The Town of Nanaimo is beautifully situated, having a good and safe Harbor and is a FREE PORT. It derives its importance from the well known Coal Mines, which since they passed into the hands of the present proprietors, are being extensively worked, Wharf Railway with Locomotive, &c., having been constructed, and other improvements on a large scale being projected. The exports during the first three months of this year alone amounting to 10,577 tons. There are other Coal Mines also in the neighborhood which are about to be developed.

The consumption of coal in this part of the world must continue to increase greatly.
