#### NEWFOUNDLAND BRANCH.

The seventh annual meeting of the Women's Missionary Society of the Methodist Church opened yesterday in Govar St. Church. At the morning session officers for the coming year were elected and other business transacted. The afternoon session was held at 2 o'clock. The chair was taken by Mrs. Eugene Lindsay. After opening devotional exercises Mrs. Lindsay introduced to the large gathering of ladies the guest of honor, Mrs. H. A. Lavell, B.A., of Kingston, Ont., President of the Board of Managers for Canada, Bermuda and Newfoundland. Mrs. Lindsay mentioned that this was the seventh year that the Newfoundland Branch had been in existence, and that seven was a lucky number, so that it was a propitious time for Mrs. Lavell's visit. Mrs. Lavell had just come from a sojourn in the beautiful land of Acadia, and although we might not have all the beauties of that land to show her, we nevertheless had loving hearts in Newfoundland, and accorded her a most hearty welcome. Mrs. Lavell in reply said that she did not need to come to Newfoundland to learn about the loving hearts there, but that she had already heard before the session of the kindness of the people. Mrs. (Rev. J. A.) Rogers had told her about them, and had sent her love to all her friends in Newfoundland. Mrs. Lavell brought cordial greetings from the Women's Board, and said that Mrs. Ross, ex-President, would have been delighted, had it been possible, to be with them. She also spoke of the difficult position she had to fill in following Mrs. Ross, who had been President of the Board so long, and had filled the position so acceptably. The delegates should not be discouraged because the financial returns for the year had not been as good as they had hoped. Such difficulties might only turn their thoughts to God. Let the results be accepted in faith and love, and all the workers go forward steadily and cheerfully, remembering that, after all, money was not everything. After Mrs. Lavell's address Miss Marquette Mitchell sang a solo, "My Task," which was very beautifully rendered. Mrs. (Rev. T. B.) Darby then welcomed the delegates. She said, in part, I welcome you all most heartily to the city of St. John's and to our church. We have welcomed many similar gatherings in the past, but I am sure we have never extended a welcome to a more influential, earnest band of workers engaged in the very highest form of service. In replying for the delegates, Mrs. Howse, of Grand Bank, thanked the St. John's W.M.S. for their cordial welcome to their homes, city and church. She said that they deemed it a great privilege as well as a great pleasure to be fellow-workers in the cause of their Master and Lord. She hoped that all the delegates would go back to their homes with firmer faith in God to face the difficulties that might lie before them. Miss G. Parsons, ex-Secretary of the Branch, was then asked to come forward with the delegates, also Mrs. W. G. Currie, Grand Falls, both active members of the W.M.S. Mrs. J. Peters then read greetings from the Nova Scotia, New Brunswick and Prince Edward Island Branches, and several local Auxiliaries. Dr. Fenwick, President of Conference, extended greetings. Mrs. David Johnson, of St. Andrew's W.M.S., and Mrs. Lewis, of St. Thomas's Home Missionary Society, also spoke. The minutes of the morning session were read by Mrs. R. Duff, Recording Secretary. Miss M. Howse was accepted as a candidate for the field. Mrs. Whigge, who had returned, has again applied and been accepted. A paper was read by Mrs. R. Duff, "The Message of the

W.M.S. Watchword." A duet was sung by Misses Curtis and Lodge. The meeting was followed by a social hour with tea served in the Lecture Room of the Church.

At the evening session the chair was taken by Rev. E. W. Forbes. The Treasurer, Mrs. A. E. Parkins gave a full report of how the money was raised. Auxiliaries, \$4921.64 from 1422 members; Circles, \$1558.08 from 481 members; Bands, \$1817.10 from 2728 members, a total of \$3296.82 from 4652 members. A solo: "Angels ever bright and fair" was beautifully rendered by Miss Marjorie Hutchings. A very able paper was read by Mrs. J. E. Peters on "Expansion." The address of the evening was by Mrs. H. A. Lavell on "The Importance of the Home Base." We sometimes forget the importance of the home base, but it is at the root of all successful missionary work. It is just as it was in the days of the war when the armies in the field depended on those at home. While the folks at home did not say much, their hands were ever busy, for they knew that, if they ceased working, someone would suffer. So in this great missionary work it is necessary for us to do the same. Mrs. Lavell on to speak on the importance of a knowledge of our work, and recommended the study of the blue book, "The Missionary Outlook" and the "Palm-branch," the latter being the only juvenile missionary paper on the North American continent. Special mention was made of the new department, that of the strangers, to which the speaker attached much importance. In closing she exhorted the members of the society to do all in their power to further the work by accepting office and taking part in the meetings. A duet "Art Thou Weary?" was sung by Messrs. Courtney and Mews. Following is the programme for this afternoon and evening:

**AFTERNOON.**  
3.00—Memorial Service—Branch President presiding.  
Duet—Misses Moore and Bishop.  
3.30—Consecration Service led by Mrs. Lavell.

4.00—Sacramental Service.  
4.30—Unfinished Business.  
Confirmation of Minutes.  
Closing.

**EVENING SESSION.**  
7.45—Mrs. C. H. Johnson, presiding.  
Hymn 8 (Tune Old Hundred).  
Scripture.  
Prayer.

Hymn 51 (Tune St. Finbar).  
"Days of the Year."  
In the Circles—Miss E. Wilson.  
Branch Hymn.  
Year's Statement of Circles and Bands—Miss Burt.  
Duet—Mrs. Garland and Miss Maund.  
Address—Mrs. Lavell.  
Solo—Mrs. Gordon Christian.  
Presentation of Banners and Awards.  
Offering.  
Hymn 284 (Tune Aurelia).  
Closing.

