

## AMENDMENTS TO VETO BILL

Marquis of Lansdowne Offers  
Those Proposed by Opposi-  
tion in House of Lords—  
Home Rule Exclusion

LONDON, July 4.—In the House of Lords this afternoon the Marquis of Lansdowne, leader of the opposition, moved the official amendments to the veto bill. The amendments provide for the exclusion from the operation of the bill of the section relating to Irish home rule, for a joint sitting in case of a disagreement between the two Houses, and for a referendum to the country in other cases.

The Marquis argued that without such safeguards, the crown, the church and the liberty of every institution of the country would be at the mercy of a majority of the House of Commons, which might be representative of a minority of the electors.

Lord Morley, the spokesman of the government, announced that the government could not possibly accept the amendments.

Sir James Whitney, the premier of Ontario, interviewed on the imperial conference, said a strikingly unpleasant feature was the disinclination of the overseas premiers to push various propositions.

Earl Wadsworth inspected the Canadian cadets today. The Overseas M. P.'s visited Belfast today, were lunched by the chamber of commerce and left at night for the Clyde.

The Daily Express understands that Sir Frederick Borden, minister of militia and defense in the Canadian cabinet, is likely to succeed Lord Strathcona as high commissioner for Canada.

## AMERICAN PICNIC THOROUGH SUCCESS

Fourth of July Celebration at  
Sidney Largely Attended—  
Speeches and Sports Fea-  
tures of Outing

As the Hon. Dr. H. E. Young, acting premier of British Columbia, stated in his address—that he felt he was among friends—such was the sentiment which prevailed at the second annual picnic of the sons and daughters of America at Bagan park, Sidney, yesterday afternoon. Five hundred enthusiastic picnickers boarded the train for the favorite resort in the afternoon and a thoroughly enjoyable time was spent.

Speeches by prominent citizens of the city, music by the Fifth Regiment band, sports for young and old, dancing for the younger set and an American national game—baseball filled the afternoon with pleasure. All in all, the 10th anniversary of American independence could not have been celebrated with more success in Canadian territory, and as Mr. C. C. Michener announced from the platform in such a matchless climate.

Among those who were heard during the afternoon were: The Hon. Dr. H. E. Young, American Consul A. E. Smith, Judge A. A. Freeman, Mr. W. J. Milroy, Mr. C. C. Michener, while the Rev. W. C. Dring led in the invocation. Consul Smith acted as chairman.

**Historical Resume.**  
Consul Smith inaugurated the open-air meeting by delivering the interesting historical resume of the United States and its flag. He felt proud of the way in which the United States had advanced from thirteen states, to the forty-eight sovereign states of today. How it had increased in population from three million to ninety million. Where civilization was found, there would be found American genius and capital. In all parts of the world, Americans and British made civilization and all were brothers in blood. All worshipped the same God and their ambitions were the same—to make a better world. He envied the young people present who had yet their generation to live, one to follow the great advancement that was destined. The British empire had just celebrated, in the Coronation, a grand affair, and it gave him pleasure that an American battleship—the Delaware—had been launched.

He felt that fighting between the two great countries (United States and Great Britain) was a matter of the past, as he hoped to see them arbitrate all matters and differences in the future. Consul Smith was thankful to his government for having spent 12 years in Victoria and he stated that in point of service he was the oldest consul in Canada. He had never spent happier years than those which he had spent in Victoria and British Columbia.

He felt that this province should be proud of the native born son who had honorably earned his position at the head of the government of the province. He referred to Premier McBride, who had guided the province from bankruptcy to prosperity, and who now was representing his people in London. It gave Consul Smith, in closing his remarks, great pleasure to call upon the gentleman with whom the distinguished British Columbia have been entrusted during the premier's absence in London.

