Now, why not give your naturally sound disposition a chance? Dr. Fierro's Pleasant Peppermint Tablets.

They correct your disordered liver, clear up your system, and make life look different to you.

Keep a bottle of these tiny Tablets in your vest-pocket. They'll give you a permanent relief from Biliousness, Constipation, Indigestion, Sick or Bloating Headaches, and every derangement of the liver, stomach and bowels.

The makers are so sure you'll be satisfied that they'll agree, if you're not, to return the money.

For twenty-five years these Tablets have sold on their merits. Why buy other pills, when P. E. F. are "guaranteed"?

There's nothing like this to be had anywhere.

Diversity of Employment. Editor World: The advantages of creating a diversity of employment for men and the fatal results of a different policy, so ably contended for by Mr. W. F. Maclean, were never better exemplified than in the late civil war between the North and South.

The former were great in iron and steel, every kind of industry, workers in iron and wood, weavers of cotton and wool, ship-builders and navigators, all perfected by a system of protection extending over many years.

Their gunboats ran up the rivers of the South, and rendered decisive many a battle and siege; their cannon and rifles, with the heavy Southernners with deadly effect, whilst their mills and granaries supplied their armies with food and raiment.

On the other side, the Southernners had no diversity of occupations. They were agriculturists and planters, drawing all their manufactures from the North in exchange for their products of cotton and sugar.

And mark the result. The heroism of the halcyon and the steel of the North like chaff before the wind. White Confederates, dining off the fat of the land, and drinking cold water the Union man was feasting on the best and warm him up for the next trial by combat.

And this is what some people are trying to bring about, so that we might all an easy prey to our enemies. There is considerable method in their madness, but the people of Canada have weighed them in the balance and found them wanting. They are disreputable and disgraced politicians, who seek to drag others in the same pitfalls, out of which they can never emerge.

To Kill a Companion's Face With Bird Shot.
