

Gower St. Church Silver Jubilee.

HARVEST HOME SERVICE.

The annual Harvest Home Service of Gower St. Church will be held next Sunday. Contributions of fruit and vegetables may be left at the church on Saturday. All such contributions will go to the Methodist Orphanage. Rev. Carl N. Garland will preach in the morning.

YOUNG PEOPLE'S NIGHT.

Thursday was Young People's Night in connection with the Gower Street Silver Jubilee Celebration, and it was a great success. The Lecture Room of the church was filled to overflowing with the young people of the church from fourteen years old and upwards. The officers of the young people's organization of the other Methodist churches of the city were also present. The programme was full and interesting and illustrated all the kinds of work for young people now being carried on. Following were the numbers:— Selection, Orchestra;

Chairman's Remarks; Tableau—Epworth League; Solo, Miss Woods; Dialogue, Mission Circle; Selection, Orchestra; Club Singing, Mr. H. Wilson; Piano Solo, Mr. C. Moore; Drill, Girls' Club; Solo, Miss Sylvia Moore; Recitation, Mrs. Baird; Piano Duet, Misses Taylor and Lawrence; Address, Rev. Carl N. Garland; Solo, Miss Sadie Soper; Tableau, Choir; Selection, Orchestra; Refreshments.

Among the items on the programme the Physical Drill by the members of the Girls' Club, the tableau by the Choir and former Epworth League members, and the Dialogue in costume by the Mission Circle were exceedingly good. The latter was particularly worthy of mention. It was entitled "Tired of Missions." The first scene represented a sparsely attended meeting of the Mission Circle, where the members pleaded for a change of programme in their work because they were "tired of missions," and thought that China and Japan and the rest of the heathen lands should look after themselves. Then followed a series of scenes in which the great and increasing need of mission fields were

graphically illustrated. The need of teachers in the schools, the need of hospitals and nurseries, the need of preachers and evangelists, the need of neglected children in the great teeming mission fields of the church—all were most vividly and impressively portrayed. As a result, the Mission Circle whose members are "tired of missions" put aside all thoughts of giving up their work, and set themselves to do it with redoubled enthusiasm. The dialogue was well rendered, and reflected much credit on the twenty-five or more young ladies who enacted it. The address of Rev. Carl N. Garland was a strong appeal to the young people of the church today to resist any temptation to lower the standard of the Christian life in any way, and to give themselves wholeheartedly and unreservedly, as did the men in the days of 1914 to the service of God in the service of the world. As a result of his appeal three of the young people signified their willingness to enter missionary work if the call should come and the way be open. The arrangements for this Harvest gathering were admirably made and carried out, and much credit is due the chairman of the committee, Mr. Chesley Bowden, and his fine and capable band of workers. The newly organized Orchestra of the Young Men's Bible Class made its first public appearance last evening, and their selections were a great addition to the pleasure of the evening.

THIS EVENING'S MEETING.

The closing meeting of the week's celebration will be held this evening at 8 o'clock in the church auditorium. It will be a meeting for Prayer and Praise, Praise in the backward look and Prayer in the forward look. Short addresses will be given by the pastors of the other Methodist Churches of the city. All former members of the choir will occupy seats in the choir-loft and a feature of the evening will be the singing of old-fashioned hymns to old-fashioned tunes. Rev. Carl N. Garland will speak on "A Look Backward and a Look Forward." The meeting is a gathering of all the Methodist congregations of the city, who unite in a home-coming to old Gower St., the mother-church of Methodism in St. John's.

Civic Commission Weekly Meeting.

The weekly meeting of the Municipal Commission was held last evening. Mayor Morris presided, and Councillors Vincombe, Peet, Jackman, Collier and Hallett were present. After confirmation of minutes of previous meetings, the following matters received the attention of the Board:

The Newfoundland Motor Association called attention to the number of unregistered out-of-town cars which are continually driving within the city limits, the drivers of which do not hold a license. A copy of the communication was ordered to be forwarded the Inspector General of Constabulary.