**Hon. Dr. Young.**  
The Hon. Dr. Young, who was enthusiastically received when he rose to remark, said that the address which had been delivered by Consul Smith was

traying for a modest man. He felt that he was among friends, friends of America. In behalf of the province he said that the most kindly feeling existed for those across the border. Education had played an important part in the up-building of the United States, and in all western towns, the first thing that was erected was a schoolhouse. In the states, upbuilding of the land was due to education. As John Knox had said: "Each child should be able to read his own Bible and sign his own name."

Mr. C. C. Michener proposed the toast both to the King and the President, filling the latter in the absence of Judge Coghlin who was to have been present. Mr. Michener, in his first toast, "To the King," spoke of the coronation, in which the whole Anglo-Saxon world was interested. It was one of the great events in the history of the Empire. As in all other great events it was centered in a personality. The personality was His Majesty the King. Mr. Michener, briefly spoke of the King's home life and his sympathy with the church. The greatness of the Empire rested on the Bible. His message to President Taft was a good criterion of the able personality of the King. Mr. Michener felt that King George was now being brought to the British Empire together, as it never had been brought before. He felt sure that all would join him in their admiration of the King and in saying, "God Bless Him."

Mr. Michener was next called upon for a second toast to President Taft, and he felt that it was due to him to say as all others had said, that any American boy could become president of the United States. History has borne out the statement. President Taft had worked for his position. The Panama canal movement started by ex-President Roosevelt, was now being completed by President Taft, and he believed that British Columbia would profit more by it than any other part of the Pacific coast. President Taft was doing, out of his own country, for the United States, what the British Empire did for the world by the Suez canal.

**Matchless Climate.**  
To celebrate the great day in such a matchless climate was a pleasure, and he wished President Taft great blessing as he led his own people at home.

In concluding an impressive toast to "Our Flag," Mr. W. J. Milroy, said, "The time is not far distant when the Union Jack and the Stars and Stripes will be united in a federation of offence and defence, and when that time does come, those two flags will be the peacemaker of the world."

Judge A. A. Freeman, the last speaker of the afternoon, dwelt lengthily on a toast to "Our Neighbors." In speaking of Canada and the United States, he did not indulge in the hope recently expressed by the Rev. M. A. Matthews, of Seattle, that the two countries would soon live under one flag. The speaker trusted that no such condition should ever exist. He felt that there was no more reason why the two countries should be consolidated than that Pennsylvania and New York should be united into one state. "Canada is a great federal Dominion divided into provinces, ours a great federal nation divided into states," he said. The speaker further dealt with international arbitration, expressing the hope that if the other nations refused to join the coalition, Great Britain and the United States would agree that there should be no war between them. In concluding his remarks, which touched upon the Panama canal and other subjects, he amended the sentiment and said of "our neighbors," "May they always be right—but right or wrong, they will always be 'our neighbors.'"

National anthems and several other favorite American songs were sung, the music being supplied by the Fifth Regiment band. The sports, which were most successful and interesting, including a fat man's race, which evoked much laughter, were held commencing at 4 o'clock.

The results follow:  
Boys under 8 years, 40 yard dash—1st, Jack Walker; 2nd, Lester Newman.  
Girls under 8 years, 30 yard race—1st, Florence Stevens; 2nd, Irene Smith; 3rd, Tina Delgarna.

Girls' race under 15 years, 50 yard dash—1st, S. Smith; 2nd, F. Brown; 3rd, L. Lee.  
Boys under 15 years, 50 yard dash—1st, E. Lee; 2nd, R. Lee; 3rd, W. Veitch.  
Needle threading race—1st, H. Shadd; 2nd, T. Angus; 3rd, T. Smith; 4th, A. McCormack.

Ladies' free-for-all egg and spoon race—1st, Miss H. John; 2nd, Mrs. Bushell; 3rd, Mrs. L. O'Brien.  
Pat man's race—1st, Mr. A. J. Close; 2nd, Mr. D. O. Cameron; 3rd, Mr. P. Webb, late of Boston, Mass.

