

THE TORONTO WORLD.

WEDNESDAY MORNING, MAY 11, 1910.

LOCAL NEWS PARAGRAPHS.

Ald. Hewitt of London is spending a few days in the city.

Last week the city carriers delivered 132,744 letters and 57,068 newspapers.

Wm. Clougher, an ex-policeman of this city, is running a hotel at Port Arthur.

Bishop Carberry of Hamilton was in the city yesterday and visited several catholic institutions.

The dominion civil service examinations began yesterday before P. LeSueur, B.A. The qualifying exams begin today.

Archibald Nixon was fully convicted of bigamy in the police court yesterday. The magistrate said he would pass sentence on May 19.

Farley & Co. have had the name of their store, "Bon Marche," registered at Ottawa through James Beatty, M.P. The registration covers the province of Ontario.

Mayor Boswell and City Solicitor McWilliam left for Ottawa last night and will appear before the railway committee of the privy council to-day for the King street subway.

Through a misprint we were made to say that the sales at the Central Presbyterian church social Monday night were sung by Miss Hay. It had been printed Miss Lay it would have been exactly right.

The court of appeal did not meet yesterday. Chief Justice Haggarty's commission as chief justice of the court had not arrived and Judge Burton is absent on circuit. It is understood the court will meet next week.

The dominion license commissioners held a meeting in the court house yesterday afternoon and considered a few new applications and transfers. A public meeting of the board will be held on Monday morning at 11 o'clock.

Eleven carloads of excursionists from Cobourg and intermediate stations visited the city yesterday. The excursion was under the auspices of the Ladies Aid Society of the Methodist church, Cobourg. The excursionists had a wet day of it.

To-day the Bon Marche will show 10 cases of their New York bankrupt stock, consisting of Cheville Collars, Ties, French Flowers, Feathers, Laces, etc., etc., selling at half the price of any store in the city. Farley & Co., 7 and 9 King street east.

STILL ON THE ESPLANADE.

The Joint Committee has another sitting and Green ever the site of the Esplanade.

Mayor Boswell, Ald. DeFoe, F. C. Denton and Messrs. W. Ince, W. B. Lee, A. Nairn, T. Galbraith, Alex. Manning and W. B. Hamilton were present at the meeting of the Esplanade committee yesterday afternoon.

Mr. Manning pressed his resolution in favor of planking the spaces on the Esplanade between the tracks. Mayor Boswell thought the resolution premature. It was finally carried, but Mr. Manning consented to allow it to stand, awaiting further developments. It will not be reported to the council until the scheme has reached a more mature stage.

In the discussion the members of the committee wandered over old ground. It was decided not to re-open the question of allowing switches to be placed on the new street, although Mr. Galbraith pressed for a reconsideration.

The solicitor's opinion was a synopsis of the Esplanade agreement of 1895, and held that the subscribing companies have a right to 100 feet of space on the Esplanade for unloading purposes each day. Messrs. Manning and Nairn held different views. Mr. Galbraith was opposed to the abolition of freight delivery on the Esplanade. All danger would be thought to be averted if shunting were done at night. A resolution to this effect will be considered at next meeting.

Ontario Health Bulletin.

The temperature for the week though varying much, has been nearly an average one. Though there has been a large number of cases of bronchitis, due to these changes, it is remarkable that the first week of May last year was that in which bronchitis fell from its high winter prevalence, to below 10 per cent of the total reported diseases. Rheumatism and neuralgia have not greatly altered their relative positions. Amongst fevers, influenza has similarly again made a somewhat further advance, typhoid not appearing amongst the first twenty diseases. Anemia is of interesting note as in a marked manner continued to show the same peculiarity of prevalence as it did last year. Amongst zymotic diseases, mumps, whooping cough and diphtheria appear, the latter in only small amounts. Diarrhea maintains the advance reported with considerable regularity during the last month or so, and is to be feared will continue to further increase. Once more the absorbing topic of the week as regards disease has been small-pox. It having broken out in several more sections, illustrates most admirably how a contagious disease spreads. As yet, this outbreak has not been directly connected, as far as learned with the recent London case, but the contiguity of the places where it has appeared, makes a common origin probable—week ending May 3.

