

The difference between *absolute* accomplishment and accomplishment that "*almost*" succeeds is so slight that many overlook it. Not *everyone* can appreciate the absolute perfection of the instruments of our make, but enough grasp it to *ever increase the demand* for Mason & Risch Pianos, Player-Pianos and Phonographs.

They are *to-day* better Pianos, Player-Pianos and Phonographs than they *ever* were, and if it is humanly possible to make them so, they will be still better *tomorrow!*

Mason & Risch, Limited