The baseball game between the American boys' team and the corona team, resulted in a win for the latter by 12 runs to 2.

**Washout on C. P. R.**  
PERDUE, Sask., July 4.—A washout on the C. P. R. line west of Perdue, held up the passenger train westbound, and four freights. There has been rain every night for two weeks.

**MONTREAL, July 4.**—Six women were injured when the ladder wagon answering a fire alarm, crashed into a street car. Three of the victims sustained broken limbs and the others were badly shaken.

**Cedar Hill Flower Show.**—A flower show and strawberry and ice cream social will be given by the ladies' auxiliary of St. Aidan's church on Thursday in the Temperance hall, Cedar Hill. The flower show will open at 7 p. m., the social at 8.30 p. m. Among those who have consented to take part on the programme are: Mr. D. D. Hutchinson, piano; Mrs. J. B. McCallum, recitation; Mr. Hutchinson, song; Miss Sessmith, song; Mr. Taylor, song; Mrs. Andrews, Zulu sketch; Miss Steinmetz, recitation; Mr. Canard, song; Mr. C. Earlbach, violin solo. A conveyance for those who are going from the city will leave for the hall on Thursday evening at 7.15 from the corner of Fort and Government streets, and from the corner of Pandora and Fernwood road at 7.30. A pleasant evening is promised to all those who attend.

Hon. W. R. Ross returned from the sound last evening.

## HANDSOME GIFT FOR UNIVERSITY

Sir William Macdonald Purchases Million Dollars' Worth of Montreal Property and Presents it to McGill

MONTREAL, July 4.—Sir William Macdonald has completed the purchase of the Molson and Law estates on the top of the mountain, adjoining Mount Royal Park, and presented the property to McGill University, to be used by it for extension purposes.

The purchase price was over a million dollars, and this brings the total of Sir William's gifts to McGill to \$10,000,000.

## RIOTOUS SCENES IN MANCHESTER

Dock Workers in Cotton Metropolis Still Refuse Settlement—Provision Trade There Badly Hampered

LONDON, July 4.—Further sensations in the shipping strike were reported today. It was decided to concede an increase of ten shillings and four pence commensurate advances to other classes of men. These terms were accepted.

The dispute at Fifehead also was settled. The strike of the dockers in London has not yet been arranged, and riotous scenes continue at Manchester, where the provision trade there has been brought almost to a standstill through the failure of the conference. Efforts to arrange a compromise continue.

**Assigned to Canada.**  
OTTAWA, July 4.—It is understood that Col. G. Watkins will be assigned to duty in Canada by the war office as mobilization staff officer under the plan of the military reorganization recommended by General French.

**Taken Over by Swifts.**  
TORONTO, July 4.—The World will announce tomorrow that Swift & Company will take over and operate the packing plant of D. B. Martin Co., at West Toronto, making it their Canadian headquarters.

## REVOLVER SHOTS STOP FUGITIVE

Suspicious Characters in Mid-  
night Man-Hunt Draw Of-  
ficers' Fire—Robbery May  
Have Been Planned

There were weird doings in the neighborhood of the Lion saloon on Monday evening. Revolver shots ringing out about the still midnight air, shouts and sounds of fleeing feet aroused the neighborhood to a state of great excitement. Was it a riot, a murder, an armed invasion or merely a new scheme of the cunning father to get rid of the license of the saloon, the latter a project which has been agitating the minds of the governmental solons for a considerable length of time.

No one guessed the real truth. The incident combined the elements of a burglar alarm, a robbery, a police arrival on the scene of police officers fully armed, and a stern man-hunt, which, whatever the real distance, appeared to the sleuths of indomitable length.

