## PUTS HEALTH AND VIM INTO WOMEN

So Says Mrs. MacPherson of  
Lydia E. Pinkham's Vege-  
table Compound

Brantford, Ontario.—"I was always  
tired and the least exertion would put  
me out for a day or two. I had a  
pressing pain on the top of my head,  
pain in the nape of my neck, and when  
I stooped over I could not get up with-  
out help, because of pain in my back.  
I did not sleep well and was nervous  
at the least noise. I kept house, but I  
was such a wreck that I could not sweep  
the floor nor wash the dishes without  
feeling as if I were doing a great deal  
of work. I told my husband what Lydia E.  
Pinkham's Vegetable Compound had done  
for her. I began to take it. With the first  
bottle I felt brighter and got so I could  
wash dishes and sweep without having  
to be helped. Later I became regular  
again in my monthly terms. I have  
taken ten bottles all told and am now  
all better. I can truly say that your  
wonderful medicine cannot be beaten  
for putting health and vim into a wo-  
man."—Mrs. JAMES H. MACPHERSON,  
320 Greenway St., Brantford, Ont.

## SAYS BILLION FEET OF LUMBER DAMAGED BY RECENT FOREST FIRES

Boring Insects Begin to Threaten Merchantable Lumber  
Left—Starting Crews to Cut Damaged  
Timber.

Fredericton, Aug. 8.—The Minister  
of Lands and Mines, Hon. C. W. Rob-  
inson, who left the Empire Forestry  
Conference here, was at his office to-  
day engaged in consideration of the  
problem of the removal of the timber  
for the large area of the province  
which was covered by the fires of the  
early summer. Col. T. G. Loggie, I.  
S. O., deputy minister, was in confer-  
ence with the minister. An area of  
700 square miles was covered by the  
fires and one billion feet of lumber is  
estimated to be standing in a more or  
less damaged condition. The problem  
is how to remove that timber in as  
short a time as possible so as to pre-  
serve its merchantable qualities to as  
great a degree as possible.

Dr. J. D. Tohill, of Fredericton,  
who is in the Dominion Entomological  
Service, has returned from the head-  
waters of the Tobique, where he in-  
spected a considerable area of the  
fire-swept timber land. He stated  
that eggs of the boring insects which  
cause the damage to the burnt timber  
as it stands, have been laid in immense  
quantities and that the prospect is  
that the borers will work their will on  
all timber which cannot be removed.  
Many of the operators who have  
limits in the country covered by the  
fires already have started crews to  
log the burnt trees. Only a minor  
portion of the damaged timber can be  
logged in the present season, possibly  
400,000 feet. During succeeding  
season the damage by the boring in-  
sects will be so great that the timber  
can be disposed of only as damaged and  
at a reduced price.

## FORESTRY MEN IN THE WOODS

Shanty Dinner and Other En-  
tertainment For  
Visitors.

Tuesday, July 31, the Miramichi  
district was favored with a visit from  
the delegates of the Empire Forestry  
Conference and undoubtedly this will  
be a very great advantage to this  
section of Canada. These gentlemen,  
who are touring Quebec and New  
Brunswick before the conference in  
Ottawa begins, came by automobile  
from Bathurst to the J. B. Snowball  
deposited camp on the Bathurst Road.  
There they were welcomed by promi-  
nent lumbermen of the Miramichi and  
were given an opportunity of partici-  
pating in a genuine "woods dinner."  
After a very satisfying meal prepared  
in Cook Morrissey's best style, W. B.  
Snowball, who presided at the dinner,  
proposed the toast "The King," which  
was honored in the usual manner and  
then the health of the woods near the  
camp was drunk. In replying to the  
toast, Mr. Snowball spoke briefly, giving  
an account of his firm's connection with  
the lumber business in that section  
during the last forty-six years.

After dinner, at which about one  
hundred were present, some time was  
spent in visiting the woods near the  
camp. The visitors were fortunate in  
having an opportunity to meet Dr. J.  
D. Tohill, Dr. F. C. Craighead and M.  
B. Dunn of the Federal Department of  
Entomology, who furnished much in-  
formation about insect pests. Various  
lumbering methods were illustrated  
around the camp and two hours were  
spent very profitably. The visitors  
had an opportunity of meeting Frank  
O'Connor, camp guardian, who for  
over sixty years has been connected  
with lumbering on the Tobique.

On the way from Bathurst to the  
deposited many paid a visit to the Red  
Mud Lake.

are in the market to purchase their  
Tie requirements for 1924. Parties in-

Agent, Room 802, Canadian National  
Express Building, Montreal, Que., on  
or before August 15th, 1923, and give  
the following information. The loca-  
tion of the timber from which the  
Ties are to be produced. The kind of  
timber. Quantity of Ties, either sawn  
or hewn. As far as possible, Ties  
must be produced on Canadian Na-  
tional Lines.

