AN ONLY DAUGHTER CURED OF CONSUMPTION.

When death was hourly expected, all remedies having failed, and Dr. J. J. James was experimenting with the many herbs of Calcutta, he accidentally made a preparation which cured his only child of Consumption. He calls it now in this country "Cough Cure." It has proved to the world that Consumption can be positively and permanently cured. The Doctor gives this Recipe free, only asking two three-cent stamps to pay expenses. This herb also cures night-sweats, nausea at the stomach, and will break up a fresh cold in twenty-four hours. Address CRADDOCK & CO., 303 Race St., Philadelphia, naming this paper.

MEETINGS OF PRESBYTERY.

A FAMILIAR instance of colour-blindness is that of a man taking a brown silk umbrella and leaving a green gingham in its place.

Catarh is a mucopurulent discharge caused by the presence and development of the vegetable parasite amoeba in the internal lining membrane of the nose. This parasite is only developed under favourable circumstances, and these are: morbid state of the blood, as the blighted capsule of tubercle, the germ poison of syphilis, mercury, toxæmia, formation of the effeted matter of the skin, suppressed perspiration, badly ventilated sleeping apartments, and other poisons that are generated in the blood. These poisons keep the internal lining membrane of the nose in a constant state of irritation, ever ready for the deposit of the seeds of these germs, which spread up the nostrils and down the fauces or back part of the mouth, causing ulceration of the throat; up to the eustachian tubes, causing deafness; burrowing in the vocal cords, causing hoarseness; usurping the proper structure of the bronchial tubes, ending in pulmonary consumption and death.

Many attempts have been made to discover a cure for this distressing disease, by the use of inhalants and other hygienic devices, but none of these treatments can do a particle of good until the amoeba is either destroyed or removed from the mucous tissue.

Some time ago a well-known physician of forty years' standing, after much experimenting, succeeded in discovering the necessary combination of ingredients, and has effected a large number of remarkable cures. Those who may be suffering from the above disease should, without delay, communicate with the business manager, Mr. A. H. Dixon, 377 King street West, Toronto, and get full particulars.

A GROCER had a pound of sugar returned, with a note saying: "Two much send for table use and not enough for building purposes!"