"From information received," said the authorities delight to state, the police were notified of the presence in the neighborhood of the saloon of a number of suspicious characters. The neighborhood was immediately alerted, and a police force was sent. Detective-Inspector O'Leary in full panoply of titles and authority hid themselves to the scene. Some up-to-date scout work was indulged in and the enemy located, but the latter with true military tactics beat a masterly retreat. The officers, not in what might be termed Marathon trim, but on occasion can travel. The chase through the trees, over fences and across fields was a stirring one. The last of the trio of disturbers was not trotting to the record and was would reach for his hip pocket as if he had there something which would put a stop to the pursuit, but the pursuers were wide awake and every time the police officers—not at all near the fugitive—made him change his mind. With a yell he bounded forward, but after a chase which actually measured a shade under the half mile, but which seemed to the officers to be an extended clear across country to Gordon Head, the tail-end of the trio ahead stopped

and was taken in charge. The other two got clear away.

The captured one, Giuseppe Schmitz, who admitted to Italian nationality, was taken to the police station. Yesterday morning he was arraigned on a charge of carrying concealed weapons in the shape of a murderous-looking revolver and was sentenced to a term of one month in jail.

The police believe that the three suspicious characters were loitering in the neighborhood of the saloon intending, after closing hours, to attempt a robbery. It was only the fortunate discovery of their presence by some neighbors that prevented their purpose, whatever it was, being carried out.

**Insects Invade Manitoba.**

WINNIPEG, July 4.—Black beetles and grasshoppers have crossed the United States boundary by the millions into Southern Manitoba in the last few days, and are devastating the grain and potato crops.

**Oklahoma Town Scorched.**

FORT SMITH, Ark., July 4.—According to a report received here tonight, the business section of Braggs, Okla., fifty miles west of here, was almost entirely wiped out by fire today. Among the buildings destroyed were half a dozen stores and the post office.

**Premier Stolypin Ill.**

ST. PETERSBURG, July 4.—Premier Stolypin, according to the Bourne Gazette, is ill, having become over-fatigued by state duties. It is rumored that he will retire from office, and with his family take the cure at Elsterbad, Germany.

**Tribute to George Washington.**

LONDON, July 4.—W. T. Stead, editor and author, presiding today at the annual Fourth of July celebration at Browning hall for the veterans of the civil war, said that to no man did the debt of gratitude owed by the British Empire to a great statesman owe more than to George Washington, "the greatest Englishman of the 18th century." Washington, said the speaker, had indirectly taught Great Britain how to maintain and extend the British Empire.

## WINDERMERE'S SCENIC ROAD TO BE SURVEYED

Work Preliminary to Construc-  
tion of Provincial Govern-  
ment's Section is Authori-  
zed by Hon. Thomas Taylor

The Provincial Minister of Works, Hon. Thomas Taylor, who has just returned from a six weeks' official tour of the Interior, has authorized the immediate prosecution of a survey of the Banff-Windermere scenic road by Mr. Haffner, of Vancouver, approximately 100 miles long, and a highway construction, involving upon the British Columbia authorities, while the Dominion is building westward through the National Park Reserve to connect with the Provincial section. The survey is expected to be completed during the present season, and no delay will be permitted to occur in the carrying forward of the undertaking.

During his recent tour Hon. Mr. Taylor had the pleasure of officiating at the laying of the foundation stone of the handsome new court house and public building at Kaslo, the ceremony marking Coronation Day. The structure will be of the far-famed Kaslo white marble, which the minister speaks of in terms of enthusiastic appreciation. Being both durable and beautiful, he is at a loss to understand why it has not sooner commanded the attention of building contractors and architects throughout the entire province. That it contains no iron, and is not subject to the common fault of white marble—rust—is evidenced by the Nelson court house, which has now stood for several years and bears no signs of decay.

The energetic public works minister will make but a short stay at headquarters—only long enough to clear his desk of accumulated business—and will leave at the end of the week for Golden, having arranged to make a comprehensive tour and inspect all pending road and other public works in the Columbia district. Afterwards he goes to Fort George, about the 1st of August, to personally overlook the large amount of road work under way in upper Cariboo.

