**New Brunswick to Issue****4½ Per Cent. Bonds****Tenders to be Asked for \$2,275,000 Three Year Debentures—Money to Provide for Refunding Issue for Permanent Bridges and Saint John and Quebec Railway—Bonds to be Payable in Canada and New York.**

FREDERICTON, Nov. 13.—For the first time since the war, the Province of New Brunswick is placing a four and one-half per cent bond issue on the market.

A call has been issued by Hon. A. J. Leger, provincial secretary-treasurer, for tenders for an issue of \$2,275,000 three year debentures for the purpose of refunding bonds issued in 1915, provision for which was made at the last session of the provincial legislature. The total amount due and payable by the province on December 1st, for which the refunding issue is being floated, amounts to \$2,402,000, of which amount \$127,000 will be permanently retired by payments from sinking funds. Of the remainder \$575,000

of the new issue will provide for refunding an issue for permanent bridges, and \$1,700,000 for the Saint John and Quebec Railway.

Placing of the new issue upon the market was formally approved by the government at its meeting here this week, and the call for tenders has already been sent out. The last issue sold by the province comprised four and three-quarters per cents, and this is the first time since the war that an issue of four and one-half per cents has been offered. Of the amount to be refunded \$575,000 is in five per cent. bonds, and the remainder four and one-half per cents. The issue will be payable in both Canada and New York.

**The Board of Censors Removed****New Appointments Made Board Reduced to Four.**

The provincial government has appointed a new board of motion picture censors. Originally the board consisted of four members. Then following agitation for the representation of ladies on the board, two were appointed with the provision that when two men members were retired through death or resignation, their places would not be filled, and the board would be composed of two women and two men. Mrs. A. W. Adams and Mrs. A. C. D. Wilson were appointed as the women representatives. After some time, Mrs. Adams resigned and her place was not filled by the Venetian government. Then Dr. H. S. B. Adams, chairman, resigned because of ill health, leaving the board to consist of Edmund G. Owens, George C. Amund, Michael Coll, and Mrs. Wilson. On Thursday at a meeting of the government at Fredericton all the members of the board were dismissed and a new board appointed. The new board consists of Mrs. B. B. Adams, Mrs. G. B. Adams, Mrs. G. B. Adams, and Mrs. G. B. Adams.

**PUBLISHERS OF POPULAR FICTION**

NEW YORK, Nov. 10.—To protect the name and reputation of the Hudson's Bay Company, fur traders, and one of the oldest English corporations in the world, publishers of popular fiction in the United States have been advised that legal action will be taken against them, and the authors for any statements in fiction stories that misrepresent and are distinctly derogatory of the company.

It was said at the New York office of the company, that a letter to the above effect had been sent to the publishers on instructions from the Winnipeg office, after the attention of the governor and committee of the company had been drawn to the many instances in fiction in which it was implied that reprehensible actions on the part of the company

"Stories of the North, make good reading for the public," said Bruno Weyers, foreign correspondent of the company, but it is hard on a company to be pulled in and pictured as a gang of plunderers and cut throats. "In several instances, action has been taken against publishers, as a result of which apologies have been tendered and the books withdrawn from further sale. The company expects the publishers to respond just as the motion picture did in cutting out the objectionable matter and references, especially in the titles of alleged methods employed by the company in its fur trade business."

**A BEECHER ANECDOTE**

Henry Ward Beecher was amused when he went into a Bowery restaurant on one occasion and heard the waiter giving such orders to the cook as "bunkers and cow," etc. "Watch" me give that waiter an order which I believe he won't abbreviate," remarked Beecher at length, as the waiter approached. "Then he said: 'Give me poached eggs on toast, with the yolks broken.' But the waiter, equal to the emergency, walked to the end of the room and yelled: 'Adam and Eve on a raft. Wreck 'em.'"

It is said that Dr. Beecher nearly fainted.

**PARTRIDGE SEASON CLOSED.**

The open season for partridge in New Brunswick closed Tuesday after having been in effect for three weeks from October 20th. The season generally has been poor owing to the dearth of partridge in the province, as also exists in the New England States, and only a comparatively few birds have been taken. The season was curtailed by one week in comparison with the open season last year. Samples of partridge taken this year have been forwarded to the United States Game Protective Association for examination in connection with the investigations which are now being made by a special commission appointed for this purpose at the annual meeting last year.

**Absolute Embargo On All Grain to Pacific Coast**

Montreal, Nov. 13.—Effective midnight Saturday November 14, an absolute embargo on all grain to the Pacific Coast will be imposed and will remain in effect until such time as conditions now prevail are relieved. E. D. Cotterell, Supt. of Transportation Western Lines, C. P. R. stationed at Winnipeg, is authority for the above statement. Mr. Cotterell, who is reported to head-quarters of the system here today gave reasons as follows for the embargo: "During practically the whole of October weather has been the worst for some years in the west. It has been cold and wet and even snow in some sections with considerable severity of frost at times. On account of this, much of the western wheat crop has turned out tough and damp and the necessity for treatment of this wheat has led to great congestion at Calgary and Vancouver, due to the limited facilities available for such treatment at those points. Until this congestion can be relieved it is obvious that the only and the best course to pursue is to impose an embargo on the carriage of wheat to Calgary and Vancouver and this will be done."
