OCTOBER 5.

SCARCITY OF MECHANICS, LABOURERS, AND BUILDING MATERIALS. The great activity which at present prevails in re-building the Barnt District, and in erecting houses in other parts of the City, has caused an unusual demand for Mechanics, Labourers, and Building Materials. Masons, we understand, are not to be had at any price, and labourers' wages are most extravagant, a *shilling*, and, in some cases *fifteen pence an hour* being demanded. Bricks and other materials are selling at very high prices. Persons at a distance would do well to take advantage of this extraordinary demand, as, from present appearances, it is likely to continue during the whole of next season.—*Courier.*