French Red Beds in all shades, 12 in a bunch for 25 cents, at the Bon Marche, 7 and 9 King street east. Farley & Co.

Last Annual Meeting of the Corn Exchange.

Affix eighteen years of existence the Toronto corn exchange association held its last annual meeting yesterday, prior to its amalgamation with the board of trade. The committee of management said in its report: "We exceedingly regret that it is not of a more congratulatory character. The past year has been one which is likely to be long remembered by every member of the association as being the most unsatisfactory from a business point of view, in the history of the association." J. Goodall, treasurer, reported as follows: "We commenced the year with a balance of \$198. We have collected on account of subscribers \$1085, and we have to report that there are no arrears in receipts. We have also received \$200 on account of the \$10 assessment, our total receipts, together with balance in hand, being \$1883. Our expenditures, for rent, coal, duty, audited, amount to \$1708, leaving a balance in hand of \$180. Five members have not yet paid their assessment. This amount, which we seek to collect, will make the balance \$230."

County Court and General Sessions.

County Court and general sessions opened yesterday before Judges Boyd and McDougall. Judge Boyd delivered a lecture

ture on temperance to the grand jury, and

advised the dominion license act was better calculated to promote temperance than the Ontario act.

The first case tried was an appeal by James McCreary of Holland Landing, who was fined by Justice E. Jackson and Wm. Cane for selling liquor after hours. The case was up at last court when the jury failed to agree. This time the appeal was sustained.

The grand jury was engaged all afternoon, but did not return any true bills. Judge Boyd will hear the criminal business and Judge McDougall the civil. Preliminary list for to-day: Jennings v. Napapan, Burnham v. McCaffrey, Knox v. Godson, Mitchell v. Nairn, Knowles v. Power, McHardy v. Jones.

Splendid heavy White Counterpanes, large size, sold everywhere for \$1.75; Bon Marche price \$1. Farley & Co., 7 and 9 King street east.

Who is the Toronto Man?

Cueph Herald: A sewing machine man, a commercial traveler and a gentleman from Toronto went fishing Monday to Eransosa. They returned at 10.30 p.m. completely fagged. The Toronto man had two small clubs, while the basket of the other was empty.

The Theatres.

The Hanlons played to another good house last night, and the vast audience immensely enjoyed the performance. There will be a matinee this afternoon, and the engagement closes to-night.

The Royal museum is having a good run during its last week.

A Treat for Smokers.

S. Davis & Sons, the celebrated cigar manufacturers, with their usual enterprise, have obtained control of the celebrated Havana brand "Eugeno" and "Mauricio."

THINGS IN GENERAL.

Six distilleries of Durham, Conn., are making extracts of water from the true American republic in Salt Lake City.

A Minnesota paper has dedicated itself to the "abolition of poverty, ignorance, wickedness, drunkenness, injustice, perversion of law, oppression and evil."

"No," said the druggist, "there is not such an awful profit on a glass of soda water. We have to throw so many things away when we don't see the wink."

"Used you pretty rough, didn't he?" remarked a sympathizing bystander to a man who had just got a most awful licking.

"Well, no," replied the subdued one, "I though he polished me off very nicely."

Dr. Duprez of the Hospital de la Charite, Paris, though a freethinker, disapproved the exclusion from the hospitals of persons connected with the religious bodies, and says that the lay assistants are far inferior in skill to the sisters.

A Norman saint, the senior partner in a Salt Lake liquor store, was chosen on a Saturday to preach the gospel in Great Britain, and the morning police, in view of the fact, within twenty-four hours arrested him for selling liquor on Sunday, for which he was fined \$50.

On Easter Monday the blue coat boys went, according to ancient custom, to the mansion house in London where 684 received a new abiding fresh from the mint; thirteen monitors received one penny and seven deputy monitors ten and six pence and forty-one Grecoians two and six pence.

A quarter of a century ago \$600,000 was raised in various ways to put the organ in Music Hall, Boston, where it was supposed it would be a fixture. But it has to migrate. It will be played for the first time in the present auditorium on May 14, and then will be removed to the Conservatory of Music.