### For Swimmers to Remember.

(From the New York Herald.)  
With the coming of the swimming season once more swimmers should fix firmly in their minds the fact that certain precautions must be observed to avoid accidents.

Those who go into the water soon after a heavy meal court danger. Those returning too far from shore in rough weather or before they have had sufficient practice risk their lives. Those who get themselves into difficulties in the water through impudence endanger not only their own lives but the lives of those who go to their rescue. Deep water is not necessary to the enjoyment of swimming. A veteran fisherman of Coney Island

## Notice!

### Nfld. Government Coastal Mail Service.

#### FREIGHT FOR NORTH EAST COAST.

Freight for S. S. PROSPERO for usual ports of call will be received at the wharf of Messrs. Bowring Brothers, Limited, from 9 a.m. to-day, Thursday.

#### SAILINGS FOR LABRADOR.

S. S. PORTIA will leave the wharf of Messrs. Bowring Brothers, Limited, on Tuesday, 13th inst., for the following ports of call:

Western Bay, Carbonear, Hr. Grace, Spaniard's Bay, Bay Roberts, Brigus, Hr. Main, Trinity, Catalina, Wesleyville, Twillingate, Quirpon, and the usual ports as far north as Domino (weather and ice conditions permitting).

S. S. RANGER will leave the wharf of Messrs. Bowring Brothers, Limited, on Wednesday, 14th inst., for the following ports of call:

Hr. Main, Brigus, Bay Roberts, Spaniard's Bay, Hr. Grace, Carbonear, Western Bay, Trinity, Catalina, Wesleyville, Twillingate, and the usual Labrador ports of call going as far north as Holton (weather and ice conditions permitting).

W. H. CAVE,  
Minister of Shipping.

## SCHOONER FOR SALE!

Built the past winter at Glovertown, B.B.; passed Government Survey for County.

### 59 TONS REGISTER.

Vessel now at Glovertown, complete and ready for delivery there or at St. John's.

For further particulars apply to **BAXTER BERRY, Glovertown, or JOB BROS. & CO., LTD.**

greeted a swimmer who had braved a head wind in order to reach the dory anchored on the banks half a mile from shore with the remark that the water close in shore was just as salty as the middle of the ocean.

The muscular effort used in swimming is entirely different from the muscular effort required in other sports. Every part of the muscular system is brought into play in this health-promoting pastime, which confers such far-reaching benefits that everybody who can engage in it should do so.

Those having access to salt water enjoy a boon which is denied to residents of the fresh water States. The latter must be content with ponds and lakes and rivers; but health and enjoyment can be had in any of these down to the smallest of the old swimming holes in which the neighborhood boys laugh away the happiest hours of their lives.

McGuire's Ice Cream now ready for delivery. Wholesale only. Phone 794.—Just!

### Mountains Float on Earth's Interior

#### INTERESTING THEORY ADVANCED BY SCIENTISTS.

Mountains float. Cubic feet of rock weigh less, on an average, than the valley. The mountains held up by the lighter material of the earth's crust floating under the heavier material of the mantle.

It has been found that the crust is about 60 miles in thickness and near that depth, probably the material of the earth is so dense that it acts for long time as a solid. The earth's crust floats on the mantle. If the earth's crust were cut by vertical planes with the base of each block at a depth of 60 miles below sea level, the area of the base of the blocks would be the same as the area of the top surface. These blocks would have the same mass; that is, they would be the same.

By means of the geodetic observations by the United States coast and geodetic survey, the weight of the blocks have been found to be approximately equal. This result has been suspected for decades but Dr. H. H. Woodworth and Dr. H. H. Woodworth have proved it by this discovery.

Geological science will be profoundly changed by this discovery. It is known the mountain masses are due to the presence of lighter material in the earth's crust under the heavier material of the mantle. The ocean bottoms are also caused by the presence of lighter material under the heavier material of the mantle.

Dr. Bowie concludes that there is no tendency for the mountain masses to break down through the action of erosion as they are not extra heavy. They are like the portions of the crust projecting out of the water, which are held up by the ice which is below in the water. The icebergs float so does the mountain.

Dr. Bowie holds that, as mountain systems are in areas, which were very low in elevation, mountains were caused by a swelling of the crust in the earth's crust under the heavier material of the mantle. The lessening of the density of the crust in a column of sixty miles long elevate the area about 2000 feet. A change in density, due to physical or chemical changes, is within reasonable limits.

As the mountains, plateaus and the ocean areas from equilibrium there must have been a transfer of material from the column of the earth's crust under an area where elements are deposited, back to the area from which the material was lifted by water and wind. Dr. Bowie believes that the flow of material in place just below the crust, that is, somewhat below 60 miles.

### Forest Fire Out.

#### RAIN STILL FALLING.

The forest fire which has been burning in the neighbourhood of Bay Falls is now out. Rain fell all night and this morning completely extinguishing the flames. The residents of the village, endangered by the fire, have returned to their homes. Active work in fighting the fire was done by the residents and men from two companies.

McGuire's Ice Cream now ready for delivery. Wholesale only. Phone 794.—Just!

OLD SIDEWALK UNCOVERED. During the excavation work at western end of the Court House where a new cab stand is being built, workers uncovered a square of wooden sidewalk as used before the fire of 1892. The blocks which were tarred and laid on a board pavement are in a fairly good state of preservation.
