WORE THEM WHEN I WAS A LITTLE HOARSE.

WHEN YOUR BODY ACHES AND PAINS

THERMOGENE is a light, dry, medicated wool which generates heat when applied to the human body. It provides the quickest and most convenient way to treat pain caused by colds and chills. An aching knee, a sore throat, a stiff back, or a throbbing muscle is at once relieved by applying a pad of THERMOGENE.

Your Doctor will recommend Thermogen

Enuresis (Bed-Wetting) and Enuresol Tablets

Incontinence of urine in adults, commonly known as bed-wetting in children is more common in boys than in girls. Incontinence or bed-wetting has been considered incurable when it persists beyond maturity. Incontinence of urine is more common in women than in men. Constant or very frequent urination, day or night indicates some abnormal condition or disease.

Enuresis may be caused by paralysis, the secretion of a large amount of urine, as in diabetes, calculus (gravel), cystitis, irritation of the penis, worms, unduly sound sleep, dreams or gastric disturbances.

It is claimed by many people that bed-wetting will be outgrown. This is true to a certain extent; bed-wetting may stop, but the cause remains. ENURESOL TABLETS removes the cause of which bed-wetting is only a symptom.

This theory has been proven correct by the uniformly good results obtained with ENURESOL TABLETS in young and old, as the following typical cases from our records show, names of which will be furnished

R. D., Minnesota: Girl, age 14 years, had always been a bed-wetter, although apparently well otherwise. Her parents tried many treatments, medical and mechanical, without benefits. Seven weeks after beginning to use ENURESOL TABLETS she stopped wetting the bed, but continued the treatment six week longer and she has had no return of the trouble since.

R. G. Wayne, Michigan: Boy, 11 years. Three years ago his mother ordered four boxes of ENURESOL TABLETS and four months later reported the boy had not wet the bed for six weeks, and since reports the trouble has not returned.

Mrs. W., Milwaukee, Wis.: Age 44 years, had never had a full night's sleep, having to get up four to eight times a night. Visited Hot Springs, mud baths, sanitariums, and was operated on twice in two different hospitals without benefit. Six weeks of ENURESOL cured her completely three years ago and has had no return of the troublesome nulsance.

F. J., Minnesota, 75 years old, is no less interesting. For over 25 years F. J. suffered with incontinence of urine, day and night. As he grew older the trouble increased, having to pass water every half hour or oftener. Had a stroke of paralysis which increased the trouble to such an extent that only a few drops of bloody urine could be voided with intense pain, causing surgeons to suspect cancer of the bladder. Being placed on ENURESOL at the dose of two tablets every two hours with a glass of cool water or milk, the tenesmus disappeared in twelve hours and had a good restful sleep the next night, and fully recovered perfect last report was still alive and well.

It is important to regulate the diet, and overeating, coffee, and acid foods should be used sparingly.

ENURESOL TABLETS are absolutely safe and harmless, being a tonic for the kidneys, bladder and nervous system.

It is dependable for weak, nervous, restless, slow-growing, languid children. A fair trial of ENURESOL TABLETS will convince you of their value. Enuresol Tablets for Sale by
