The Synod and Conference.

This week things are given over largely to matters ecclesiastical. Today the Diocesan Synod opens its biennial session and the Methodist Conference begins its annual session. There are, therefore, in the city an exceptionally large number of Church of England clergymen and Methodist ministers, and laymen accredited either to the Synod or to the Conference, and to all of them we extend a hearty welcome. We shall no doubt be furnished with official reports of their proceedings to which we shall give the publicity which such high matters warrant and which is within our power. Both bodies have brought distinguished visitors in our midst. The special preacher to-night at the Cathedral of St. John the Baptist is the Rev. Dr. Smith, of Washington, and the Conference has as its visitors Rev. Dr. Chown, General Superintendent of Methodist Church, Canada, Rev. Dr. Sprague, Dean of the Theological Faculty of Mt. Allison University, Rev. Dr. Sparling, and Rev. James Allan, M. A., Missionary Secretary.

What About the Dredge?

A few days ago we asked for the cause of the delay in the sailing of the dredge which Mr. Piccott, Minister of Marine and Fisheries, purchased on a special visit to the Old Country, when it was understood his mission was to make arrangements for the building of a new dredge. Mr. Piccott, however, did not order the building of a new dredge, but with the assent of the Government he purchased a second-hand one. Last week we asked why the dredge had not left. We now know why she is not here as it was understood that she was to be here and at work in June and why no reply has been given our query.

Last Friday a letter was received in town stating that the dredge had been on dock three times and had to go on dock fourth time before she was considered fit to face the Atlantic.

The fishery to date has been very poor along the Southern Shore. Nothing comparatively has been taken in traps but at Toads Cove and vicinity hook and liners are doing fairly well. Some caplin have struck in but in no great quantity. The same applies to the S. W. Coast, but strange to say at St. Pierre and Miquelon caplin are to be had in myriads, the very thing the Frenchmen want for their bankers as it pretty well ensures them a good voyage.

DOCTOR'S HIPT

Now Gets Along Without It.

A physician says: "Until last fall I used to eat meat for my breakfast and suffered with indigestion until the meat had passed through the stomach. Last fall I began the use of Grape-Nuts for breakfast and very soon found I could do without meat, for my body got all the nourishment necessary from the Grape-Nuts and since then I have not had any indigestion and am feeling better and have increased in weight."

"Since finding the benefit I derived from Grape-Nuts I have prescribed the food for all my patients suffering from indigestion or over-feeding and also for those recovering from disease where I want a food easy to take and certain to digest and which will not overtax the stomach."

"I always find the results I look for when I prescribe Grape-Nuts. For ethical reasons please omit my name." Name given by Canadian Postum Co., Windsor, Ont.

The reason for the wonderful amount of nutriment, and the easy digestion of Grape-Nuts is not hard to find.

In the first place, the starchy part of the wheat and barley goes through various processes of cooking, to perfectly change the starch into dextrose or grape-sugar, in which state it is ready to be easily absorbed by the blood.

The parts in the wheat and barley which Nature can make use of for rebuilding brain and nerve centres are retained in this remarkable food, and thus the human body is supplied with the powerful strength producers, so easily noticed after one has eaten Grape-Nuts each day for a week or 10 days.

"There's a reason," and it is explained in the little book, "The Road to Wellville," in paper.

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

Work of Art.

To-day there is displayed in the window of Mr. Garret Byrne's bookstore, an address from the students of St. Bonaventure's College to Bishop Power, congratulating him on his consecration. It is one of the most artistic works of its kind ever executed by a resident of the city, and was done by Master Frank Keating, a pupil of St. Bonaventure's, and a son of Mr. John S. Keating, of the Treasury Department. Frank has the artistic temperament well developed and this must certainly be considered his masterpiece. The address which is handsomely framed possesses a beautiful bordering and the design though complex is splendidly wrought. The script in which the address is written is perfectly done, and is capped in the centre with a beautiful miniature in oils of His Lordship and flanked on either side by pictures of St. Bon's and the Cathedral of St. George's in water colours, both being very realistically done. We congratulate Frank on the general excellence of his handiwork.

