H. C. Becher, stock broker, Bank of commerce building, received the following private wire from Bartlett, Frazier & New York, April 15. - Although the pening of the stock market today howed substantial strength, a reactionary movement speedily developed, and prices broke without any particular pressure behind, distinctly in evidence. It has been a noticeable feature of Saturday trading recently that Chesapeake & Ohio.. 58 Chicago G. Western. 23% Chicago & Alton.... 40% Col. Fuel & Iron... 54% Delaware & Hudson.194% low prices are established in the short session. This, of course, may be ex-plained on the ground that the possi-bility of a battle in the far east may eause a serious upset over Sunday, and traders are disposed to reduce their commitments to a minimum. There was nothing in the news today warranting such a break, except on this theory. The bank statement was com-paratively good, showing an increase in loans of \$8,851,000; an increase in eash of \$3,569,000, and an increase in deposits of \$11,601,000, and an increase reserves of about \$670,000. For a short time preceding the bank statement the market was steady with an inclination towards strength, but although the bank statement was rela-tively good the selling movement was renewed on its publication. During the Southern Pacific. last half-hour the market was irregular, with some good buying, but equally god selling being in evidence. U. P., S. Steel. 37% 44 43½
