Henry Allen to John J. Dixon & Co.: To-day there was a slight reaction, which was entirely natural. In the first place the day's work comprehended only the business of the day itself, and the transactions of several days were not crowded into one. Again it is almost a settled rule in Wall-street that the second day of the week is one of indecision and uncertainty, and this con-

dition sometimes continues until the latter days
of the week, when inspired by the hope of a goo
bank statement the market moves upward,
