"INGRAIN CARPET."

The high standard of manufacture which the owners have adopted. Extra-uper In-grain, strictly standard in the number of "Ends," apparent in the dissoction of warp. The high grade of filling yarns employed and careful attention to weaving minutize. Exceeding, in weight per yard, the com-mercial standard governing extra-soper in-grains; also tastefulness of design, and for matching qualities incident to even selvedge and general uniformity.

"AXMINSTER CARPET."

a sense of the hollowness of the The The mangosteens from Singapore, caviare of sterlet from Moscow, canvas back ducks from Washington and the larded veni-son you still get in some houses of the Dutch Cape farmers. Had science kept pace with her pro-mise of 1880, and transport cheapened so that everything on earth was in easy, instantaneous and regular communicamise of 1880, and transport cheapened so that everything on earth was in easy, instantaneous and regular communica-tion with avary other spot, we should not be fobbed off with new-laid eggs produced a fortnight ago by a Russian of Ireland than the lastest bull. However, since the means of com-munication have not been materially cheapened or abbreviated, and the structure of ether and matter are still as mysterious and as far beyond our ken as the origin of evil, it can hardly be denied that it is about time that in-ventors gave us a new vegetable, a new is all very well, but, like literature, it is a good walking-stick and a bad crutch. We know all about it. There is a book devoted to the drossing of it in a hun-dred ways. I remember Prof. Holab telling me in Africa that in the Masho-kolumbwe country there was a tasty vegetable that he thought might be in-troduced as a new invention in Europe. Let us have it. We want the favor of the mangosteen combined with the order of mangold-wurzel. Mot the meat and poultry! Who is not weary of the eternal gamut of ox, sheep, pig, hen; hen, pig, sheep, ox; sheep, ox, hen, pig? The thing can-not dainty as a race, but we have stood the monotony of our diet long enough, and we want a new edible flesh. Some the mutton, but all four are somewhat and we want a new better than beef and mutton, but all four are somewhat and we want a new edible flesh. Some the mendony of our diet long enough, and we want a new delbe flesh. Some the monotony of our diet long enough, and we want a new delbe flesh. Some the monotony of our diet long enough, and we want a new delbe flesh. Some the monotony of our diet long enough, and we want a new delbe flesh. Some the new drink we want an exhibit anting of look of an ewe egg. As to what is needed. Both are delicious. Ford and ham are better than beef and into the stimulus of good lawed the the stimulus of good caret, the delicacy of fine tea, the ordicinal value of milk, at the price of anall beer.

K

claret, the dencady it at the price of medicinal value of milk, at the price of small beer. Out of doors, a noiseless, durable and healthy pavement for the roadways is a feit want. For the space of a few feet, when passing under the hotels at Euston or the Midland Railway, there is such a pavement. Perhaps it is india rubber, and we are told that guita percha is so many shillings a pound, and the thing cannot be done. Well, let it be done. The wooden pavements destroy our throats, asphalto the Prevention of Cruelty to Animals and as the macadam—our nerves, now adays, simply will not stand it. As the the granite setts that still linger in som parts of London, they are always asso munity of goods, and other signs of frankly barbarous society. My space grows brief. I must crow into a column all that might fairly bug

thto a column all that might fairly be book. In short, we need— A non-conducting metal. A carpet material unaffected

A carpet inaterial unancert gravitation. This would cheapen trav between England and India, not b ween India and England. A process that shall effect for matter that which the telephone has done f sound: viz., resolution into its constit ent elements, and accurate synthesis the other end of a wire. This would an alternative to the suppression gravitation for traveling purposes, a would develop the Parcel Post. Color photography.