## "NO BANANAS" SONG EARNS \$60,000

Million Copies Have Been Sold  
Already—Their First Musi-  
cal Success.

New York, Aug. 6.—"Yes, We Have  
No Bananas" is a \$60,000 tune.  
When a squawking fruit hawk  
disturbed the late morning sleep of  
Frank Silver, leader of a jazz band in  
a New York food and noise emporium,  
he started something. Silver and his  
band, Irving Cohen, banded to-  
gether and taking a tip from the fruit  
vendor's plea made a life sized song  
hit. It will net them between \$50,000  
and \$60,000.

The piece already has sold into  
seven copies and it is easily es-  
timated that another million copies  
will be sold. Stacks of phonograph  
records have been purchased. The  
music rolls for player pianos, pressed  
together would be nearly as long as  
an expense account.

"Banana Boys"  
It is the first time Silver and Co-  
hen ever sold. They had written many  
before. When they took it to a  
prominent publisher he offered them  
the usual \$200 advance. They were  
so sure they had a hit they held out  
for an advance of \$1,000 and got it.  
They get a royalty of 2 cents per  
copy, and a royalty from each record  
and music roll sold. On top of that,  
they jumped from comparative ob-  
curity into musical fame and are now  
known as the "banana boys."  
It is their first cash—and according  
to the tradition of Tim Pan Alley—  
where songs are made or broke, it  
probably will be their one and only.

## "THAT'S GOOD, READ MORE." WERE HARDING'S LAST WORDS

Dead President Was in Bed Listening to Mrs. Harding Reading  
an Article in Which He Was Mocked When  
the End Came Without Warning.

San Francisco, Calif., Aug. 6.—  
"That's good, go on read some more."  
These were the last words uttered  
by President Harding to Mrs. Harding.  
Mrs. Harding was at his bedside  
reading aloud when she paused and  
looked at the President, according to  
Alfred Holman, San Francisco pub-  
lisher and close personal friend of the  
President, who visited the sick room a  
few moments before the end came.  
Mr. Holman told interviewers that  
the President's hand raised as he asked  
Mrs. Harding to continue reading.  
Instantly his expression changed. He  
was dead.

Mrs. Harding was reading an article  
entitled "A Caim Bayler of a Caim  
Man," in which President Harding was  
the main reviewed.

After writing the song the composer  
played it for three months in the cafe  
in which they jass with their musical  
comrades each night. It was a ten-  
demonous hit. The audience joined in  
the chorus each night.  
From Coast to Coast.  
Now it is whistled and hummed  
from the Battery to the Golden Gate.  
Prize fight crowds are entertained  
with its idiotic words. Staid waiters  
in wholesome restaurants have quit  
their tip-grabbing jobs because they  
feared insanity from being at the  
joker's end of the season's bromide  
a thousand times a day. Bananas  
and cream have become friends again  
and the produce merchants claim sales  
have mounted so rapidly they almost  
have to say—"Yes, we have no bananas  
today"—then another host load  
comes.

Publishers of the song had to fore-  
go the hit on their Chicago representa-  
tives and California refused it flatly.  
That was at first. Now in three  
months the unusual song had seeped  
into every hamlet and thousands of  
copies are being sold daily.  
It started an epidemic of "crazy  
songs" and one may expect to hear  
most any crazy title announced within  
the next few weeks. Already the  
"Yes, We Have No Bananas Blues"  
has arrived.

170 DANISH FARMERS  
ARRIVE AT QUEBEC  
Quebec, Aug. 5.—Upwards of 170  
Danish farmers arrived here on the S.  
Montreal yesterday. They are  
in charge of Carl Jacobson, who has  
brought out other parties of farmers  
from Denmark. "But never in such  
large numbers as the present con-  
tingent," he said.

The day's programme was conduc-  
ed by a pleasant sail on the river on  
board the Alexandra, which returned  
to her wharf about ten o'clock, when  
the delegates boarded their train. At  
eleven o'clock the journey to St. John  
commenced.

The members of the conference, who  
came from all parts of the Empire,  
were headed by Major General Lord  
Lovat, and among them were James  
Calder, Col. Coulthope, P. P. W.  
Brantley, general manager of the  
Miramichi Lumber Company, and  
everything possible was done to make  
the visitors' stay in this district a  
very pleasant one.

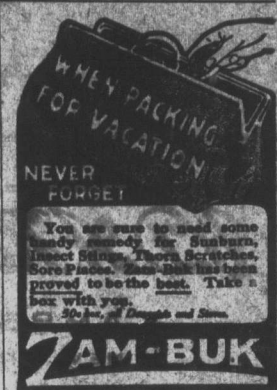

Local arrangements for the visit  
were in the hands of Messrs.