Communications were received from the Superintendent of the Electrical Department, Reid-Nid. Co. Ltd., stating that the lights ordered will be installed as soon as possible; that the pole at junction of Mundy Pond and LeMarchant Roads, would be moved to a more suitable location.

A letter was read from Mr. William White, LeMarchant Road, calling attention to the condition of this thoroughfare during winter time, and the necessity of devising some means whereby the road can be kept open. He suggested the erection of temporary snow fences such as are placed along the railway line. This, he thought would be the means of keeping the road clear. The matter will be more fully gone into at a special meeting.

Mr. J. Lawrence wrote with reference to the present condition of Pleasant St., and asked that same, particularly the sidewalks, be given attention.

The application of W. F. Martin for water and sewerage connections was granted.

F. G. House asked compensation for glass broken by Council employees on his premises, Duckworth St.; Council will replace same.

Commissioner Jackman, in introducing the Resolution of which he gave notice at last meeting, advocating the raising of a loan by bond issue for Municipal improvements, stated that, owing to the many buildings being erected in the suburbs which are now within the city limits—as defined by the St. John's Municipal Act, 1921, the Council would be faced with a very serious problem in devising ways and means to have the water and sewer mains extended to these buildings, and, with that end in view, he thought it advisable to have the present Act amended; also that, if the city was to keep pace with the times, an effort should be made to provide the funds whereby these necessary improvements could be undertaken. The matter was carefully considered, and the Council were of opinion that, as the term of office of the present Board would shortly expire, it would not be practicable at this stage to advocate such legislation, and they recommended that the matter be left with the incoming Council to be dealt with—Commissioner Jackman falling in line with

the other members of the Board in this suggestion.

Mr. C. J. Fox, Solicitor, on behalf of Mr. George Summers, asked that the arbitration of land Round Pond, near Windward Lake, be proceeded with. This matter will be attended to as soon as possible.

Petitions were received from the residents of Pennywell Road and Convent Square, asking improvement in lighting conditions in these localities. Their requests were acceded to.

Application of H. Martin for permission to repair dwelling, William Street, was referred to the City Engineer, while that of A. Vaughan to build extension, Water Street, was deferred until plans of building are submitted.

The reports of the Health Officer, Plumbing Inspector, etc., were read. The City Engineer reported on the work done in connection with the various departments during the past week. He particularly referred to the increased water pressure on high level surface, and was confident that, during the winter the work in this section would range between 70 and 80 lbs. He also reported the work in connection with the extension of water and sewer mains was progressing. A list of owners of unfenced vacant lands on Duckworth, Water and other streets, was submitted and it was decided that these people be notified to have suitable fences immediately erected.

The accounts presented were ordered paid, and after disposing of several routine matters, the meeting adjourned.

Premier's Reply to Postal Deputation.

A deputation from the Newfoundland Postal Association waited on the Prime Minister at his office yesterday afternoon and discussed with him the matter of wages and the existing discrimination between them and the Postal Telegraphs and other employees of the Department. Mr. G. B. Lloyd explained the grievance of the Association, and asked if anything could be done to place the salaries of all on a like basis. Sir Richard in reply, stated that it did not come within the powers of the Executive Council to make any alterations in the present salaries paid. It was possible that the whole Act which controls the present salaries will be reconsidered. A special meeting of the Postal Association will be held tonight, when the Prime Minister's reply will be laid before the body.

S. U. F. Dance.

Under the auspices of the Ladies' Auxiliary of the S.U.F. a dance was held last night in the Club Rooms, Water Street. About 50 couples attended, and a thoroughly good time was spent in dancing to music furnished by the C.L.B.C. Band. Miss Gertrude McGilvary as chaperone fulfilled her duties to the entire satisfaction of all present. Supper was served by the Ladies' Association in their well known style, after which dancing was resumed until 2:30 this morning.

Potato Harvest.

The past week has been exceptionally fine for the farmers, and as a consequence practically all the potato crop has been lifted. In some sections, particularly west, the yield has been good, and 15 barrels to 1 barrel of seed have been reported. Probably ten barrels would, however, be a fair average. Irish Cobbler and Great Scots seem to be the favorites. Both these varieties yield well, with very little culls.

