Ignoble End of the Anarchist Caserio.

Spectators Applauded When the Head of M. Carnot's Murderer Rolled Into the Basket.

Lyons, Aug. 16 .- After the work of fitting up the guillotine for the execution of Santo Caserio had been finished at 4:30 o'clock this morning, Headsman Diebler went to the prison to bring Caserio to the guillotine. When the director of the prison | cine, in the United States. went to call Caserio he found him fast asleep. He said: "Caserio, the hour has come. Your must expiate your horrible crime." Caserio sat up in bed, but said nothing. The prison director added, "There are judges to hear your dying con-fession." Caserio replied, "I have nothing to say to the judge. I do not wish to hear the chaplain. I have no recommendation to make." All this he stammered out in a trembling voice. During his toilet he said not a word, but he trembled violently and it was necessary for the attendant to almost carry him to the van waiting for him. When the guillotine was reached he twisted and struggled violently, trying to resist the headsman's aides, but without avail.

A few minutes before 5 o'clock the condemned man was led from his cell to the guillotine. His arms were firmly bound behind him. When the attendants seized him to lay him under the knife, he struggled fiercely to free himself. At 4:55 o'clock all was ready. Caserio shouted, "Courage comrades! Long live Anarchy!" The knife fell at 5 o'clock precisely, and Caserio's head dropped into the basket. At the moment of the fatal stroke, applause burst forth from the crowd. Spectators who had witnessed a number of executions stated they had never observed on any former occasion this spontane-

ous expression of the satisfaction of the spectators at the death sentence. The body of the murderer having been claimed by members of his family, the usual autopsy on the remains was not performed. The corpse was hurried directly to the Cimiterie Guillotier. When the basket was opened the head of the victim presented a disgusting spectacle. At the point where the knife had cut through the neck the skin had rolled back in ridges on the back of the head, showing the had been subjected by the vicstroke. The remains were thrust into a coffin, the head being placed between the legs of the corpse, and without ceremony the coffin was thrown into the grave and quickly covered with earth.