Brantley, general manager of the

everything possible was done to make

The Dominion Government was re-

Director of Forestry, and the C. N. R.  
management had committed the com-  
fort of the delegates to C. E. Howatt,

lines.

## STUDEBAKER

**The Verdict of  
81,880 Buyers**

During the first six months of this year, 81,880 buyers named  
STUDEBAKER as their choice of motor cars. This volume  
of business was the largest ever accomplished during any  
six months' period in Studebaker's history of 71 years.

Sentiment did not influence the preference of these eighty-  
one thousand buyers. It was simply a case of selecting the  
car that offered the highest quality and value.

Thousands of buyers are daily turning to the Studebaker  
Light-Six, for example. At its price of \$1395, this car offers  
the greatest motor car value on the market and a type of  
six-cylinder performance that was formerly confined to the  
very highest priced cars. Extensive manufacturing facilities,  
large scale production and the elimination of middlemen's  
profits through complete manufacture in Studebaker's own  
plants, make possible in the Light-Six, the combination of  
high quality and low price.

To be able to buy a Six, practically free from vibration,  
for less than \$1400 is an opportunity not duplicated anywhere  
in the world. Elimination of vibration adds immeasurably  
to the life of the motor. It is one of the reasons for the  
universal high resale value of the Light-Six.

The Light-Six is durable, powerful, flexible, affords smooth,  
quiet operation and can be throttled down to a walking  
pace in high gear. It is easy to drive, convenient to park,  
takes the hills on high and holds sustained speed over long  
stretches hour after hour.

Stop in and let us prove what a vast difference there is  
between the Light-Six and other cars at about the same  
price—or between the Light-Six and cars of other makes  
costing several hundred dollars more. There's a reason for  
that difference. It's worth knowing.

## EIGHTEEN KILLED IN THREE AUTOS

Train Slaughtered in One  
Car—Another Slays  
Five.

Buffalo, August 6.—Eight persons  
were instantly killed and two fatally  
injured late yesterday afternoon when  
a train crashed into an automobile  
truck carrying a picnic party in Ni-  
agara Falls. Mrs. Camille Caprio  
and her five little children were killed.  
Angelo Bartello, 35 years of age,  
and a lady were also killed. The  
husband of the dead woman and an-  
other man were fatally hurt.  
Caprio had banded his family in  
his automobile and invited several  
friends to accompany them on an ad-  
venture to Lewiston Heights to eat their  
picnic meal. As the truck was  
leaving the city at the Sugar road  
crossing of the R. W. & O. a passenger  
train struck the vehicle squarely and  
smashed it to kindling.

Five Killed.  
Fresh and blood were scattered  
along the track for yards. Every  
automobile in the city responded to  
the alarm and several parties were on  
the scene almost as quickly to admin-  
ister the first aid.

They were residents of Gloucester  
and Westville, N. J.  
One Escapes.  
Teaneck, N. J., August 6.—Two per-  
sons were drowned and a third sus-  
tained injuries that proved fatal when  
an automobile in which they were rid-  
ing along Fort Lee turnpike, early  
yesterday, got out of control, plunged  
from the highway and overturned in a  
brook 12 feet deep. The driver of  
the machine escaped injury.  
The dead lady and Mrs. N. S.  
Johnston, of Teaneck, and Mrs. Peter  
Erickson, of Bogota.  
Johnston and her wife were dead  
when taken from the wreckage. Mrs.  
Erickson died after she had been taken  
to her home. Her husband, a busi-  
ness contractor, was at the wheel, but  
jumped before the car struck the  
water.

## BENJAMIN SPENCE WON LIQUOR PRIZE

"Canada's Pussyfoot" Disguis-  
edly Hurls Bottle of  
Whiskey to Deck.

London, Aug. 7.—Benjamin H.  
Spence, of Toronto, secretary of the  
Canadian anti-liquor movement, has  
arrived in England and has been  
promptly hailed as "Canada's pussy-  
foot." Spence has come to England  
to attend a meeting of the Supreme  
Lodge of Good Templars to be held  
in London, August 9 to 17, after  
which he will go to an international  
conference at Copenhagen. "I am  
British to the core," he said, "and a  
great believer in the people of Britain  
and the British Empire, but if Great  
Britain wishes to resign anyone among  
the countries of the world she must  
adopt prohibition, especially if we are  
to hold our own against the United  
States." He expressed the opinion  
that it was only a question of time  
before this country would be dry.  
During the voyage Spence won the  
first prize in a deck quota competi-  
tion, and for this some passengers  
presented him with a bottle of white  
key. He smashed it on the deck in  
disgust, much to the distress of the  
onlookers.