**Nine in Philadelphia.**

PHILADELPHIA, July 4.—Nine accidental deaths from heat were reported today, making a total of 24 within the last two days. The maximum temperature here was 96 degrees.

**Struck by Lightning.**

OTTAWA, July 4.—During a storm which visited Ottawa on Sunday night, a building struck by lightning was crowded with holidaymakers, most of whom jumped. One girl was burned about the face and arms.

**Cathedral Destroyed.**

FREDERICTON, N. B., July 4.—During a severe electric storm last night the Church of England cathedral was struck by lightning and destroyed by fire. The loss is about \$140,000. The church was considered one of the finest in eastern Canada.

**Fatal Explosion in Toronto.**

TORONTO, July 4.—While employees of the gas company were looking for a leak in a restaurant on Bay street this afternoon, a spark from an electric fan ignited gas. The interior of the restaurant was blown to pieces. Arthur Brady and Jesse Cartwright were probably fatally burned and the front of three adjoining buildings were blown into the street.

Mr. Alfred Hood and family are enjoying the midsummer vacation under canvas at Shawigan lake.

## LITTLE RELIEF FROM HEAT WAVE

Great Part of United States  
Grilled Severely on National  
Holiday—South is Coolest  
Section of Country

WASHINGTON, July 4.—As a protest on behalf of "Young America" against the wave of "safety and sanity" making for greater physical comfort which characterized the celebration of the national birthday, the elements held the greater portion of the country in the most acute heat wave of the year today.

Of the 54 observation stations of the weather bureau, in this country, twenty-two recorded official maximum temperatures of 100 degrees or more, while a considerable majority showed more than 90 degrees.

The greatest heat area was in the middle and central western states, although New England and the northern lake states were not far behind. The south, however, was relatively cool, and except that most of the territory along the borders of the northernmost end of the Great Lakes also was cool, it would almost have seemed as if the points of the compass had reversed themselves for the day. The Pacific coast was also a notable exception, that part of the country enjoying pleasant weather.

The greatest heat recorded was 104 degrees in the weather observatories, which in numerous instances meant a temperature of almost 110 degrees at street level. Eight cities, Albany, Boston, Charles City, Des Moines, Kansas City, Omaha, Sioux City and Indianapolis, reported this maximum of 104 degrees.

Records of July heat, records were broken in several cities including Chicago, St. Louis, Kansas City and Cincinnati.

In the great farming sections of the west, crops suffered damage. Hay crops were almost total loss, while the fruit crop will not average more than half its usual yield.

Hundreds of deaths are reported from the cities, and the number of heat prostrations will run well into the thousands.

No immediate relief is in sight, although in some sections there probably will be a slight alleviation from existing conditions.

**Ottawa Suffers.**  
TORONTO, July 4.—Wells are failing, crops drying up and fruit is falling, result of the continued heat throughout the province. The temperature commenced to drop today, and is now down to 82 and rain is promised before morning. Forty-three children have died in Toronto from the heat in the past three days. Two babies died on the train last night, one of them being a daughter of a General who was en route to Edmonton, who succumbed at St. Mary's Falls, and had to be buried in an unnamed grave.

**Chicago's Report.**  
CHICAGO, July 4.—This was the hottest day with two exceptions, in the history of the local weather bureau, the thermometer at 5 p. m. indicating 101.5 degrees, and the street level at the same time was 104 degrees. Railroads leading to summer resorts ran special trains, which were crowded, and lake boats were jammed to the legal limit. Dwellers in the apartment districts slept on roofs, sidewalks and alleyways. Every street stairway was occupied by adults stripped to the limit of semi-nudity, and all but naked babies.

