1812, and, it is said, made sad havoc among our troops at Malden and Lundy,s Lane. Converting cannons into railroad iron is a near approach to beating swords into plough-shares.—*Alb. Knick.*

PUNCTUATION.

An ingenious expedient was once devised to save a prisoner charged with robbery, in the Criminal Court at Dublin. The principal thing that appeared in evidence against him, was a confession, alleged to have been made by him at the police office, and take down in writing by a police officer, and the following passage was read from it:

"Magnam said he never robbed but twice said it was Crawford."

This, it will be observed, has no mark of the writer's having any notion of punctuation, but the meaning he attached to it was this:—

"Magnam said he never robbed but twice:—*said it was Crawford.*"

Mr. O'Gorman, the council for the prisoner, begged to look at the paper. He perused it, and rather astonished the peace officer by asserting that, so far from proving the guilt of the prisoner, it clearly proved his innocence.

"This," said the learned gentleman, "is the fair and obvious reading of the sentence!"

"Magnam said he *never* robbed, but *twice said it was* Crawford."

This interpretation had its effect upon the jury, and the man was acquitted.

Curing Hams.—In the last Patent Office Report, James Campbell, of Weston, New Jersey, gives the following as a superior process for curing hams:—"The best method I have found for curing hams is, after the hams have been cut, let them lie out on a shelf, where they can have plenty of cool air, so that the animal heat is entirely out of them before you attempt to put them down in salt; then corn them down for two or three days; after which drain off any bloody water which may come out; and then make the following pickle, sufficient to cover them:—Take 9 pounds of salt, 3 ounces of saltpetre, 1 ounce of saleratus, 4 pounds of brown sugar or molasses, and six gallons of water, let them lie in the above pickle from three to six weeks, according to the size of the hams, when you may take them out and smoke them with good hickory or apple-wood until sufficient to suit your taste. They should then be taken down and hung up in a dry, cool place, in bags to protect them from the flies. I have hams cured after the above method, which were almost as fine when eighteen months old as when taken from the smoke-house. And while upon the subject of hams, they should be boiled until done, in good, soft water; and, when nearly done, throw in a handful of clean Timothy hay; it absorbs all impurities which may be around the outside of the ham. As soon as done take out the hay, but leave the ham in the water until nearly cold, when you may take it out.

GLEASON'S PICTORIAL.

ON the first of January next, *Gleason's Pictorial* will commence its *sixth volume*, and will appear vastly improved in all respects, with a superb new heading, new type and dress throughout, and will be printed upon the finest paper. As the proprietor of the *Pictorial* has purchased the entire good will of Barnum's New York *Illustrated News*, and has merged that journal in the *Pictorial*, the public will reap the advantage of this concentration of the strength of the two papers upon one, both in the artistic and the literary departments. The same brilliant host of contributors and artists will be engaged on *Gleason's Pictorial* as heretofore, and a large addition is also made to the corps, both in talent and number. The most liberal arrangements have been completed, and such as will enable the Proprietor to produce by far the finest illustrated journal yet published, and much superior to the present issue of the paper. The columns of the *Pictorial* will constantly be beautified by all that can please and instruct in art and nature, and its literary department will fully sustain the high reputation it has so long enjoyed.

The pages of *Gleason's Pictorial* will contain views of every populous city in the known world, of all buildings of note in the eastern or western hemisphere, of all the principal ships and steamers of the navy and merchant service; with fine and accurate portraits of every noted character in the world, both male and female. Sketches of beautiful scenery, taken from life, will also be given, with numerous specimens from the animal kingdom, the birds of the air, and the fish of the sea, and will present in its mechanical execution an elegant specimen of art. It will contain fifteen hundred and sixty-four square inches, giving a great amount of reading matter and illustrations—and forming a mammoth weekly paper of sixteen octavo pages.

Terms:—Three dollars per annum.

The Far-famed Medicine!

HOLLOWAY'S PILLS.

SURPRISING CURE OF A CONFIRMED ASTHMA, AFTER FIVE YEARS' SUFFERING.

The following testimonial has been sent to Professor Holloway, by a gentleman named Middleton, of Scotland Road, Liverpool.

Sir,—Your Pills have been the means, under Providence, of restoring me to sound health, after five years of severe affliction. During the whole of that period, I have suffered the most dreadful attacks of Asthma, frequently of several weeks' duration, attended with a violent cough, and continual spitting of phlegm intermixed with blood. This so shook my constitution that I was unfitted for any of the active duties of life. I was attended by some of the most eminent medical men of this town, but they failed to give me the slightest relief. As a last remedy, I tried your Pills, and in about three months they effected a perfect cure of the disease, totally eradicated the cough, and restored tone and vigor to the chest and digestive organs.

I am, Sir, your obedient Servant,
(Signed) H. MIDDLETON.

Dated Jan. 1st, 1853.

A PERMANENT CURE OF A DISEASED LIVER, OF MANY YEARS' DURATION.

Copy of a Letter from Mr. Gamis, Chemist, Yeovil, to Professor Holloway.

Dear Sir,—In this district your Pills command a more extensive sale than any other proprietary medicine before the public. As a proof of their efficacy in Liver and Bilious complaints, I may mention the following case: A lady of this town, with whom I am personally acquainted for years, was a severe sufferer from disease of the Liver and digestive organs; her medical attendant assured her that he could do nothing to relieve her sufferings, and it was not likely she could survive many months. This announcement naturally caused great alarm among her friends and relations, and they induced her to make a trial of your Pills, which so improved her general health that she was induced to continue them until she received a perfect cure. This is twelve months ago, and she has not experienced any symptoms of relapse, and often declares that your Pills have been the means of saving her life.

