The new bread by-law is now finally under way, and it promises to create some little stir among the bakers ere long, unless they are particularly careful in the matter of giving full weight, as the penalties, which include the confiscation of a whole batch of bread, are severe. London is threatened with an ice famine this summer. The fate of the enormous supplies stored in local icehouses is in the hands of the Government analyst for this district, Dr. Harrison, and should it happen that the river ice does not come up to the standard required, as Dr. Hutchinson reports to be the case with the Cove ice. the result will be hard to contemplate so the dealers the effect will be disastrous. The question will next arise, Where can a good supply be obtaine?

"see here, mister, your's quite a young chick, but you have pretty old moves," was what Ald. O'Meara said to Ald. Jones at the last meeting of the Board of Works. The circumstance which called forth this of giving the heart to God and doing all remark was Ald Jones proposition that the estimates for Wards 3, 4, 5 and 6 should be increased, and Nos. 1 and 2 left was made to all the world, to each person, to secure the support of the interested no matter how vile and sinful he may be, Wards and thus be carried into effect. Ald. O'Meara was not included, and he, naturally enough, kicked, when the popular young member for the Third Ward laughed the proposal off as a joke. But behind the little controversy lay the old evil of the Ward system, where some sections of the city suffer the support of a majority of the Aldermen to run through a scheme which would benefit the sections represented by these Aldermen, while the others received an appropriation of next to nothing.