**Searching for Diamonds.**—Mr. E. Jacobs, the well known mining expert and journalist, has returned from a seven weeks' tour of the West Kootenay, Boundary and Similkameen districts. Of mining in the several districts visited, he speaks hopefully and optimistically. Much important development work is being done, and in several sections production is on a comparatively large scale with—in a number of instances—profitable results. Two days were occupied in a visit to Tulameen, where Mr. Jacobs had the pleasure of meeting and chatting with Mr. Charles Cammell of the Canadian geological survey. Mr. Cammell has been engaged during five or six past seasons in field work in the Similkameen country and is especially well informed as to its geology and its mining resources. When Mr. Jacobs encountered them, the members of the survey party were arranging to wash the Tulameen gravels in the endeavor to find diamonds in the wash, it being held probable that as diamonds have been shown to occur in the solid rock of the locality there may be some others found in the river gravels.

**Mercer Weston, manager of the Taylor Safe Works' branch at Vancouver, lost his life in a yachting accident Sunday. Miss Braden, his companion, was providentially rescued.**

Civic workers in North Vancouver now receive 35 cents per hour, the standard prevailing in Vancouver.

Leaders are being invited by the Dominion government for the erection of the new \$75,000 post office and federal building at Vancouver—another sign of an approaching election.

In Vancouver a few days ago a young girl from the district sold a bear cub to a circus for a \$10 bank note. She had the bear "on a chain," and walked lustily as she parted with her pet.

Hope will soon have direct telephonic connection with Vancouver.

The B. C. E. R. Co. carries an average of six hundred passengers daily between New Westminster and Chilliwack.

At Ocean Falls a hotel with eight rooms is being built for the use and accommodation of the pulp mill employees.

## THE CURSE OF THE NATION IS CONSTIPATION

"FRUIT-A-TIVES" ALONE CURES  
THIS DISEASE

A famous scientist states that Constipation, or non-action of the bowels, causes more deaths than all other diseases combined. Constipation inflames the Kidneys, ruins digestion, is the foundation of Rheumatism, poison the blood, causes Headaches, Neuralgia, Nervousness and Insomnia.

Constipation is caused by a weak or sluggish liver. Bile, the only purgative of the body, is secreted by the liver, which in turn should pour out into the intestines sufficient bile to move the bowels regularly, and Constipation is the result.

"Fruit-a-tives," the famous fruit medicine, will always cure Constipation because it acts directly on the liver—relieves the congestion—increases the quantity of bile—and strengthens the bowel muscles.

50c. a box, 6 for \$2.50, or a trial size, 25c. At all dealers, or from Fruit-a-tives Limited, Ottawa.

**Zam-Buk**

is the best remedy  
known for sunburn,  
heat rashes, eczema,  
sore feet, stings and  
blisters. A skin food!

All Druggists and Stores—50c.

## Corrig College

Beacon Hill Park, Victoria, B.C.  
Select High-Class BOARDING COLLEGE FOR BOYS OF 8 to 16 years. Refinement of well-appointed buildings, a home in lovely BEACON HILL PARK. Numbered, outdoor sports. Prepared for Business, Life or Professional careers. Examinations. Fees inclusive and moderate. L. D. Phone, Victoria 118. Autumn term.  
Principal, J. W. GEORGE, M. A.

**COLLEGIATE SCHOOLS FOR BOYS**

The Laurels, Rockland ave., Victoria, B.C. Headmaster: A. D. Munket, Esq., assisted by J. L. Moulter, Esq., B.A. Opened 1898 and a half acre extensive recreation ground, gymnasium, cadet corps. Xmas term commences September 12th. Apply Headmaster.

**LAND ACT.**

Form No. 9. Form of Notice.  
Victoria Land District, District of Coast Range 3.

Take notice that F. W. Brown, of Wollaston, England, occupation lumberman, intends to apply for permission to purchase the following described lands: Commencing at a post marked W. N. W. cor. lot 140, Range 3, Coast, thence 20 chains, thence north 10 degrees 30 minutes east to Salmon River, thence following said river in a southerly westerly direction to a point due north of initial post, thence south 20 chains more or less to point of beginning.