BOWRING BROS. are showing the newest and latest styles in Gent's Dressed and Soft Collars. Also a good range of Fancy Ties, all English manufacture. Such a variety of shades and patterns cannot fail to meet the most fastidious for selection.—Oct 21, 1921.

Have Your Enlargements MADE NOW.

Our method of Enlarging is guaranteed to bring out all the fine detail, the soft cloud effects, the high lights and shadows of landscape prints, however small.

Oil Traders Entertain Sir R. A. Squires.

NEWFOUNDLAND PREMIER TAKES TAMPA WITH NEW YORKERS.

Sir Richard Anderson Squires, Premier of Newfoundland, was the guest of a score of oil traders of New York at a luncheon at the Drug and Chemical Club recently. Sir Richard is on an unofficial visit to the United States, and as he had taken occasion to appear before the Senate Finance Committee at Washington for an informal presentation of Newfoundland's reaction to the proposed tariff on fish and fish oils, the local oil men grasped the opportunity presented by his presence in this city to invite him to meet with them.

The Newfoundland premier spoke briefly following the luncheon, the burden of his address being that his country is desirous of building up cordial and extensive trade relations with the United States, and that his people consider it unwise for this government to erect a tariff barrier against Newfoundland. In the light of the fact that the trade between the two countries is in favor of the United States in the proportion of four or five to one, and because international trade depends upon the facility for an interchange of commodities rather than upon the purchase of goods with money, it is believed in Newfoundland that trade circles that American export trade with that country will fall off if Newfoundland must seek other markets for its fish and oils.

Sir Richard was most gracious in his appreciation of the trade relations between producers in this country and distributors of their products here. G. Armstrong, local British consul-general, spoke with reference to the desirability of the broadest possible trade relations between the United States and the British Empire. He was proud to mention that in addition to Australia and Newfoundland, Canada now had a trade commissioner here, and he believed that other British colonies would soon be similarly represented. J. M. Devine, who has been the Newfoundland trade commissioner in this city, told of the gratifying results which had followed his efforts to build up trade between the two countries. He offered his assistance in that direction in whatever manner it might be desired.

A condemnation of an isolating high tariff which would result in the loss of export markets was made by H. E. Miles, of the Fair Tariff League. He opined that the day of strong protection had passed and that full consideration of the new sellers' position of America should be had in all tariff construction. A welcome to the visiting premier was spoken by A. L. Squier, of the Oil Traders Association of New York. Edward Born, president of the Seaboard Trading Co., expressed the belief that the outcome of the tariff deliberations would be satisfactory to fish and oil importers.

Arrangements for the luncheon were made by Robert Badcock, of W. & S. Job & Co., Inc. Williams Haynes was toastmaster.—EX.

McMurdo's Store News.

FRIDAY, OCT. 21.

Mothersells Seaside Remedy is too well known to need any commendation of it, being universally recognized, so far at least, as Newfoundland is concerned as the most effective of all remedies for this purpose; but it has been a little difficult to obtain in St. John's for some time past. However we are to-day able to announce that we have both sizes in stock and are ready to sell it, wholesale or retail. Price 80c. and \$1.00. Wholesale prices on application.

If you want to get a special Stimm's Set in Rubber Brush of good quality see us. We have some nice ones.

LABRADOR REPORT.—The Marine and Fisheries Department has received a report from Labrador, saying that dense fog prevails at Grady, Flat Island, Domino, Venison Island and Battle Harbor.

Everybody Buy a SHIRT.

316 Shirts at \$2.

Fresh from an optimistic manufacturer, who believes good times are here. Kearney nosed him out. Said to him: "Old boy, I want 30 dozen good Shirts; I want them to be so good that they'll be worth \$3.50—and I want to sell them for \$2." And with the flash of the long green "kale" the deal was closed.

So, they are here. When you see them you'll admit that George just hits things right at the right time.

All the Shirts in the window—yes, sir, \$2 for any one. The colors won't wash out; new stock, no odd sizes; no "bargain" dope, just peerless quality bought right by a man who knows how.

Now everybody buy a Shirt.