An Auto Accident

At 1:30 to-day as Chaffeur Keslake with Knowling's auto was coming down Barnes' Road a little boy named Laurie, son of Wm. Laurie, crossed the road at close range and before the man could stop the vehicle or put down his brakes the motor hit the lad, knocking him down, and one of the wheels went over his body. With the man on board, plus the weight of the machine, about 800 lbs. must have gone over the boy's prostrate form and he is so seriously hurt internally that fears for his recovery are entertained. The boy was badly cut about the face and also crushed about the body. Dr. Tait was called and did the best possible for him. The boy is only about 5 years old. When the accident occurred Mr. James Kelly ran out and carried the little chap home.

Stricken With Paralysis

Yesterday morning Mr. Aubrey Hicks aged 69 of Prince's Street, who has been night watchman on the S. S. Neptune for some time past, was stricken with paralysis and when discovered was in a bad state. He was driven home, attended by Dr. Campbell and was brought to hospital yesterday for treatment.

13 Miners are Entombed.

Trinidad, June 18.—Thirteen miners are entombed and are believed to be dead as a result of an explosion in the new slope of the Victor American Fuel Company shortly after midnight. Another miner badly injured has been rescued. The mine is 15 miles north of Trinidad. The main slope is badly caved and rescuers have been able to make but little progress. Rescue equipment is being rushed to the scene. Rescuers who entered the mine early to-day returned soon afterward with a Greek who was badly burned. A number of bodies have been located. Air is being forced into the wrecked entry.

The Lion That Escaped.

Barrie, Ont., June 19.—At Allendale yesterday a jungle lion, shipped from Renfrew to Saenger's circus, broke from its wooden cage in the express. The two messengers beat a hasty retreat and locked their car door behind them. The car was uncoupled to await the arrival of the train of the circus. When he arrived he entered the car. He had never seen the animal before, but in a few minutes he had it completely subdued and back in the cage again.

Roosevelt Cuts Adrift.

Special to Evening Telegram.
CLEVELAND, Ohio, To-day. A new party from the ground up is Roosevelt's programme. After a series of discussions with his Lieutenant, before leaving Chicago, in which there were several sharp clashes, Roosevelt decided to cut entirely away from the party with which his whole public career has been identified. There must be no compromise—no straddle said Col. Roosevelt. An indication of his determination, he said, that when he returned to Oyster Bay he would communicate with a number of Democrats who, he thought, might wish to join the new party.

Trial Sprint.

While in Montreal recently Mr. Geo. Knight, our local 100 yards runner, made an excellent impression on some of the Canadian sprinters. Although not in trim he had a spin on the cinder track there and covered the hundred yards course in ten seconds, which was quite a feat. Many of the Canadian sprinters who witnessed the event were amazed. Montreal enthusiasts expressed themselves as confident that with practice on the cinder track Mr. Knight could even reduce his time.

I.O.O.F. Election.

Atlantic Lodge, I. O. O. F. No. 1, held a meeting last night at which the following officers were elected for the coming term:—W. J. Butler, N. G.; A. F. Long, V. G.; W. T. Young, Rec. Sec.; W. T. Quick, Fin. Sec.; W. J. Long, Treasurer. Installation will be on Monday night next. Mr. J. C. Phillips, D. D. G. M., being the installing officer. The outgoing presiding officer, Mr. S. Spurrell, had a very successful term both in point of membership and finances and was congratulated on his excellent work.

Seriously Injured

As Mr. Fred Maunder of Ayre & Sons was cycling down the King's Bridge Road last night at a swift pace the lamp on his bicycle became dislodged and falling into became caught in the front wheel. Mr. Maunder was thrown to the ground, was rendered unconscious and received very serious injury. He was conveyed home to Virginia Waters by people passing after he recovered and Dr. Mitchell who was summoned quickly responded. It was found that his jaw bone had broken, his shoulder dislocated, his arms severely cut and his face was a mass of wounds, some of them very deep. The doctor gave him the best possible attention and it is believed he will be confined to his room for a month at least.

Exceeding the Limit.

It has been noticed of late that some of those who drive autos across Le-Merchant Road at night go at a fast pace and exceed the speed limit. If some of these people do not take the hint the police will be after them. This is a popular resort for pedestrians nightly and their lives should not be menaced by reckless drivers.