FREDERICK W. BROWN,  
R. P. BROWN, Agent.

**LAND ACT.**

Form No. 9. Form of Notice.  
Coast Land District, District of Coast.

Take notice that Mary Jane Whitaker, of Vancouver, B. C., married woman, intends to apply for permission to purchase the following described lands: Commencing at a post marked W. N. W. cor. lot 140, Range 3, Coast, thence 20 chains, thence north 10 degrees 30 minutes east to Salmon River, thence following said river in a southerly westerly direction to a point due north of initial post, thence south 20 chains more or less to point of beginning.

MARY JANE WHITTAKER,  
HARRY W. HUNDY, Agent.

Dated May 25, 1911.

**LAND ACT.**

Form No. 9. Form of Notice.  
Alberni Land District, District of Alberni.

TAKE NOTICE that the Wallace Fisheries, Limited, of Vancouver, B. C., occupation Cannery, intends to apply for permission to purchase the following described lands: Commencing at a post marked W. P. L. D. E. and planted on the extreme east end of an island known in Kitimo Bay, Quatsino Sound, and locally known as (Whiskey Island) situated about three chains due north from our present Cannery site, the purchase to include the island containing ten (10) acres more or less.

WALLACE FISHERIES, LIMITED,  
ALEXANDER SUTHERLAND, Agent.  
Date 8th May, 1911.

**LIQUOR ACT, 1910—SEC. 49**

Notice is hereby given that on the sixth day of July next, application will be made to the Superintendent of Provincial Police for the transfer of the license for the sale of liquor by retail in and upon the premises known as the Port Augusta Hotel, situate at Comox, British Columbia, from Joseph B. Holmes to John C. Clarence, of North Bend, British Columbia.

(Sd.) J. B. HOLMES,  
JOHN C. CLARENCE,  
Applicant for Transfer.

**Struck by Torpedo.**

SARNIA, Ont., July 4.—Nell Hanna, youngest son of Hon. W. J. Hanna, provincial secretary, was injured Saturday night by the explosion of a torpedo on the street railroad track as he was wheeling home. A portion of the torpedo penetrated the leg to the bone.

**Record Heat at St. Louis.**

ST. LOUIS, July 4.—Heat records for a fourth of July here are shattered today when the mercury reached 101.7 degrees. Nine deaths were reported during the night. The police have reports of 22 prostrations and of these some will die.

**STUMP PULLING.**

THE DUREST PATENT STUMP puller, made in four sizes. Our smallest machine will remove 140 tons pressure with one horse. For sale or hire, 1214 B. Street, Victoria, B. C. This is the only machine that will pull stumps in a B. C. industry made. It shows you it at work. Write for particulars and terms apply 468 Burnside Road, Victoria, B. C.

**WATER NOTICE.**

NOTICE is hereby given that an application will be made under Part II of the "Water Act, 1906," to obtain a license in the Esquimalt Division of the District.

(a) The name, address and occupation of the applicant: Fleming Hewitt, Merchant, Esquimalt.

(b) The name of the lake, stream, or source of water, the description of the proposed works, and the location of the proposed works.

(c) The point of diversion of the water.

(d) The quantity of water applied for (in cubic feet per second).

(e) The character of the proposed works.

(f) The premises on which the water is to be used (describe same) and the location of the proposed works.

(g) The purposes for which the water is to be used (describe same) and the location of the proposed works.

(h) The area of Crown land intended to be occupied by the proposed works.

(i) Give the names and addresses of the riparian proprietors or licensees who are affected by the proposed works, and who are below the outlet.

(Signature)  
W. O. SWEATMAN,  
Pro. FLEMING HEWITT.

(P. O. Address)  
Metochin P. O. B. C.

**DR. GORDON C. HEWITT,**  
Dominion Entomologist, says, referring to the infantile death rate from intestinal diseases and diarr