I remain, Dear Sir, yours truly,
(Signed) J. GAMIS.

Nov. 23, 1852.

AN ASTONISHING CURE OF CHRONIC RHEUMATISM, AFTER BEING DISCHARGED FROM THE HOSPITAL INCURABLE.

Copy of a Letter from Mr. W. Moon, of the Square, Winchester.

To Professor Holloway,

Sir,—I beg to inform you that for years I was a sufferer from Chronic Rheumatism, and was often laid up for weeks together by its severe and painful attacks. I tried everything that was recommended, and was attended by one of the most eminent surgeons in this town, but obtained no relief whatever; and fearing that my health would be entirely broken up, I was induced to go into our County Hospital, where I had the best medical treatment the Institution afforded, all of which proved of no avail, and I came out no better than I went in. I was then advised to try your Pills, and by persevering with them was perfectly cured, and enabled to resume my occupation, and although a considerable period has elapsed, I have felt no return whatever of the complaint.

I am, Sir, your obliged Servant,
(Signed) W. MOON.

Oct. 8th, 1852.

AN EXTRAORDINARY CURE OF DROPSY, AFTER SUFFERING FOR EIGHTEEN MONTHS.

Copy of a Letter from Mr. G. Briggs, Chemist, Goole, dated February 15th, 1853.

To Professor Holloway,

Sir,—I have much pleasure in informing you of a most surprising cure of Dropsy, recently effected by your valuable medicines. Captain Jackson, of this place, was afflicted with Dropsy for upwards of eighteen months, to such an extent that it caused his body and limbs to be much swollen, and water oozed as it were from his skin, so that a daily change of apparel became necessary; notwithstanding the various remedies tried, and the different medical men consulted, all was of no avail, until he commenced using your Pills, by which, and a strict attention to the printed directions, he was effectually cured, and his health perfectly re-established. If you deem this worthy of publicity, you are at liberty to use it.

These celebrated Pills are wonderfully efficacious in the following complaints.

Ague	Dropsy	Inflammation
Asthma	Dysentery	Jaundice
Bilious Complaints	Erysipelas	Liver Complaints
Blotches on the skin	Female Irregularities	Lumbago
Bowel Complaints	Fevers of all kinds	Piles
Cholics	Fits	Rheumatism
Constipation of the Bowels	Gout	Retention of Urine
Consumption	Head-ache	Scrofula, or King's Evil
Debility	Indigestion	Tumours
Sore Throats	Stone and Gravel	Worms of all kinds
Secondary Symptoms	Tic Douloureux	
Ulcers	Venereal Affections	
	Weakness, from whatever cause, &c.

CHERRY PECTORAL,

For the rapid Cure of

COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

Among the numerous discoveries Science has made in this generation to facilitate the business of life—increase its enjoyment, and even prolong the term of human existence, none can be named of more real value to mankind, than this contribution of Chemistry to the Healing Art. A vast trial of its virtues throughout this broad country, has proven beyond a doubt, that no medicine or combination of medicines yet known, can so surely control and cure the numerous varieties of pulmonary disease which have hitherto swept from our midst thousands and thousands every year. Indeed, there is now abundant reason to believe a Remedy has at length been found which can be relied on, to cure the most dangerous affections of the lungs. Our space here will not permit us to publish any proportion of the cures effected by its use, but we would present the following:—and refer further enquiry to my American Almanac, which the agent below named, will always be pleased to furnish free, wherein are full particulars, and indisputable proof of these statements.

Office of Transportation, Laurens R. R., S. C., Aug. 4, 1853.

J. C. Ayer. Dear Sir,—My little son four years old has just recovered from a severe attack of malignant Scarlet Fever, his throat was rotten, and every person that visited him, pronounced him a dead child. Having used your Cherry Pectoral in California, in the winter of 1850, for a severe attack of Bronchitis, with entire success, I was induced to try it on my little boy. I gave him a tea-spoon-ful every three hours, commencing in the morning, and by ten o'clock at night, I found a decided change for the better, and after three days use he was able to eat or drink without pain.

Its use in the above named disease will save many a child from a premature grave, and relieve the anxiety of many a fond parent.—For all affections of the Throat and Lungs, I believe it the best medicine extant. A feeling of the deepest gratitude, prompts me in addressing you these lines,—but for your important discovery, my little boy would now have been in another world.

I am yours, with great respect,
J. D. POWELL, Supt. Trans., L. R.R.

Rock Hill, (Somerset Co.,) N. J., July 21, 1852.

Dr. J. C. Ayer,—Since your medicine has become known here, it has a greater demand than any other cough remedy we have ever sold. It is spoken of in terms of unmeasured praise by those who have used it, and I know of some cases where the best they can say of it, is not too much for the good it has done. I take pleasure in selling it, because I know that I am giving my customers the worth of their money, and I feel gratified in seeing the benefit it confers.

Please send me a further supply, and believe

Yours, with respect,
JOHN C. WHITLOCK.

Almost any number of certificates can be sent you, if you wish it.

Windsor, C. W., June 26, 1852.

J. C. Ayer. Sir; This may certify that I have used your Cherry Pectoral for upwards of one year; and it is my sincere belief that I should have been in my grave ere this time if I had not. It has cured me of a dangerous affection of the lungs, and I do not overstate my convictions when I tell you it is a priceless remedy.

Yours very respectfully,
D. A. McCULLIAN, Attorney at Law.

Wilkesbarre, Pa., September 28, 1850.

Dr. J. C. Ayer, My dear Sir,—Your medicine is much approved of by those who have used it here, and its composition is such as to insure and maintain its reputation. Invariably recommend it for pulmonary affections, as do many of our principal physicians.

I am your friend,
CHAS. STREATER, M. D.