It appears that inventors have still an opportunity to distinguish themselves in the matter of drainage traps. Dr. Sherman, in the Sanitarium, says "The trap has yet to be invented which will exclude sewer gas, and which will retain a perfect seal against siphonage and evaporation in the absence of proper ventilation."

Lord Rowton, it is said, finds his work of producing the memoirs of Lord Beaconsfield very difficult. The papers are enormous in number, and absolutely without order or arrangement. Lord Beaconsfield seems to have kept everything in the shape of letters, disposing of them by the easy process of throwing them into a large bag.

Charles F. Ritchel of Bridgewater, who tried to invent a flying machine, will get \$100,000 to perfect the invention with from the estate of Maxwell, a millionaire brewer of Milwaukee, who left \$200,000 for experiments in aerial navigation, one-fifth of it being specified as for Ritchel's machine. Ritchel will begin experiments on a large scale.

James B. Garrison, the living skeleton who married Bertha K. Clear of Hoston—she was on exhibition at the dime museum in Philadelphia, died last week at Union. He took his separation from his bride of a night very much to heart, and went into a sanitarium, where he may yet live to see a dress dinner looking like a scene from the School for Scandal.

A recently published report states that out of every thousand recruits for the Russian army examined in 1892, 57.5 per cent were rejected for physical disability, 400 of these were thrown out as being "too narrow chested," 190 for consumption and 10 for poverty of the blood. Investigation showed that over 50 per cent of the men of St. Petersburg between 20 and 22 were "weak and sickly."

The last census of France gives the number of insane persons as one in every 444 inhabitants but Dr. Lunier, in a recent lecture at the Sorbonne, says the real proportion is seven to every 200 or 300 inhabitants. Dr. Lunier remarked that in countries presenting the same degree of civilization, the proportion of insane people is identical.

Dr. Gelle of Paris has found that 20 to 25 per cent of children hear only within a limited range. A practical result of this discovery is that children are now placed at such a distance from the teachers' desk as will correspond with their strength of hearing. The matter does not appear to have attracted much thought of late, but the obvious importance is now likely to attract attention to our teachers.

The Russian finance minister attributes the gloomy condition of finance, trade and industry in Russia to the competition of the United States, Canada and India as wheat exporting countries. This is a mistake in the corn trade, it is added, affected land owners, who, consequently, bought less of manufacturers. Manufactured goods also suffered from overproduction, chiefly as regards cotton goods at railway rolling stock.

LIVING WONDERS.

Where the Astonishing Human Curiosity Case From.

For years the public have been presented with all sorts of living wonders. They have assumed all shapes, colors, and are of every size. They seem to spring up in countless numbers, and yet they are in demand. Where do they come from? This question has been asked hundreds of times, yet the public seem to be as ignorant as ever upon the point. It was to gratify such curiosity that the writer dropped into the office of Harris' museum the other day and repeated the interrogation.

"Where do curiosities come from?" asked Manager Harris.

"From all parts of the world. It is a singular fact, however, that the most marvellous wonders are from America. It leads the world in this respect. The two-headed lady, Millie Christine, is a native of North Carolina; the tallest man in the world is not, but a Scotchman. The Kentucky (his wife comes from Nova Scotia). There are at least 50 giants springing up from Maine to Texas. Dwarfs can be counted by the hundreds in every State. America has produced four tattooed ladies, a tiny trout, the sewing machine maker, Albinos are so plentiful in production that their salary is almost that of a laboring man. Circusians, so called, are manufacturers of every grotesque. I know of three pretty girls in this city who are upon exhibition as the first, original and only women in the world. One is direct from the sultan's harem, by John Greenwood, the well-known agent of P. T. Barnum. Fortunately for Mr. Greenwood, he is not responsible for these mistakes, as he lived long before most of the beautiful Circusians upon exhibition were born. Looped up boys are mostly from the southern states, which also produces the spotted girls. All the armless and legless wonders hail from this side of the Atlantic. The only prehistoric wonder was born in this state, and first introduced here. Europe contains but few living curiosities, as a whole, and you are mostly from the southern states, which also produces the spotted girls.
