This large advance on former years does not entirely arise from any special increase in the central library, but is contributed to by the branches.

1893. 1894. Increase

By reference to the statistical tables it will be seen that the increase has been evenly distributed over all classes of books, the only one which shows a diminution in percentage being fiction, which is now reduced to 46 per cent. over the whole library. The whole tendency of the circulation since the establishment of the library the lishment of the library has been in the direction of a reduction in the issue of fiction, which, amounting to 65.5 per cent. in 1885, was only 46 per cent. in

Bishop, the Victim, Lying in a Precarious Condition. Berlin, Ont., Jan. 28.—Bishop, the man so brutally assaulted by three firemen Saturday evening, lies in a precarious state. Dr. Lackner fears brain fever or other complications may set in. It would appear that the assault was premeditated, as, while massed, the driver of the town fire wagon was doing the pounding and kicking. Seibert and Denges were arting as guards, and prevented any interference by outsiders.

Free Percentage of Light Literature Issued From the Public Library Exhibits a Gradual Decrease.

The last meeting of the 1894 Board of the Public Library was held yesterday afternoon Mr. Miles Vokes presided, and those present were: Messrs. H. T. Kelly, Frank Somers, W. D. McPherson and John Taylor.

The treasurer's statement was read showing that during the past year the receipts were \$33,630, and the expenditure \$33,620, lay leaving a balance on hand of \$3.81.

The report of the chairman showed that for the first time in the history of the library the circulation of books for home regaing has exceeded half a milion, and the addition of 33,571 books issued in the reference library has brought the total circulation up fo 585,5757, an increase over 1893 of 171-2 per cent.

simpment to-morrow, and that the week's outflow will probably exceed that of last week was offact by the expected message from the President to Congress. The document, in fact, proved to be what Walles to the difficulties and dangers of the present situation in currency and of the Treasury, and asks authority to issue 3 per cent. gold in order to place the country's credit on a permanent basis. The market rallied slightly on the message, but failed to show any decided advancing tendency. The feature indeed, has been the weakness of General Electric, which has been under bearish pressure throughout the day. The close of the day was marked by further bearish attacks on General Electric, and by a tendency to liquidate in other parts of the list. While the effect on prices was not marked, it would indicate the small confidence which the street has in any response by Congress to the Foreign Exchange.
