BY USING OUR NEW.....

AA TRADE MARK **A1**
ROPE DRESSING

Best Compound Ever Made for Transmission Ropes
SAVES ITS COST MONTHLY. TRY IT.

After years of experimenting with almost innumerable compounds, we have finally found just what is wanted, a dressing that covers the rope with an elastic coating, protecting it from wear and securing a better adhesion of rope in grooves. Also forming an excellent protection against the weather when used on exposed ropes. Put up in 2½, 5 and 10 pound cans and in cases of one dozen cans of any one size.

... PRICE 40 CENTS PER POUND ...

A liberal discount to Jobbers. Order a sample can and satisfy yourself as to its excellence and superiority over all other rope dressings.
