Printing Irreproachable

All that good taste, aided by good type, good presses, good ink, good stationery, and a long practical experience, can do to accomplish perfection in Job Printing, is at your service in this office.

No antiquated presses, no antiquated type, no antiquated ideas. No trashy stationery used in any class of job.

If you want a job nicely done—whether it be only a visiting card or a big book—I think I can do it to your satisfaction.

Archibald Irwin
